

Administrative Rulings for Change of Study Mode and Conversion Tables

1. Applications for change of study mode would be allowed only *within the normative period of study*. Continuing students are not allowed to change their study mode.
2. Applications must be made not later than course registration of an academic year, or, in any subsequent term, before the close of the add/drop period for the term. Late applications would not be accepted or would have to take effect from the next term. Students will pay the fees of the new study mode. However, if the change takes effect after the commencement of a term (for which exceptional approval is required), students will pay the tuition fee of the new status in the following term for Master's students, or 6-month interval for doctoral students. Tuition fee would not be calculated on a pro-rata basis.
