The Chinese University of Hong Kong Calendar 1988-89 contains
information as at August 1988.

The emblem of the University is the mythical Chinese bird *feng* (鳳), which is chosen because of its symbolism as Bird of the South since the *Han* Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yüeh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects of Confucius* that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the *Four Books*)

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

INTRODUCTION

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'.

The constituent Colleges of the University are Chung Chi College (founded 1951), New Asia College (founded 1949), and The United College of Hong Kong (founded 1956). In December 1976 a new Ordinance was enacted, making important changes in the constitution governing the University and the Colleges. Ordinance of a new constituent College, Shaw College, was enacted in July 1986. The new College is to become operational in 1988.

The University is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources.

The governing and executive body of the University is the Council, which has the management and control of the affairs, purposes and functions of the University. The Senate has the control and regulation of instruction, education and research.

A wide range of full-time undergraduate programmes leading to the BA, BBA, MB ChB, BSc and BSSc degrees are offered by various Departments under the Faculties of Arts, Business Administration, Medicine, Science, and Social Science. There are five part-time degree programmes enabling students to read Business Administration, Chinese and English, Music, Primary Education, and Social Work.

Postgraduate programmes leading to the DSc, MD, PhD, MPhil, MA, MA(Ed), MBA, MDiv, MSc, MSSc, MSW degrees as well as the Diploma in Social Work, and full-time and part-time programmes leading to the Diploma-in-Education are offered by the Graduate School through the twenty-nine Graduate Divisions and the School of Education.

The total enrolment of the University in the academic year 1987-88 was 7,555, including 6,191 undergraduate and 1,364 postgraduate students.

The University has three research institutes, under which are a number of research centres. The institutes are: the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Extensions of the University include the Department of Extramural Studies and the New Asia -- Yale-in-China Chinese Language Centre.

UNIVERSITY ORDINANCE AND STATUTES

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'. The University shall (i) assist in the preservation, dissemination, communication and increase in knowledge; (ii) provide regular courses of instruction in the humanities, the sciences and other branches of learning of a standard required and expected of a university of the highest standing; and (iii) stimulate the intellectual and cultural development of Hong Kong and thereby to assist in promoting its economic and social welfare. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. The principal medium of instruction is Chinese; English is also widely used. Indeed, the majority of the teaching staff are bilingual (Chinese/English) and have studied and/or taught in major universities all over the world. The University is international in outlook and enjoys a close association with many universities, foundations and organizations abroad.

In December 1976, a new Ordinance was enacted, repealing and replacing the previous Chinese University of Hong Kong Ordinance. The aims of the University, however, remain unchanged. The new Ordinance (No. 86 of the *Laws of Hong Kong 1976*) and the Statutes of the University, and their subsequent amendments are printed on the following pages.

THE CHINESE UNIVERSITY OF HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, *to make provision for Shaw College*, and for purposes connected therewith.

 - (d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;
 - (da) the Council of the University has, by special resolution, resolved that Shaw College shall be a constituent College of the University;

General Information

THE UNIVERSITY

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizable proportion of their teachers and some of their students from Mainland China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (later Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university should be created.

The Report of the Fulton Commission, known as the *Fulton Report* and published in April 1963, recommended the establishment of a new University. The *Report* was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September 1963. On 17th October, 1963 the University was formally inaugurated.

The Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.

The second *Fulton Report* was submitted to the Chancellor in March 1976 and published in May. The *Report* recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the *Report* also recommended that the teaching of the University should reflect a balance between 'subject-orientated' teaching and small group 'student-orientated' teaching, and that the latter should be implanted in the Colleges. This 'student-orientated' teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting the challenges in a rapidly changing world. A new Ordinance to give effect to the recommendations in the second *Fulton Report* was enacted in December 1976.

In 1986, the University received a generous donation from Sir Run Run Shaw for the specific purpose of establishing a fourth College, Shaw College, which will start admitting students in September 1988. The Ordinance and the Statutes were further revised, to provide for the establishment of Shaw College.

The Ordinance and the Statutes of the University incorporating the amendments over the years are printed on pp.11-53 of this *Calendar*.

Academic Structure and Policy

The Chinese University of Hong Kong is a growing university offering a range of full-time and part-time courses which lead to Bachelor's degrees, Master's degrees and Doctorates.

There are now five Faculties, namely, Arts, Business Administration, Medicine, Science and Social Science; and forty-seven Departments offering thirty-three Major subjects and thirty-five Minor subjects for full-time undergraduate students and five Part-time Degree Programmes for working adults.

Postgraduate programmes including fourteen doctoral programmes and thirty-seven master's programmes are offered by the Graduate School through its twenty-nine Graduate Divisions and the School of Education. The latter also offers full-time and part-time postgraduate programmes leading to the Diploma-in-Education.

The Senate has the control and regulation of instruction, education and research. The Faculties advise the Senate through the Faculty Boards on the programmes of studies recommended by the Boards of Studies. The Boards of Studies are responsible for subject-orientated teaching. The Colleges, in turn, are responsible for pastoral counselling and student-orientated teaching and also provide residential accommodation. The teaching staff and undergraduate students are assigned to one of the constituent Colleges.

Undergraduate Studies

Since its inception the University curriculum has been based on a combination of credit unit system and degree examination system. After a two-year comprehensive curriculum review, the Senate ruled that a new curriculum structure be adopted for students admitted in 1986 and thereafter. The essential elements are: (a) abolishing degree examination system, (b) strengthening general education, (c) making Minor programme optional and (d) emphasizing the standard of Chinese and English languages. To this effect, appropriate revisions to the full-time and part-time undergraduate programmes are made. All the existing full-time undergraduate programmes will phase out in one year's time and those of the part-time studies will become obsolete after three years.

Full-time Undergraduate Studies

The University endeavours to provide a wide variety of Major and Minor programmes to meet the various needs of society and its students. In 1986-87, an Integrated General BBA Programme was introduced to provide a more balanced exposure to all business functional areas to each student in the Faculty of Business Administration. In 1988-89, the discipline of Information Engineering will be introduced in the Faculty of Science for the time being, with a view to developing into a Faculty of Engineering in the future.

Apart from the programme revisions in response to the curriculum review, a Minor programme in Physical Education will be introduced for implementation in 1988-89. This programme aims at providing the community with trained personnel in Physical Education and satisfying the needs of students who plan to teach Physical Education and/or coach at primary or secondary school level.

Part-time Undergraduate Studies

The Part-time Degree Programmes, launched in 1981-82, are specifically designed for working adults aged twenty-three or above who had earlier in life missed the opportunity for university education. The five Part-

time Degree Programmes offered are Business Administration, Chinese and English, Music, Primary Education and Social Work. Except for Primary Education which is basically a four-year programme, all other programmes normally require six years to complete, although entry to upper years is allowed in certain cases. With the exception of the Social Work Programme, which also has a special day-release arrangement, the programmes are offered in the evening.

Postgraduate Studies

Doctoral programmes of the University were first introduced in 1980-81. To date there are fourteen doctoral programmes. Master's programmes were first offered in 1966-67. With the introduction of the MSc Programme in Clinical Psychology in 1988-89, the total number of master's programmes has become thirty-seven.

Finance

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The total capital cost of buildings on campus amounts to HK\$466 million at June 1987. Whereas the majority of the fund comes from the Government, the University also receives generous support from private donors which stands at HK\$88 million at 1987, representing about 19% of the total capital cost.

Lands and Buildings

The University has a Campus measuring some 133.8 hectares located on a tract of land under lease from the Hong Kong Government north of the Shatin New Town in the New Territories. It commands scenic views of the Tolo Harbour to the north and Tide Cove to the east. Of late, the northeastern boundaries bordering the realigned railway tracks and fresh reclamations from the sea have been adjusted and an additional few hectares assigned to the University's custody to cater for its expansion.

The campus varies in elevation from 4.4 to 140 metres above sea level and was carved from a rocky promontory into four plateaux in the late sixties to provide the sites for buildings of the University and its three original Colleges. A fifth plateau has been formed recently to accommodate the fourth constituent College. It takes up a principal elevation at the northwest, which has been less eminent before this time as developments in the past were focused largely on the south.

The central activities buildings are located mainly at the mid-level, with Chung Chi College at the lower level and New Asia College and United College at the highest level. The expanse of land in the valley next to the University Station of the Kowloon-Canton Railway has been the campus of Chung Chi College since 1956. United College and New Asia College moved from urban Hong Kong and Kowloon to their present sites in 1972 and 1973 respectively. Each of these Colleges has its own administration and teaching blocks, library, staff/student amenities building, student hostels and staff quarters. The new college now being constructed, Shaw College, will have comparable facilities excepting lesser departmental academic accommodations as it is intended to be a residential College only.

