Seminar

Some Cure Rate Models and Associated Inference and
Application to Cutaneous Melanoma Data

Abstract

In this talk, I will introduce some new cure rate models and discuss associated inferential procedures. I will illustrate the use of these models by applying them to a cutaneous melanoma data, and discuss the findings and their significance. Finally, I shall point out some other related problems that are of interest for further study.

Date: December 15 (Wednesday), 2010
Time: 11:00 a.m. - 12:00 p.m.
Place: Lady Shaw Building, Room C5
The Chinese University of Hong Kong
