

ICE AND THE SKY

Public Screening of *Ice and the Sky* a French Documentary about Claude Lorius

Date: December 4, 2015

Time: 7:00 p.m.

Venue: LT8, 2/F, Yasumoto International Academic Park

In the midst of the COP21 Climate Summit in Paris, a special public screening of a French documentary *Ice and the Sky* (French: *La Glace et le ciel*) will be held in the evening on December 4, 2015 at CUHK. This film, produced and directed by Luc Jacquet, tells the life and the scientific accomplishments of Claude Lorius, who was among the first scientists used ice core records extracted in Antarctica to study climate changes.

Registration

LANGUAGE: In French with English subtitles

YEAR RELEASED: 2015

PLAY TIME: 90 minutes

DIRECTOR: Luc Jacquet, director of the Oscar-winning *March Of The Penguins*

More information about the film and its associated education programme can be found at <http://iceandsky.com/>

The screening will be followed by a discussion (in English) on climate change and glaciers with Dr. Jérôme Chappellaz (CNRS Laboratoire de Glaciologie et Géophysique de l'Environnement), scientific advisor of this documentary and Professor LIU Lin (Earth System Science Programme, CUHK), a Hong Kong-based glaciologist.