Around the impressive tree-lined University Mall and the University Square featuring a sizable sculpture and a forum structure with reflecting pool, the following major central buildings cluster: the University Administration Building; the University Library; the Institute of Chinese Studies and the Art Gallery, its extension and annex; the Sui-Loong Pao Building and the Pi-Ch'iu Building (two teaching blocks); the Y.C. Liang Hall (a lecture hall complex); the Sir Run Run Shaw Hall (a 1,500-seat multi-purpose auditorium); the Science Centre Complex; and the Choh-Ming Li Building for Basic Medical Sciences.

Other buildings scattered at the periphery of central campus include the Benjamin Franklin Centre (an amenities building for staff and students); the Health Centre; the Sports Centre; the Li Dak Sum Building and Fung King Hey Building (both teaching facilities); Ho Tim Building (housing the School of Education and a multi-purpose hall); the Fong Shu Chuen Building (a Chinese language centre); the Marine Science Laboratory; the Estates and Maintenance Building; the Post-graduate Hall Complex (a dormitory mainly for postgraduates); the guest houses and a Transport and Security Depot. And to the north disseminated down the hilly slopes stand many blocks of staff quarters.

In less than two decades, over seventy buildings have been erected on the once barren hillside. Recent additions include a new academic building by the University Mall for sciences and engineering studies and a new staff/student centre at Central Campus.

Building projects under construction or active design comprise two student hostels (totally for 600) and an amenities building complex, an administration and education building block, guest houses and

staff residences, and a lecture theatre complex under the Shaw College development, the Leung Kau-kui Building (teaching facilities) at Central Campus and the Phase I Redevelopment of the Teaching Buildings Complex of Chung Chi College.

Other capital works being planned include further hostel and academic buildings under the Shaw College Development, a new Inter-University Hall (for visitors), a squash centre and teaching facilities for the Physical Education Unit, an extension to the University Library system, an integral building for the prospective Engineering Studies Programmes, the Phase II Redevelopment of the Teaching Buildings Complex of Chung Chi College, and an extension to the Fong Shu Chuen Building.

The Clinical Departments of the Faculty of Medicine are housed in the Clinical Sciences Building at the Prince of Wales Hospital, the regional hospital of Shatin, about eight kilometres from the main campus, which includes a hostel for medical students.

Residential Accommodation

The University provides a variety of accommodation for staff members, academic visitors and students.

Staff Housing

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are approaching 300 senior staff flats on campus in multi-storey apartment buildings plus some 100 flats for single teachers and other staff, and several blocks of quarters for minor staff.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for periods of one to two years.

Guest Houses

The University operates three guest houses which provide room and board facilities for guests on short periods of stay in the University. The Yali Guest House, completed in 1974, is a gift from the Yale-China Association. The University Guest Houses I and II began operation in 1980. Further accommodations are being planned to cater for rising needs in these respects.

Student Hostels

The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.

The Postgraduate Hall Complex, consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall, provides 250 places for graduate students as well as 3rd- and 4th-year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Lin Tang, Hua Lien Tang, Theology Building, Madam S.H. Ho Hall and Wen Chih Tang. Together they accommodate a total of 784 students. At New Asia College, the Chih Hsing Hall, Xuesi Hall and Grace Tien Hall can accommodate another 770. At United College, the Adam Schall Residence, Bethlehem Hall and Hang Seng Hall also have a combined capacity of 770. A comparable number of hostel places will become available with the Shaw College Development.

With the exception of the Postgraduate Hall Complex which has 120 single rooms, most student hostels in general provide shared accommodation in the form of twin-bed rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, interested students are advised to apply early to their respective College authorities.

In addition, the Faculty of Medicine operates the Madam S.H. Ho Hostel for Medical Students at the Prince of Wales Hospital at Shatin, the teaching hospital of the Faculty, to provide accommodation for senior Clinical students. It has a capacity of 148.

Hostel fees range from HK\$750 to \$1,665 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK\$770 to \$1,290 per month. Detailed information on hostel fees is listed on p. 223.

Liaison with the World of Learning

The University has since its inception in 1963 striven to enhance the cross fertilization of Chinese and Western cultural traditions. To this end, the University has over the years established and maintained connections with a large number of overseas bodies, including universities, institutes and centres of learning, governmental agencies, and in particular, with regional and international association of universities.

The University enjoys a close relationship with numerous overseas universities. Under an agreement drawn up in 1965, it arranges annually for an exchange of students and staff with the University of California. In recent years, the number of students in the two universities participating in the exchange has been around 10 each year. There are also student exchange programmes with New York University, the University of Missouri, and Brown University in America. Staff exchanges are also maintained with a number of French universities through the arrangement of the government of France, the majority of the outgoing staff members being China specialists. In Japan, a short-term staff visit programme with Soka University and a student exchange programme with the same and with Tsukuba University have been established. Beginning in 1982, further exchanges have taken place through the International Student Exchange Programme (Washington, D.C.), of which the University is now a member.

The University's constituent Colleges, too, have cultivated links with certain universities abroad. New Asia has close relations with the Yale-China Association, Chung Chi with the Wellesley-Yenching Committee and the Princeton-in-Asia Committee, and United with Williams College and Indiana University. For the exchange of undergraduates/graduates, Chung Chi has special arrangements with Redlands

University, Washington and Lee University, International Christian University and Keio University; New Asia with Asia University and Soka University; and United with Williams College and Indiana University.

In response to the growing demand of overseas students and scholars for Chinese and Asian studies, the University launched the International Asian Studies Programme (IASP) in 1977 in cooperation with the Yale-China Association. The Programme makes it possible for participants to take credit-earning courses on China and Asia taught in English and Chinese, as well as courses on Chinese language. So far over five hundred participants from more than twenty-five countries have joined the Programme. Owing to the growing of exchange programmes, the Office of International Studies Programmes was established in 1985. It manages University exchanges and coordinates exchange programmes of the constituent Colleges, and continues to operate the International Asian Studies Programme. For details of admission to the Programme, see p. 216 of this *Calendar*.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for more than ten years. In recent years, the University has been the venue for many regional conferences or gatherings of international stature. Some of these were organized with local organizations, others were co-sponsored with institutions abroad including the United Nations Educational, Scientific and Cultural Organization, the Inter-University Consortium for International Social Development, the International Association of Schools of Social Work, the International Public Relations Association, the Association of Commonwealth Universities, the Josiah Macy Jr. Foundation in America, the International Development Research Centre in Canada, French National Centre of Scientific Research, the Association of Southeast Asian Institutions of Higher Learning, and the Southeast Asian Mathematical Society.

The international character of the University has been significantly enhanced by foreign government contributions to the language and literature instruction programmes. Visiting lectureships have been provided by the governments of France, West Germany, Italy and Japan for instruction in their respective languages, and many graduates of the University have obtained fellowships for advanced studies in these countries. In addition, the University has since its very early days benefited from grants from various foundations for staff development, research, scholarships and exchange programmes. These foundations include the Lingnan University Board of Trustees in New York, The

Asia Foundation, the Yale-China Association, the Harvard-Yenching Institute, the World Health Organization, the Leverhulme Trust and The Japan Foundation.

Cooperation with other universities has always been encouraged and maintained through various associations of universities. Today, the University is a member of the Association of Commonwealth Universities (ACU), the Association of Southeast Asian Institutions of Higher Learning (ASAIHL), and the International Association of Universities (IAU). It has also been closely associated with the Committee for International Co-operation in Higher Education (CICHE) in the United Kingdom.

Over the years, the University and its staff have developed academic links and research collaboration with many educational and research institutions in China. As a result of the recent open-door policy in China, such exchange activities have been stepped up considerably. Each year, the University received several hundreds of academic visitors from all parts of China, representing virtually every academic discipline. They participate in research work, give lectures and seminars and attend staff development courses. Formal exchange agreements have been concluded by the University or its individual departments with the Peking University, Tsinghua University and Academic Sinica in Beijing, the Hebei Academy of Sciences, the Northeast University of Technology in Shenyang, the Fudan University in Shanghai, the Zhongshan University, the South China Normal University in Guangzhou, the Nankai University in Tianjin, the Guangxi Medical College in Nanning and the Shaanxi University in Taiyuan. The University has also offered courses on international trade and management development for universities and Ministries of China. Teachers of the University have served as honorary professors, advisers and consultants for various Chinese institutions.

THE CONSTITUENT COLLEGES

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of the three original Colleges, viz. Chung Chi College, New Asia College and the United College of Hong Kong has been reconstituted. Each College Board is mainly concerned with the management of the movable property and of certain College buildings entrusted to it, as well as the promotion of scholastic and cultural activities of the College.

