節理
Joints
層理
Beddings
海浪直接切過節理
Waves cut directly at the joints
海浪切割而成的海蝕凹
Notches formed by wave-cutting
沉積岩塊坍塌，
使中間部分繼續擴闊
Continued widening of the middle section
by collapse of the sedimentary block
海浪和風力侵蝕
使海蝕柱愈來愈低矮
Stacks lowered by wave and wind erosion
海蝕柱
Stack
7m
兩座獨特的岩塊
如「更樓」般屹立
Two extraordinary blocks stand like
watchtowers, called "Kang Lau" in Chinese
