

Term 2, 2020-2021

Course Code & Title:	HKSL2000F Hong Kong Sign Language II	
Language of Instruction: Hong Kong Sign Language	Units: 3	

Course Description
<p>This course is the continuation of Hong Kong Sign Language I. It adopts a communicative approach to sign language teaching, and, through exposure to situational dialogues and interactive activities, students will acquire a more in-depth understanding of Hong Kong Sign Language with respect to its vocabulary and grammatical constructions, as well as deaf culture and customs of local Deaf community.</p> <p>Important message: Face-to-face teaching is ideal for a majority of learning activities for this course. However, teaching sign language face-to-face has a lot of obstacles to overcome in view of the COVID-19 situation because sign language employs the visual-gestural modality for communication, as opposed to auditory-oral for speech. Your hands, your face and your body are all important for full expression of and communication in Hong Kong Sign Language. In executing precaution measures that are highly recommended for protection of everyone in the classroom from COVID-19, including putting on face masks in classrooms and maintaining social distancing in classrooms, learning activities would be difficult to arrange to ensure you have good access to Hong Kong Sign Language. Mixed-mode teaching will be adopted for this course presently. If the pandemic situation allows and the above mentioned precaution measures uplifted, face-to-face teaching might be adopted.</p>

Course Intended Learning Outcomes (CILOs)
<p>Upon completion of this course, students will develop Hong Kong Sign Language proficiency at A2 level in the Common European Framework of Reference for Languages (CEFR). CEFR profiles a learner's language proficiency in a number of illustrative descriptors in six levels (A1, A2, B1, B2, C1, C2). The descriptors covers language skills of production, comprehension, signed interaction, processing text, pragmatic competencies, thematic development, and qualitative factors. Acquiring the skills at A2 level, students will be basic users of Hong Kong Sign Language, being able to use the language to</p> <ul style="list-style-type: none"> • understand sentences and frequently-used expressions related to areas of most immediate relevance, including basic personal and family information, clothing, weather, transport, local geography, education. • communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. • describe in simple terms aspects of his/ her background, immediate environment and matters in areas of immediate need.

Academic Honesty and Plagiarism

Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at <http://www.cuhk.edu.hk/policy/academichonesty/> .

With each assignment, students will be required to submit a signed declaration that they are aware of these policies, regulations, guidelines and procedures. For group projects, all students of the same group should be asked to sign the declaration.

For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment. Assignments without the receipt will not be graded by teachers. Only the final version of the assignment should be submitted via VeriGuide.

Feedback for Evaluation

Our language programme highly values students' feedback and comments and is happy to use them for reflection on our teaching and improvement. Students are very welcome to provide comments and feedback on the course any time to their course teacher or the course level coordinator through email or in personal conversation. In addition, students' feedbacks will be collected in the middle of the term through an open-end questionnaire and the teacher will discuss the feedbacks in class and make improvements if necessary. The course will also follow the university's course evaluation exercise at the end of the term, and students' feedbacks will be used for future course planning and teaching.