There is an Assembly of Fellows in each College chaired by the Head. It assumes responsibility for making and implementing decisions on various matters relating to the College.

With the expansion of the University, the facilities of the three original Colleges have reached almost maximum utilization level. The possibility of a fourth college was explored with a view to coping with the further development of the University. In January 1986, the University received a generous donation of HK\$100 million from Sir Run Run Shaw, a long-time friend and benefactor of the University, for the establishment of the fourth college in the University. The University Council subsequently decided that the new college be named "Shaw College" and invited Sir Run Run to become its Patron. To give legal effect to such a development, 'The Chinese University of Hong Kong (Declaration of Shaw College) Ordinance 1986' was enacted in July 1986. The new College receives its first students in 1988.

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to meet the need for a local institution of higher learning that would be both Chinese and Christian. In 1955, it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only sixty-three students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul's Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable

support. In 1956 the College moved to its permanent site in the New Territories, in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Theological Training

From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers' salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968, the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University's entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

Academic and Cultural Activities

The College spares no effort in fostering a cultural environment for staff and students. It organizes periodic seminars and staff-student get-togethers to discuss topics of general and educational interest. Regular gatherings include the 'College Life Committee Luncheon', 'Tolo Nocturne' and the weekly assembly. The College also invites distinguished scholars to visit the College on a short-term basis to meet with staff and students to broaden their horizon. For this purpose, a 'Siu Lien Ling Wong Visiting Fellows Programme' has been established.

To encourage students' study and research, scholarships, grants, prizes, summer research assistance are offered, and exchange programmes with universities abroad are arranged.

Students and Extracurricular Activities

In academic year 1987-88 Chung Chi College had a student enrolment of 1,896, of whom 933 were men and 963 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese. About one third of the students are Christians.

Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they

are responsible for the many cultural, athletic and extracurricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.

New Asia College

New Asia College was founded in 1949 by its former President, Dr. Ch'ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.

The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years.* It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, the Ford Foundation, and the Ming Yu Cultural Foundation, Hong Kong. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Academic and Cultural Activities

The cultural and academic activities of New Asia College are many and are held throughout the year. Distinguished international scholars are invited to visit the College under different programmes. They include the Ch'ien Mu Lecture in History and Culture Programme, the New Asia Ming Yu Foundation Professorship Programme, and the New Asia S.Y. Chung Visiting Fellows Programme. To increase scholarly and cultural interchange with various parts of the world, the College has also awarded faculty members the New Asia Ming Yu Research and Visiting Grants to enable them to present papers at international conferences or to pursue professional interest abroad. Prominent members of the local community are also frequently invited to talk to faculty and students on cultural or general topics at monthly dinner gatherings and biweekly assemblies.

Students and Extracurricular Activities

In academic year 1987-88 New Asia College had a student enrolment of 1,861, of whom 941 were men and 920 were women. Approximately

* The Yale-China Association resumed activities in Changsha and Wuhan in 1980.

57% of the student population received scholarships, bursaries or other forms of financial assistance.

Extracurricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies. Students of the College are offered at least a year of hostel residence in their undergraduate years so that they may appreciate more deeply the value of mutual help and cooperation in community life.

United College

The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees' offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Later in December in that same year, the College moved from the premises at Bonham Road to the new campus.

In May 1972, Sir Kenneth resigned from the Chairmanship of the College to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo. In November 1983, Dr. the Hon. P. C. Woo resigned as Chairman of the College, following his appointment to the membership of the University Council. Sir Run Run Shaw, Deputy Chairman, was then elected Chairman, and the consequential vacant post of Deputy Chairman was filled by the Hon. Poon Wing-cheung, a Trustee of the

College. In October 1985, the Hon. Poon Wing-cheung resigned from the Vice-Chairmanship and the Treasurership of the College to take up his appointment as the University Treasurer. He was succeeded by Dr. Ho Tim, a Trustee of the College, as its Vice-Chairman; and by Dr. Peter Chan Po Fun, also a Trustee of the College, as its Treasurer.

Academic and Cultural Activities

To develop a congenial cultural and intellectual environment for staff and students, the College introduced various schemes and a lecture series.

The College introduced in September 1978 the Ivory Tower Lecture Series on specialized topics after it had successfully organized tea discussions for a year. Speakers invited to lecture in the series include scholars and experts in various academic disciplines/professional fields of the University and from outside.

In early 1979, the College initiated the Annual Workshop scheme, providing an arena for intellectual interaction between students and staff.

Financed by the College Endowment Fund, the Distinguished Visiting Scholar Scheme came into being in 1979. Scholars of international stature invited to lecture on campus under this scheme included Professor C.N. Yang, Professor S. Schram, Professor Ezra Vogel, Professor Samuel E. Finer, Professor Edward J. Lau, Professor S.S. Chern, Professor K.C. Chang, Dr. Franklin Chang-Diaz, and Professor Norton Ginsburg.

The Resident Fellowship Scheme, also financed by the College Endowment Fund, was established in 1982 to sponsor scholars from the neighbouring countries of Hong Kong to visit the College for the promotion of intellectual and community life on campus.

Microcomputer Laboratory

The College Endowment Fund also financed the establishment of a Microcomputer Laboratory in October 1985 for the purpose of developing and enhancing students' interest and knowledge in the operation and application of microcomputers. Training courses on the uses of computers and selected softwares have been organized regularly for students and staff. In 1987, again with financial support of the College Endowment Fund, the Microcomputer Laboratory was expanded in area to accommodate more machines. At present, there are fifty sets of microcomputers, ten sets of printers and over 150 sets of computer softwares in the Microcomputer Laboratory.

Students and Extracurricular Activities

In the academic year 1987-88, a total of 1,841 students were assigned to United College, of whom 1,000 were men and 841 were women. 854 students received interest-free loans and grants from the Government. Students received a total of 273 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.

Inaugurated in 1963, the United College Student Union is a statutory body representing all students of the College. Various student organizations are registered under the Student Union. They include faculty and department societies, non-residential hall committees and various interest clubs. Every year, students organize a wide range of activities including academic, athletic and social functions.

Shaw College

Named after its Patron, Shaw College was made possible by the generosity of Sir Run Run Shaw, Chairman of the Shaw Foundation (Hong Kong) Limited which donated HK\$100 million to the University for the founding of the fourth constituent College.

An ordinance which gives legal effect to this new and exciting development in the University was passed by the Legislative Council in July 1986 and became law on the 1st August of the same year. A Board of Trustees of Shaw College has accordingly come into being and is charting the course of the College's development in collaboration with the Planning Committee for Shaw College appointed by the University Council. Chaired by the former Vice-Chancellor, Professor Ma Lin, the Planning Committee is in turn advised by the Hon. Q.W. Lee, Dr. T.K. Ann, Mr. H.J. Shen and Mr. Louis Page.

The foundation stone for first four buildings of the College was laid by Sir David Akers-Jones, the then Acting Governor, and Sir Run Run Shaw, the Patron, on the 12th January, 1987. Built on 4.5 hectares of land at the northern part of the University campus, Shaw College is expected to be open to students and staff in the third quarter of 1988. As in the case of the three original Colleges, major buildings will provide facilities such as the student hostels, reading rooms, computer laboratories, canteens, administration offices, teaching blocks, a large lecture theatre, as well as other amenities. Since June 1987, the College has set up its temporary offices at No. 1, Chung Chi Teaching Block, near the KCR University Station.

In its general orientation, Shaw College will in the main follow the pattern set by the three existing Colleges except that new disciplines being developed in the University will be emphasized.

Academic and Cultural Activities

In June 1987 the Assembly of Fellows of the College was formally established, and various academic and cultural activities have since been planned and conducted. Among such functions is a monthly series of College Dinner Lectures given by academic speakers such as Professor Tien-chi Chen of the Departments of Computer Science and Electronics and Head of the United College, Professor D.C. Lau of the Department of Chinese Language and Literature, Dr. Daniel Gressel of the G.T. Management (Asia) Ltd., Professor C.N. Chen of the Department of Psychiatry and Head of Shaw College, Professor Reginald W. Marsh of the Department of Psychology, and Professor David Punter of the Department of English. The College will continue to invite academic teachers and scholars in various disciplines to speak in this lecture series, which constitutes one form of unstructured education advocated by the College and helps in cultivating sharing of experiences in learning while enhancing cross-fertilization of knowledge itself. Preparation is also under way to set up a distinguished scholars lecture series to be delivered by renowned academics and scholars of international repute. In order to enhance communications and strengthen ties, there is a weekly Head's Tea Reception for fellows, members, coordinators, and students to exchange views and ideas with the College administration and among themselves.

Microcomputer Laboratory

Since computer literacy is nowadays a common way of life, Shaw College will encourage its students and teachers, irrespective of their major academic interest, to become familiar with the use of computer technology. A computer laboratory is currently being planned to be completed in phases.

