

THE CHINESE UNIVERSITY OF HONG KONG
Chinese University Student Information System (CUSIS)

To cater for the needs of various stakeholders including students, staff and alumni arising from new requirements of the 334 education reform, the Chinese University Student Information System (CUSIS) was developed to bring disparate information and data together, help link up the related processes so as to improve services to the University community, and produce quality management information more effectively.

Through CUSIS, students can manage personal and academic information online, while teaching staff can have access to and manage various teaching and learning information on one single platform. Apart from serving as a centralized database and providing integrated workflows, CUSIS also performs other functions such as online student registration (Figure 1), course enrolment (Figure 2), academic planning (Figure 3), management of personal particulars, online payments and application for credit transfer (Figure 4), hence effectively facilitates students' university life experience from admission to graduation, and extends further beyond.

Students can also browse programme information (Figures 5 & 6) and course information (Figures 7 & 8) through CUSIS. These include study scheme, programme learning outcomes, course details, enrolment information, course outcomes and class information.

Through CUSIS, staff can link up the related processes to improve various services to the University community, and produce quality management information more effectively so as to support timely decision making and execution of actions. Examples of CUSIS functions for staff include viewing students' information of classes, managing class rosters (Figure 9), viewing class grade distribution report for grading management, as well as end-of-term and graduation assessment processes.

The implementation of CUSIS has also facilitated CUHK alumni to access their own MyCUHK alumni accounts. Student information stored in CUSIS will be transferred to alumni database upon graduation, thus enabling numerous alumni services, such as updating personal contacts and applying for alumni library card, which is available by using MyCUHK alumni accounts (Figure 10).

Registration Guidelines

Notes for completing the on-line Student Record Form:

1. The admission data and personal information provided on this on-line Student Record Form will be used by CUHK for the purpose of processing student records.
2. Student may update/provide contact information to the University, but cannot amend any information on this form concerning admission records, e.g. programme of study, name, HKID no. etc. If there is any update, please provide the information in the "amendment request" section and the administration office concerned will contact you for further information/confirmation.

Study Scheme

**Geography and Resource Management
 Applicable to students admitted in 2014-15**

Major Programme Requirement

Students are required to complete a minimum of 60 units of courses as follows:

	Units
1. Faculty Package: Any three courses, offered by three different programmes/departments/schools, chosen from the following: ARCH1001, 1002, COMM1110, 1140, ECON1210, 1220, GPAD1076, 1077, PSYC1620, 1630, SOCI1201, 1202, SOWK1112, 1113, URSP1002	9
2. Required Courses: GRMD1001, 1401[a], 1403, 2001, 2102, 2105, 3001, 3102, 3301, 4001, 4002	27
3. Elective Courses:	
(a) Any one of the following courses in Physical Geography: GRMD2221, 3205, 3209	3
(b) Any one of the following courses in Human Geography: GRMD2303, 2321, 3302	3
(c) Any one of the following courses in Resource Management: GRMD2402, 3403	3
(d) At least 5 courses chosen from the GRMD Major course list as below[b]: GRMD1003, 1301, 2101, 2104, 2209, 2221, 2303, 2321, 2401, 2402, 2403, 2404, 3104, 3106, 3202, 3203, 3205, 3209, 3224, 3302, 3305, 3323, 3403, 3404, 4003, 4004, 4101, 4202, 4203.	15

GRMD 2209 - Physical Geology

Course Detail					
Career	Undergraduate				
Units	3.00				
Grading Basis	Graded				
Course Components	<table style="width: 100%; border: none;"> <tr> <td style="width: 50%;">Field Studies/Field-trip</td> <td style="width: 50%;">Optional</td> </tr> <tr> <td>Lecture</td> <td>Required</td> </tr> </table>	Field Studies/Field-trip	Optional	Lecture	Required
Field Studies/Field-trip	Optional				
Lecture	Required				
Description					
<p>This course provides an introduction to the physical domain of the planet Earth. Topics include the materials (i.e., minerals and rocks) of which the earth is made, the geological processes that act on these materials, the structures (e.g., faults, folds) and products (e.g., landforms and natural hazards) created, the geological time and natural history, and the environmental change and evolution of the planet. Along with the course lectures which introduce students to key information and concepts of the discipline, field trips and exercise stressing the application of geological techniques are held periodically to reinforce specific theories and concepts.</p>
