Declaration:

The pandemic situation is still not stable and in view that some students are not in Hong Kong at the moment, we have asked the professors to indicate the project delivery mode and how readily can the project be switched to 100% online when they proposed project titles. In this connection, applicant has to declare whether he/she would be in Hong Kong during the research period, i.e., from 01 June to 20 August 2021. This will facilitate the project supervisor to determine if he/she would like to host the applicant.

Under this declaration, applicant who is found to have made a false declaration, e.g. declare that he/she is in Hong Kong during the research period but is not able to show up to do lab research required by the supervisor would be defined as false declaration. The following actions will be taken by the Faculty Office for any caught cases:

- a) immediate termination of the summer research internship;
- b) be asked to return the HKD 3,000 – the first installment to the Faculty of Engineering;
- c) the case will be reported to the respective College for disciplinary action.

Therefore, please make the declaration only when you fully understand the meaning and the consequences of making any false declaration.