Students and Extracurricular Activities

In the academic year 1988-89, Shaw College will admit its first batch of undergraduate students. This consists of the first-year students in the academic year 1988-89, and also the second- and third-year students who have been reaffiliated to Shaw College in the preceding year.

Between January and April 1988, more than 240 undergraduate students succeeded in their application for the reaffiliation. Among them, 43% are female and 57% male. For the academic year 1988-89, the College will in addition admit 381 first-year undergraduate students. The total number of undergraduate students will therefore be no less than 620. The College will also provide hostel accommodation for up to 10 postgraduate students during the academic year 1988-89.

All students will have equal opportunities to compete for prizes and scholarships based on their merits in academic work and extracurricular activities. Grants and loans will also be provided for those who are in serious financial difficulties.

Extracurricular activities will form an important part of student life in Shaw College. The students will be expected to constitute their student union and elect their officers for the first time during the academic year 1988-89, thereafter to organize clubs, societies and sports activities along lines of interests.

Programmes of Studies

FULL-TIME UNDERGRADUATE STUDIES

General Information

Starting from 1984-85, a new admission scheme became effective. Applicants can apply for admission to the first year courses leading to a Bachelor's degree of the University through one of the three channels: Provisional Acceptance Scheme, Hong Kong Higher Level Examination and Hong Kong Advanced Level Examination or obtaining exemption under Sections II, III, IV and VII of the Regulations Governing Admission to Full-time Undergraduate Studies. In addition to satisfying the entrance/exemption requirements mentioned above, applicants shall be required to satisfy the relevant Faculty/Stream Admission Requirements in Sections V and VI of the Regulations Governing Admission to Full-time Undergraduate Studies which are printed on pp. 295-302 of this *Calendar*.

The University's five Faculties of Arts, Business Administration, Medicine, Science, and Social Science offer a wide range of courses leading to the BA, BBA, MB ChB, BSc, and BSSc Degrees. Programmes of Studies leading to these degrees are printed on pp. 115-165, General Regulations Governing Full-time Undergraduate Studies and General Regulations Governing Undergraduate Medical Studies are respectively printed on pp. 303-318 and pp. 319-323 of this *Calendar*.

School of Education

Physical Education

A student who satisfies the conditions for graduation shall be awarded a Bachelor's degree with one of the following classifications: First Class Honours, Second Class Honours Upper Division, Second Class Honours Lower Division, Third Class Honours and Pass. For students admitted before 1986-87, the Bachelor's degrees (except MB ChB) are awarded on the basis of results obtained in the Degree Examinations taken at the end of the third and fourth years. With the abolition of degree examination system, for students admitted in 1986-87 and thereafter, honours assessment shall be based on the four-year grade point average and also results of the Comprehensive Examination or its equivalent. The degrees of MB ChB, however, are awarded on the basis of Professional Examinations taken at the end of the second to the fifth medical years.

Curriculum Structure

The normal length of study for a full-time programme is four years with the exception of Medical Studies and some professional programmes which have prescribed otherwise. A first-year student is admitted on a Faculty basis and upon successful completion of the first year will be admitted to a Major programme.

The curriculum structure (except Medical Studies) is based on a combination of credit unit system and degree examination system since the inception of the University. After a two-year comprehensive curriculum review, the Senate ruled that a new curriculum structure be adopted for students admitted in 1986 and thereafter. The main thrusts thereof are to: (a) abolish the degree examination system, (b) strengthen the General Education Programme, (c) make the Minor programme optional, and (d) raise the standard of Chinese and English languages. Details of the curriculum structure are presented below:

For graduation, a student shall successfully complete at least 120 units of courses and shall normally take no less than 12 units but no more than 18 units in any teaching term. He is required to sit for course examinations at the end of each term. If Comprehensive Examination or Graduation Thesis/Project is prescribed by a Major programme, the student shall take it at the end of the fourth year.

The 120 units of courses shall include:

- (a) General Education (18 units),
- (b) General Chinese (6 units unless exempted),
- (c) General English (6 units unless exempted),
- (d) Physical Education (2 units)
- (e) Major programme (normally 60-72 units), inclusive of Faculty requirements, if any,
- (f) Minor and/or elective courses (the remaining units).

A student who opts to take a Minor programme shall formally register for his Minor subject, preferably in the second or third year. A Minor programme normally requires 18-30 units of courses. If approval has been obtained from the Major and Minor departments concerned, a student may elect two minor subjects provided that the total number of units of the Major and the two Minor programmes does not exceed 102 units.

Medical Studies

The Faculty of Medicine offers a single non-unit-based professional programme consisting of two Pre-clinical years and three Clinical years of study. A medical student shall normally enter the Science Faculty as Potential Medical Major and be admitted formally to the Medical Faculty in the next year. Besides taking the professional courses required by the Faculty, the student shall also complete in compliance with University requirements the General Education Programme, the General Chinese and General English Programmes (unless exempted) and the Physical Education Programme.

A Medical student shall pass both the Professional Examinations and periodic assessment of individual subjects for admission to a Bachelor's Degree. The First and Second Professional Examinations will be held respectively at the end of the second and the third medical years. The Third Professional Examination consists of parts I and II, to be taken at the end of the fourth and the fifth medical years respectively. The three Clinical years of study will have classes held at the teaching hospital in Shatin in the various Clinical departments. The student is also required to serve one year's internship at a recognized hospital after graduation.

The programme of the Medical Faculty can be found in pp. 135-136 of this *Calendar*.

Programmes

Explanatory notes on Course Codes

Letters of the alphabet stand for the subjects (e.g. CHI, ENG, BIO, stand for Chinese, English and Biology respectively).

The first Arabic numeral stands for the years of study in which the course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=1st year, Graduate School, 6=2nd year, Graduate School); and the course code starting with 0 stands for Student-orientated Teaching with its second Arabic numeral standing for the year of study in which the course is to be taken. Normally, first-year courses are introductory courses for potential Major students; second-year courses are basic courses for Major study; and third- and fourth-year courses are upper division courses. However, for the sake of flexibility, most courses are also open to students of other years.

Explanatory Notes on Signs Used

A ‘†’ Sign before a course code stands for core course, which may be a core required or a core optional course.

A ‘††’ sign before a course code stands for a required course.

A ‘*’ sign before a course code denotes that the course is not offered in the academic year 1988-89.

A ‘#’ sign before a course code denotes that the course is not offered to students under the new curriculum in 1988-89.

PART-TIME UNDERGRADUATE STUDIES

General Information

The University offers five part-time degree programmes (pp. 168-176): Business Administration, Chinese and English, Music, Primary Education and Social Work Programmes. Regulations Governing Part-time Undergraduate Studies are printed on pp. 344-359 of this *Calendar*. The Music Programme admits students to the first and fourth years; the Primary Education Programme admits students to the third and fourth years; and the Social Work Programme admits students to the first, third and fourth years. The other two Programmes admit students to the first year only. Eligibility for admission is conditional upon fulfilling entrance requirements or obtaining exemption therefrom in accordance with Section 2.0 of the Regulations Governing Part-time Undergraduate Studies. Degrees are awarded on the same basis as those of the full-time programmes described in p. 113.

Curriculum Structure

The normal length of study of a part-time programme is six years, with three terms in each year. Beginning 1986-87, the Business Administration, Chinese-English and Music Programmes will consider permitting first-year entrants of that year and thereafter to follow a faster pace of study and graduate in five years subject to the fulfilment of the prescribed requirements.

For graduation, a first-year entrant shall complete at least 120 units of courses. As the University adopts with effect from the first-year intake of 1986-87 a credit unit system in its undergraduate curriculum in which course assessment will be greatly strengthened, and students will not sit for a Degree Examination at the end of a programme.

Apart from completing requirements of the major subject, students are also required to take language and general education courses and/or elective courses in other disciplines. (Please also see Curriculum Structure of the full-time programmes in pp. 112-114.

Programmes

Explanatory Notes on Course Codes

To distinguish Part-time Degree Programmes from their full-time counterparts, 'P' is always used as the third alphabet in the course code.

The other two letters are to stand for the subject (e.g. BAP, CHP, ENP, MUP, SWP for Business Administration, Chinese, English, Music and Social Work.)

The first Arabic numeral stands for the year of study in which the course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=5th year, 6=6th year). Normally, first, second and third year courses are introductory and basic courses in a programme and fourth, fifth and sixth year courses are upper division courses. However, for the sake of flexibility, most courses are also open to students of other years.

Explanatory Notes on Signs Used

A '†' sign before a course code stands for core course (required or optional).

A '**' sign before a course code denotes that the course is not offered in the academic year 1988-89.

