GPA Mainland Student Sharing

政政內地學生分享

Olivia Zhong 钟涵同学：来自廣州的二年级同学

I am originally from Guangzhou and I entered CUHK as a non-local student. I thought I was mature enough before I entered GPA. It turns out that I still felt extremely uncomfortable when I found out people around me think differently. Therefore I had a hard time blending myself into the environment and try to understand people holding a different point of view. But now I guess I am more open to differences and able to live with it.

I feel like studying GPA has made me see my own potential with lots of possibilities in the future. My seniors from the department are all pursuing different goals after graduation, which do not necessarily have to be politics-related.

My advice is that, you should get prepared before making up your mind about doing this major. Social Science is not a subject that helps you earn lots of money, but it teaches you how to think. I guess it's very important to figure out what you want from undergraduate studies.

GPA International Student Sharing

政政国际学生分享

Anna Bülow Fuglsang 李昀恩同学：来自丹麦的二年级同学

“At CUHK and GPA, I have been able to explore the variety of political science and other subjects to an extent that I did not have the capacity to imagine earlier. Actually, it has made me reflect on the fact that there is a lot of knowledge I haven't learned yet, and I am not sure how I will ever manage to learn it in a lifetime. But I have also understood that it is just about getting started, staying engaged, asking all the questions you want and challenging all sorts of thoughts to get those interesting discussions started that make you grow as a person.”
