Additional information

XU, Jiang is an established scholar, and has extensive research experience in Chinese mainland. She has a good experience in managing and conducting projects on urban development and planning in China. She has published in top international journals such as *Annals of the American Association of Geographers*, *Urban Studies*, *International Journal of Urban and Regional Research*, *The China Quarterly*, *Environment and Planning A*, *Environment and Planning C*, *Urban Geography*, and *Town Planning Review*. She is the coauthor of the award-winning book *Urban Development in Post-Reform China: State, Market Space* (2007, Routledge), and the first editor of a volume *Governance and Planning of Mega-City Regions: An International Comparative Perspective* (2011, Routledge). She specializes in land development, spatial planning and other critical urban studies of China. As a former practitioner in international consultation firm working in China and Canada, Professor at the Chinese University of Hong Kong, immediate past President of Hong Kong Geographical Association, and a policy advisor to both Hong Kong and mainland governments, she has excellent contacts in China and is very familiar with the research climate and milieu for doing work there.