POSTGRADUATE PROGRAMMES OF STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. In 1980, the University advanced into the realm of doctoral education.

The University awards the following high degrees: Master of Science, Master of Arts in Education, Master of Arts, Master of Social Science, Master of Divinity, Master of Social Work, Master of Business Administration, Master of Philosophy, Doctor of Philosophy, Doctor of Medicine, and Doctor of Science. Regulations for the Degree of Doctor of Science are printed on pp. 383-385 of this *Calendar*.

The Graduate School at present offers instructions leading to Doctoral and Master's degrees through twenty-nine Graduate Divisions.

In the current academic year, the Doctor of Medicine (MD) Programme and postgraduate programmes leading to the degree of Doctor of Philosophy (PhD) in the field of Basic Medical Sciences, Biochemistry, Biology, Chemistry, Chinese History, Chinese Language and Literature, Chinese Philosophy, Clinical and Pathological Sciences, Economics, Electronics, Marketing and International Business, Mathematics, Physics and Sociology are offered. For a PhD degree, a full-time student shall normally spend a minimum of three years (or two years for one holding a Master's degree in a closely related field) and a maximum of seven years. A part-time student shall normally spend a minimum of four and a maximum of eight years. General Rules for Postgraduate Studies Leading to the Degrees of Doctor of Philosophy and Doctor of Medicine are printed on pp. 373-379 and pp. 380-382 respectively of this *Calendar*.

Four types of programmes leading to the award of Master's degrees are offered: (1) two-year full-time programmes leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv), Master of Social Science (MSSc), and Master of Social Work (MSW); (2) one-year full-time programmes leading to the award of the degrees of Master of Arts (MA), and Master of Science (MSc), (3) three-year part-time programmes leading to the award of the degrees of MPhil, MBA, and MSW, and (4) two-year part-time programmes leading to the award of the degrees of MA and MSc.

Courses on education are conducted by the School of Education which provides professional training for graduates of approved universities to serve in local secondary schools. The School offers (1) a one-year full-time course and a two-year part-time course leading to the Diploma in Education (DipEd), and (2) a one-year full-time and a two-year part-time programme leading to the degree of Master of Arts in Education (MA (Ed)).

In addition, the Graduate School offers a diploma programme in Social Work to university graduates who majored in the fields other than social work but who are now employed in social agencies.

Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. For details, please refer to the General Regulations Governing Postgraduate Studies printed on pp. 360-372 of this *Calendar* and *The Chinese University of Hong Kong Graduate School Brochure, 1988-1989*.

Business Administration

The Faculty of Business Administration offers two types of programmes leading to the degree of Master of Business Administration (MBA): (1) a Two-Year Programme (full-time), and (2) a Three-Year Programme (evening).

The Two-Year Programme had previously been operated by the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The Three-Year Programme was launched in 1977 with generous financial support from the local business community. The use of the name 'The Lingnan Institute of Business Administration' has been discontinued and both of the University's MBA programmes are now offered by the Faculty of Business Administration.

The major objective of the MBA Programmes is to prepare men and women for responsible administrative and executive positions in business, Government and other organizations. The Three-Year Programme, which is conducted in the evening in town, is designed to provide practising managers with the opportunity to learn new concepts of business management without interruption of their careers.

Admission to the Two-Year MBA Programme is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who hold a Bachelor's degree with Honours not lower than Second Class Lower Division or with an average grade of not lower than 'B' in any field of study, or to those who have professional or similar qualifications equivalent to a degree. Undergraduates who expect to receive their Bachelor's degree in the current academic year may also apply for admission to the Two-Year MBA Programme.

Qualifications for admission to the Three-Year MBA Programme is identical with that of the Two-Year MBA Programme except that applicants are also required to have at least three years of full-time work experience after obtaining their Bachelor's degrees or recognized professional qualifications.

INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia – Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic structure of the University, under the Office of International Studies Programmes. Programme participants from overseas and local students live in the same hostels. All courses offered at the University, except those by the Medical Faculty, are open to Programme participants, and the Programme itself also offers selected courses in Asian and Chinese studies taught in English for the benefit of both programme participants and local students.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) associate research students: graduate students primarily undertaking research or writing their masters' theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p.223 and p.249 of this *Calendar*.

The Programme is a yearly programme (September to April). Application for single term participation are subject to availability of places. Previous course-work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must have normally completed at least two terms of university study and graduate applicants must hold a BA degree. Associate research students and special scholars with genuine research or scholarly interest are especially welcome.

All inquiries and applications should be addressed to the Office of International Studies Programmes at The Chinese University of Hong Kong except those from America and Canada which should be addressed to the Programme's North American representative: International Asian Studies Programme, P.O. ² The programme fees cover tuition and hostel accommodation, basic medical care, student union membership, transcripts, orientation programme and cultural activities.

The cost of meals on campus is about HK\$5.00 for breakfast and \$8.00 each for lunch and dinner. It is estimated that books and stationery and other incidental expenses would be in the region of \$2,500 a year. In addition, a commuting student may have to spend between \$2,000 to \$3,000 a year on transport. Personal and other extra expenses are entirely at the discretion of the individual student concerned.

In all, taking into consideration all fees and expenditure set out above, a student will probably need between \$18,000 to \$21,000 a year to support his education at the University.

SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the Joint Committee on Student Finance. In academic year 1987-88, a total of 25 million dollars were allocated to 31% of the student population, who depended on this scheme for financial support. The University and its constituent Colleges also administer their own scholarships, bursaries, loans and campus work schemes.

Part V
Research Units and
University Extensions

RESEARCH INSTITUTES AND CENTRES

The University provides faculty members with financial support and research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose the University has established three Institutes, namely, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of scientific methodology, characterized by quantitative and comparative approaches, and the use of experimental methods wherever possible.

The objectives of the Institute are: to promote Chinese studies by serving as an international centre capable of effectively assisting other academic and research institutions and scholars in this field, and maintaining continuing communication and cooperation with them; to provide interested local and visiting academic members of the University with training facilities as an aid to teaching and research; and to encourage the exchange of knowledge and experience in Chinese studies through publications, academic conferences and research seminars.

Under the Institute of Chinese Studies are the Art Gallery, the Centre for Chinese Archaeology and Art, the Ng Tor-tai Chinese Language Research Centre and the Research Centre for Translation. Each of these units is responsible for the promotion of research in its own field. The Institute also provides grants to support research undertaken by members of the University, regularly sponsors seminars, and invites research fellows and visiting scholars from abroad to give lectures in their specialization. The Reference Library of the Institute, including the collection of the late Mr. Wong Pao-hsie, contains some 32,000 volumes of books and 190 titles of periodicals.

The Institute publishes annually a volume of *The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong*. More recently, the various units under the Institute have been issuing their own monograph series, studies series and other academic publications.

Art Gallery

The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the community of art enthusiasts in Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses a photographic archive and several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of 1,300 paintings and calligraphy by Guangdong artists and scholars dating from the Ming to recent periods, over 400 bronze seals of the Warring States to Yuan periods, more than 400 pieces of Chinese jade flower carvings, about 1,200 rubbings of ancient inscriptions and a comprehensive collection of Chinese ceramics.

The Art Gallery published fully illustrated catalogues to accompany the special exhibitions. In addition, studies on the Art Gallery collections and related research topics are published as monographs.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of works of art, the mounting and restoration of Chinese paintings; woodwork and photographic services. Recently a Yeung Shui Sang Laboratory for Thermoluminescence of Ancient Chinese Ceramics has also been set up under the joint auspices of the Art Gallery and the Department of Physics to do research and render service in ceramics dating.

Centre for Chinese Archaeology and Art

This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pool the resources of the Art Gallery and the Departments of History and Fine Arts together, laying a solid foundation for research in this field, and to promote co-operation with museums and universities abroad in research programmes. A computerized database of the publications and Data Archives on the subject is being compiled and already in service. The Centre has also published several series of monographs and other specialized materials.

The Ng Tor-tai Chinese Language Research Centre

The Centre has its origin in the Chinese Linguistics Research Centre, first established in 1966. It was enlarged in early 1979 under the name of Chinese Language Research Centre, and in 1980 it was renamed The Ng Tor-tai Chinese Language Research Centre.

The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.

Research Centre for Translation

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It was renamed Research Centre for Translation in 1983 as a result of reorganization. The Centre has concerned itself with research and publication involving English-Chinese and Chinese-English translation.

In translating from Chinese into English, the Centre concentrates mainly in the areas of literature, history and philosophy. A continuing vehicle for this is the English-language journal, *Renditions*, published semiannually since 1973. Included in the Centre's projects are a series of *Renditions Books*, of which twelve titles have been published since 1976. To strengthen studies in translation, the Centre has introduced a *Renditions Paperbacks* series in 1986. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities; ten titles have been published since 1972. There are also plans for a series of history books translated from English into Chinese.

In recent years, the Centre has established exchanges and co-operation with major research institutions in China, which has led to collaboration with the Research Centre for Translation at Nankai University, Tianjin, China, and the Hamburg University, Germany, on a computer-based bibliographic project 'Index of Translations'. The index covers translations in the humanities and social sciences between the Chinese and English languages. At the same time, the Centre is providing editorial assistance to an English language journal published under the auspices of The Research Centre for Translation of Nankai University.

Institute of Science and Technology

The Institute of Science and Technology was established in 1965 for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for co-operation in scientific research and consultation with industries, government departments and other universities.

Chinese Medicinal Material Research Centre

The aim of the Chinese Medicinal Material Research Centre (CMMRC) is to evaluate the true efficacy of traditional Chinese medicines and to put them on a more scientific basis. We use strictly controlled scientific methods in order to separate fact from myth and distinguish spontaneous recovery and psychological effect from real bioactivity. In addition, by reaping on the experience of our forefathers, we hope to discover leads to fill many blank spots in modern medicine. The final proof of efficacy and safety of drugs depends not on animal experiments but on human clinical trials. Compared with the Western approach of finding new drugs by screening thousands of known compounds using *in vitro* and animal tests, we begin with materials that have already been used, apparently safely and effectively, by many thousands of patients. Using ultra-sensitive modern detectors, we attempt to identify the trace amounts of active components in selected herbs and to determine their chemical structure. Larger amounts of the active substances may then be produced by organic synthesis or biotechnology for pharmacological and clinical studies.

With its cultural, geographical and technological advantages, Hong Kong can compete worldwide in this unique field and play a crucial role in scientific exchange between China and the outside world. CMMRC is a multi-disciplinary research centre of the Institute of Science and Technology. It is organized on research project basis. Members in the Science and Medical Faculties with an interest in Chinese medicine are encouraged to form a team to tackle important projects and to seek research grant from CMMRC, CUHK and external granting agencies. A multi-disciplinary CMMRC research laboratory and a staff quarter were constructed with private donations.

Our unique computer databases, originally supported by IBM, have made CUHK a worldwide Information Centre on Chinese Medicines. We have published a two-volume monograph on the pharmacology and applications of Chinese materia medica in 1986 and 1987 and an international quarterly journal *Abstracts of Chinese Medicines* since October 1986. Our Museum of Chinese Medicines provides reference standards and quality control of Chinese drugs. We also undertake strategic interdisciplinary research projects in organized teams. Current major experimental projects include: (A) central nervous system drugs, (B) cardiovascular drugs, (C) immunology studies and (D) birth control herbal drugs.

CMMRC depends heavily on external research grants to pay direct research assistants and materials. Major donations now come from the Royal Hong Kong Jockey Club, World Health Organization, Croucher Foundation and local philanthropists. Our unique research would benefit the health-care of millions of people in China and worldwide. We also hope to attract first rate medical researchers worldwide to join our effort.

Institute of Social Studies

The Institute of Social Studies was established in September 1982. It consists of two research units, namely, the Centre for Hong Kong Studies and the Centre for Contemporary Asian Studies.

The Institute's overall objective is to promote and coordinate interdisciplinary studies on socio-political and economic development in Hong Kong and other Asian societies. Participating in the research activities of the Institute are mostly teaching staff in the fields of social science, business administration, education and languages studies. A policy of the Institute is to provide research opportunities for teaching staff so as to help integrate research and teaching at the University. Moreover, since the teaching departments might be primarily interested in research along a single disciplinary line, another policy of the Institute is to promote research collaborations among different departments and faculties. To implement these policies, the Institute and its two Centres, besides organizing empirical research, also sponsor monograph series, workshops and symposia.

Centre for Hong Kong Studies

Major activities include building a computerized system of social and economic indicators, developing interdisciplinary research programmes on major and urgent social problems, analysing political developments, conducting selected investigations on factors that impinge upon Hong Kong's economic performance, evaluating existing public policies and devising alternative policy instruments. In all these activities, the application of social scientific knowledge to the solution of practical problems is underscored.

Centre for Contemporary Asian Studies

The major objectives are to promote and to coordinate interdisciplinary studies of Asian countries, especially China and East Asian countries. Currently, the Centre sponsors seven research programmes, i.e. Chinese Law Programme, Overseas Chinese Archives, China's Open Policy and Special Economic Zones Programme, China's Special Economic Zones Data and Research Unit, Chinese Economic Research Programme, Chinese Population Programme and Japan Study Programme. In addition, the Centre currently sponsors forty-nine individual research projects conducted by teaching and research staff on campus. It serves as a bridge between overseas scholars of Asian studies and the teaching and research staff of the University.

FACULTY AND DEPARTMENTAL RESEARCH UNITS

Cancer Research Group

The Cancer Research Group was established in 1987 for the promotion of cancer research within the Faculty of Medicine. Its specific aims are: (a) to coordinate, promote and subsidize activities relating to research, prevention and treatment of cancer; (b) to promote and provide training in cancer research; (c) to educate the public on methods of prevention and early detection of cancer; (d) to improve the welfare of cancer patients; and (e) to organize seminars, workshops and conferences for advancing its objectives.

In the study of common cancers in Hong Kong, multi-disciplinary approaches are encouraged. Current research projects include those on nasopharyngeal, liver, oesophageal, lung and cervical cancer.

The Research Group is financed by the Faculty and private donations. It aims to set up a foundation to ensure long term and uninterrupted research development.

Centre for Clinical Trials and Epidemiological Research

The Centre was established within the Faculty of Medicine to assist and advise members of the Faculty on the design of studies and the pre-testing of protocols and procedures, with the emphasis on inter-departmental and inter-disciplinary projects. Staff of the Centre involved at the design stage of a project also carry out analysis of the completed work. A Management Committee including a biostatistician, a trials supervisor, and technicians for statistics, computing and field work, is appointed by the Faculty Board.

The Centre is assembling a library of literature and computer software relating to clinical trials and epidemiological research, and is establishing communications with similar centres around the world. It also conducts regular teaching seminars.

Comparative Literature Research Unit

First established as a Division of the Comparative Literature and Translation Centre in 1978, the Comparative Literature Research Unit has become affiliated to the Department of English since 1983.

The focus of the Unit is Chinese-Western comparative literature from an interdisciplinary and theoretical perspective. Books already published include *China and the West: Comparative Literature Studies*, separately published in Chinese as *Zhongxi Bijiao Wenxue Lunji* (1980),

Chinese-Western Comparative Literature: Theory and Strategy (1981), a translation of Douwe Fokkema's *Theories of Literature in the Twentieth Century* (1985) and *Chinese Text: Studies in Comparative Literature* (1986). The Unit has also sponsored or co-sponsored the following conferences: the First Hong Kong Conference on East-West Comparative Literature (1979), the Ninth International Phenomenology Conference – The Nature and Origin of Art (1980), International Seminar on Brecht in East Asia: Theory and Practice (1981), the Second Hong Kong Conference on East-West Comparative Literature, Comparative Literature and East-West Literary Relations (1982), Comparative Literature Conference on Narrative in a Chinese-Western Context (1985), the Fourth Hong Kong Conference on East-West Comparative Literature – Chinese-Western Comparative Drama (1987), and the Fifth International Conference on Literary Theory – Modernism and Contemporary Chinese Literature.

The Unit also engages in cooperative projects with scholars from other institutions locally and abroad, in order to focus attention on areas of mutual interest. Currently, the Unit is engaged in compiling an international multi-language comparative literature bibliography with special emphasis on Chinese literature.

Psychiatric Epidemiology Research Unit

The Psychiatric Epidemiology Research Unit was established under the Department of Psychiatry in April 1981 with a grant from the Keswick Charity Foundation. Its primary goal is to study the frequency and distribution of psychiatric morbidity in the Shatin District, both cross-sectionally and longitudinally. Information generated will provide a better understanding of the characteristics of psychiatric morbidity in a Chinese community in Hong Kong, and of the attitudes of the general public towards psychiatric illnesses, and help to develop reliable rating scales for Chinese people, establish a psychiatric morbidity register, and evaluate local psychiatric services. In May 1984, the Research Unit organized a symposium on Cross-Cultural Psychiatric Epidemiology.

Following a pilot study of methodology for community survey in Taipo, the Research Unit has recently completed a large-scale community psychiatric survey in the Shatin District, which is within the catchment area of the Prince of Wales Hospital where both the Department and the Unit are housed.

The Biotechnology Laboratory

The Biotechnology Laboratory was established in 1986 with a special grant from the Croucher Foundation and Dr. Ho Tim to promote and coordinate research activities in the multi-disciplinary area of biotechnology. Located on the fourth floor of the Basic Medical Sciences Building and with a total floor area of approximately 250 square metres, the Laboratory is operated jointly by the Departments of Biochemistry

and Biology under the Planning Committee on Biotechnology. It is well equipped for performing experiments in molecular biology and recombinant DNA work. Its major facilities include high-speed centrifuge and ultracentrifuge, DNA/RNA sequencing equipment, oligonucleotide synthesizer, sterile hoods, cell and bacteria culturing facilities.

A major goal of the Laboratory is to identify areas of research in biotechnology which are of local relevance and interest. Ongoing research projects include the cloning of genes involved in alcohol fermentation and starch hydrolysis, production of recombinant fish growth hormone and studies on the structural modification of an abortifacient plant protein.

In addition to research, the Laboratory also serves as an education centre for biotechnology. Its laboratory facilities are available to students of the MPhil programme in Biotechnology as well as the undergraduates taking courses in this area. To promote a wider interest in biotechnology, the Laboratory has also organized workshops on special topics for both local and overseas participants.

Research Laboratory for Food Protein Production

The Research Laboratory for Food Protein Production, under the Department of Biology, aims at the production of high quality food protein from wastes and achieving pollution control simultaneously through interdisciplinary research cooperation. There are two main streams of research: (1) the production of food protein from sewage wastes by intensive aquaculture through successive steps in the food chain of algae, shrimp, fish, etc. and through vegetable crop production from sewage sludge; (2) the production of straw mushroom and other edible mushrooms from cotton wastes, sawdusts and used tea leaves. In addition, the protoplast-based techniques for genetic manipulations in microorganisms have also been developed.

Hung On-To Research Laboratory

The Hung On-To Research Laboratory originates from the Hung On-To Research Centre for Machine Translation established in 1978. The Laboratory had its present name in 1982 and was placed under the Department of Computer Science.

The research scope of the Laboratory includes computerization of natural language translation, Chinese information processing and natural language interface for man-machine communication. The Research Laboratory is equipped with a PDP 11/34 minicomputer system, a DEC VAX STATION II/GPX and microcomputer systems for hardware and software development.

Marine Science Laboratory

The Marine Science Laboratory, established in 1970 as a research centre for advanced studies in marine science, is under the supervision of the Department of Biology. The present research emphasis is on the physiology of marine organisms, especially of fish and shrimps, in relation to mariculture.

The Laboratory is equipped with a physiology laboratory, a mariculture laboratory, two teaching laboratories, an air-conditioned aquarium, a hatchery house with six enclosed tanks ($13\text{ m}^2 \times 2$, $11\text{ m}^2 \times 2$, $4\text{ m}^2 \times 2$), four large outdoor tanks ($26\text{ m}^2 \times 2$, $40\text{ m}^2 \times 2$) and fourteen smaller tanks, and a speed boat (5 m).

The Yeung Shui Sang Laboratory for Thermoluminescence of Ancient Ceramics

The Yeung Shui Sang Laboratory for Thermoluminescence (TL) of Ancient Ceramics, under the Art Gallery and the Department of Physics, was established in 1986 with the generous donation of the Yeung's brothers.

The Laboratory aims at the research for the improvement of TL methods for dating ancient ceramics; the collaboration with other museums and archaeological institutes in China, Japan and Southeast Asia in TL projects; and the provision of dating and authentication service to the public with certification.

CONSULTING SERVICES UNITS

Electronics Consultancy Unit (ECU)

The Electronics Consultancy Unit, established in 1985, is managed by the Department of Electronics. Its main function is to provide research and development services to industry and to the academic community. The Unit is fully supported by the academic staff of the Department of Electronics, whose areas of specialization and industrial experience cover the main branches of electronics such as CAD/CAM, optical fibre communications systems, optoelectronics, computer networks, and solid-state electronics.

Statistical Consulting Services Unit (SCSU)

The SCSU is a consulting unit established in 1984 and being operated under the umbrella of the Department of Statistics. Its objective is to encourage the proper use of statistical methodology and to provide a channel, whereby statistical expertise may be made available to colleagues on campus and to outside organizations. Statistical areas in which consultation may be provided include data analysis, design of experiments, analysis of categorical data, medical statistics, multiple logistic regression, social and business statistics, structural equation models, regression analysis, quality control and time series analysis.

New Asia -- Yale-in-China Chinese Language Centre

The New Asia -- Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training which suits his needs and ability. The Language Centre also regularly teaches Mandarin to thou-

sands of local Cantonese-speaking residents, including students of the University. The faculty of the Language Centre prepares a significant portion of its own teaching materials and audio-visual aids for the students.

The Language Centre operates on a three-term system with the first and second terms lasting approximately fifteen weeks each and the summer term ten weeks. Students may register for admission to any term. Beginning courses are offered every term. The full-time programme of fifteen sessions of classroom instruction per week constitutes the maximum course load. The maximum class size is eight students, while most classes average between four and five. In exceptional cases, private tutorials and part-time classes are available. Tuition fees for Language Centre courses are printed on p.223 of this *Calendar*.

The Language Centre has a full complement of tapes for teaching purposes. Language laboratory facilities are available.

The Language Centre gives credits according to the American system and issues grades and transcripts. Courses taken at the Centre have been recognized by major universities for degree credit. For students from institutions not using the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are obtainable free on request. All correspondence should be addressed to the Director, New Asia -- Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

Support Facilities and Services

SUPPORT FACILITIES AND SERVICES

The Library System

The Library System, introduced in 1963 with the establishment of the University, coordinates the collections and services of the University Library (founded 1965) and the branch libraries: the Chung Chi College library (founded 1951), the New Asia College library (founded 1949), the United College library (founded 1956), and the Medical library (founded 1980). The administration of the Library System is centralized under the University Librarian. Borrowing privileges are extended to all members of the University.

The University Library, which started operation in rented premises in Kowloon, was accommodated temporarily in the Benjamin Franklin Centre from 1969, and moved into the spacious new library building in 1972. This five-storey building, which has a floor space of 7,993 square metres, can house over 400,000 volumes of books and accommodate 500 readers. It is one of the most modern academic libraries in East Asia, fully equipped with the usual study rooms and carrels for readers, conference and seminar rooms, an audio-visual room, microfilm facilities, a rare book room and a book bindery.

The University Library is primarily a reference and research library for the use of staff and students of the University and visiting scholars. The branch libraries at the Colleges are basically undergraduate libraries but each has some unique features. Elisabeth Luce Moore Library of Chung Chi College holds strong collections in music and in religious studies. Ch'ien Mu Library of New Asia College houses good collections in Chinese literature, fine arts and philosophy. Wu Chung Library of United College has a Hong Kong Collection as well as a notable Modern Drama Collection. Medical collections are housed in two different locations, with the pre-clinical materials in the University Library and the clinical materials in the Li Ping Medical Library, which is a part of the teaching hospital complex in the Shatin New Town. The Medical Library also offers audio-visual services to the Faculty of Medicine.

All acquisitions and cataloguing activities are carried out in the University Library, which maintains a union catalogue of the holdings of the entire System. The holdings of the Library System as of 30th June, 1988 are:

	East Asian	Western
Books and bound volumes of periodicals	478,754	489,624
Current journal titles	2,238	4,966

Large sets of Chinese classical books in the traditional format of silk-stitched fascicles, as well as many important journals for Chinese studies in both Oriental and Western languages, have been acquired for research purposes. The Western language collection is also growing steadily stronger, particularly in bibliographic and reference materials.

In 1977, the Library System began to publish its Bibliographical Series. The following seven numbers have so far been published, covering aspects of both the collections of the System and Hong Kong publications: *Union Catalogue of Serials* (1977); *Union Catalogue of Audio-Visual Materials* (1979); *An Annotated Guide to Serial Publications of the Hong Kong Government* (1979); *Serials of Hong Kong, 1845-1979* (1981); *Newspapers of Hong Kong, 1941-1979* (1981); *History of Medicine: An Annotated Bibliography of Titles at The Chinese University of Hong Kong* (1984); *Asian Fine Arts Collections: Union Catalogue, The Chinese University of Hong Kong* (1984); and *Catalogue of the Chinese Rare Books in the Libraries of The Chinese University of Hong Kong* (1987).

For cataloguing purposes, the Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. Medical books are classified according to the National Library of Medicine scheme. An on-line circulation system was installed for the libraries on campus.

By using modern telecommunication and computer technology, the Library is now able to search electronically through files of databases and locate within seconds precisely the periodical or book citations and abstracts needed. The Library's Information Retrieval Service is connected by terminals through telecommunications satellite to database vendors in the United States and the United Kingdom.

The Chinese University Press

The University started its publishing activity in 1967 with the establishment of the Publications Office. After a decade of experience in this field, the University established The Chinese University Press in 1977.

Last year, the Press published forty-two titles including books in special series such as the Hong Kong studies series, Renditions Books series and the English-Chinese glossaries.

The Press has good connections with university presses and learned societies both in Hong Kong and overseas. It has co-published books with the university press of Harvard, Columbia, Princeton and the University of Washington. It has also entered into joint publication arrangements with commercial publishers in the United States, the United Kingdom, Japan and Sweden.

The Chinese University Press is a member of the Association for Asian Studies (AAS), the International Association of Scholarly Publishers (IASP) and the Society for Scholarly Publishing (SSP). It is also an international member of the Association of American University Presses (AAUP).

Computer Services Centre

The Chinese University Computer Services Centre provides services to students, faculty, research and administrative computer users of the University. The Centre houses an IBM 4381 mainframe system and a PDP 11/70 minicomputer.

The Centre is organized into four sections: the User Support Section, the Technical Support Section, the Operations Section and the Administrative Section. The services provided by the four sections include:

- (a) Basic computer time for job processing on the above systems;
- (b) Computer programming consultation services and technical advice for users with programming problems;
- (c) Application package-programme services and consultation on appropriate packages and software systems to meet particular application requirements;
- (d) Programming services in support of specially approved applications;
- (e) Seminars on the use of different computer systems and packages; and
- (f) Reference manual and other documentation services.

The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of all the member institutions of the UPCC. The facilities of this entire system are available to members of the University community.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.

The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 12:30 p.m. on Saturdays. Services include:

- (a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment;
- (b) Health maintenance, promotion and other out-reach activities;
- (c) 24-hour service with nurse on duty Monday through Saturday morning;
- (d) In-patient care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration;
- (e) Dental consultation, restorative, preventive and emergency treatment;
- (f) Periodic physical examination for certification purposes; and
- (g) Coordination of access to diagnostic laboratory and x-ray services, referrals to appropriate specialists, treatment centres or hospitals if and when necessary.

No charges are levied on any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.

It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and the numerous contacts students may have with the Health Service, they will have ample chance to gain for themselves adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life -- HEALTH.

Information Management Unit

The Information Management Unit was established in October 1980. It provides programme and systems development services for University administration applications. The aim of this Unit is to serve as a management information centre for all the departments within the administration and to provide them with systematic and timely information for planning and decision-making. Efforts are being made to further computerize administrative procedures and develop an effective management information system. In centralizing and coordinating the University's data, the Unit pays particular attention to data collection, validation, efficient data processing and elimination of redundant data.

The University Instructional Media Services

The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, graphic and photographic workshops, maintenance workshop, a sound studio, a video studio, and runs language laboratories in the College areas.

The Unit provides services for the production of various formats of teaching materials, such as instructional video, tape-slide programme, overhead-projector transparency and multi-media learning package. There are also facilities to enable staff to prepare their own materials.

The following services are provided for teaching, research and administration at the University:

The University Appointments Service is a centre and clearing house of employment information; it is responsible for initiating and developing job opportunities for graduates of the University, for organizing career guidance programmes, and for helping employers with their recruitment of staff at the graduate level. It also administers guidance services to students who intend to further their studies after graduation.

The Student Activities Section coordinates university-wide student activities; liaises with the Student Unions and their affiliated societies and provides assistance and advice for various student functions and activities.

Counselling on social, psychological, financial as well as academic problems is also provided by the Dean of Students' Offices at the Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of college life. In close cooperation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students' Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp, the Swimming Gala, and the University Track and Field Meet.

Sports Facilities

To promote students' interest in physical education, the University provides a variety of sports facilities, including two sports fields, three gymnasias, a swimming pool, nine tennis courts, several multi-purpose courts, and a water sport centre.

The sports fields are built on the lowlands facing the shore to the east. The University Sports Field, with covered spectator stands (with a seating capacity of 2,800), provides a 400-metre all weather track, a soccer pitch and a handball court, while the Chung Chi Sports Field provides a 400-metre track, a soccer pitch, a basketball court and a volleyball court. Each of the three indoor gymnasias (New Asia, United and University) houses badminton courts, basketball/volleyball courts, dancing rooms and table-tennis tables. The multi-purpose hall at Chung Chi Campus provides similar facilities at a slightly diminished capacity. Adjacent to the Benjamin Franklin Centre, the staff-student amenities building, is an outdoor Olympic-size swimming pool. The Water Sport Centre is located on the Tolo Harbour shoreline and is open for sailing and canoeing.

A squash centre is being planned at the central sports complex whilst further squash courts and sports facilities will be available with the Shaw College Development.

The Sir Run Run Shaw Hall

The Sir Run Run Shaw Hall, a well-equipped auditorium of modern professional standard, provides an ideal place for the University's

cultural activities. It is designed for holding ceremonies, assemblies, meetings, lectures, exhibitions and examinations, and for staging concerts, plays and cinema shows. In addition to the provision of a venue and its services, Sir Run Run Shaw Hall utilizes its own Cultural Activities Fund to present and sponsor high-quality stage performances and film shows, as well as to organize activities such as talks and workshops related to the performing arts.

A candidate who fails a re-examination shall not be eligible for any further examination.

- 9.5 If the thesis is found of sufficient standard, yet needing minor revisions, the Thesis Committee, if satisfied with the results of the oral/written examinations taken by the candidate, may require that such revisions be satisfactorily carried out by the candidate within 12 months without requiring re-examinations.

REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library in the central area of the Campus and the branch libraries at the Colleges and at the teaching hospital. The University Library houses an extensive research collection as well as many undergraduate materials and the pre-clinical portion of the medical collection. The branch libraries contain reference and curricular materials, some special subject collections according to the needs of the Colleges, and books and periodicals to support general education. These regulations apply to all the libraries. The Senate Committee on the University Library System reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. *Borrowing*

Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

Others may apply to the University Librarian for special Borrowers' Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. *Reading*

The privilege of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. *Privileges of special facilities*

Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.

Study Rooms in the University Library: On application to the University Librarian, Assistant Lecturers (and above) and

PhD students may reserve a room for three months, renewable if its use justifies it. Others who are engaged in research may also apply. These study rooms may not be transferred.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Coin-operated photocopying machines are available in all libraries. A reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: Our Interlibrary Loan Librarian will attempt to obtain from other libraries books and other materials which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, or a Reader's Card at the Entrance. Applications for Borrowers' Cards and Readers' Cards are made at the Circulation Desk.

Loss of a Borrower's Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
 - (a) Undergraduate students.
 - (b) Graduate students; tutors/demonstrators who are registered students working part-time.
2. All teaching staff, including teaching assistants, full-time tutors/demonstrators.
3. Administrative staff: administrative assistants and above.
4. CUHK graduates: Upon payment of a fee of \$100 per annum.
5. Special categories:
 - (a) Clerical staff and technicians, with the recommendation of their division heads.
 - (b) Spouses of the faculty and administrative staff.
 - (c) Others, upon special application.

Borrowing Limits

Individuals may borrow within the limits of the following schedule:

Category 1(a). Undergraduate students: 10 volumes (books) for two weeks.

Category 1(b). Graduate students, graduate assistants, part-time tutors/demonstrators: 15 volumes (books) for one month.

Categories 2–3. Teaching and administrative staff: 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. *Bound periodicals* and non-current single issues may be borrowed for periods of three days. *Current periodicals* may be borrowed for overnight use only.

Category 4. CUHK graduates: 5 volumes (books) for two weeks.

Category 5(a). Clerical staff and technicians: 5 volumes (books) for two weeks.

Category 5(b). Spouses of the faculty and administrative staff: 3 volumes (books) for two weeks.

Category 5(c). Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Desk: there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost.

Reference books, rare books, microforms and other audiovisual materials do not circulate.

Renewals

Borrowers may renew loans for two additional periods. To avoid fines renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.

Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves so that it may be available to others.

No book may be renewed if it is required by another person.

Recall

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to

recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Overdue

The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fines

All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK\$1.00 per book per day. A fine of HK\$1.00 per hour will be charged for each reserve book overdue.

Losses

Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK\$20.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

Category 2 and 3 borrowers who fail to return or renew books after 2 terms and 3 recalls will be subject to the above charges, which will be sent to the Bursar's Office for collection.

Control Counter

Library users may bring in their bags and briefcases into the libraries whereas umbrellas should be deposited on entering the libraries. No food or beverages may be taken into the Library. On leaving the Library, all books, etc., must be inspected.

Loss of Privileges

Infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the library building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.

- (a) Overdue books – After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.

- (b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared.

Repeated offenses may lead to a total loss of the privilege of using the Libraries.
