

BME Welcoming Evening 2019

Welcome to BME family! To kick off the new semester and the new academic year, our department just held a cultural evening and welcoming party on 9 September 2019 (Monday).

Over 140 people from 21 countries spanning over 4 continents registered for the event, very well reflecting the international diversity within our department. Department members (students and staff) celebrating with us came from Hong Kong, United States, Chinese Mainland, Kyrgyzstan, Switzerland, India, Pakistan, Egypt, Bangladesh, Germany, Kazakhstan, Poland, Korea, Portugal, Indonesia, Ukraine, Taiwan, just to name some countries. They contributed interesting videos and presentations about their hometowns as well as choices of their local food! There were also exciting quiz games and enthusiastic dancing performance during the cultural evening. After enjoying the buffet dinner, the evening concluded with a party where a professional DJ kept the crowd dancing till the end. We believe that such positive events will foster a sense for community within the department and connect especially our first year international undergraduates with their local peers.

▲ Professors and students enjoyed this evening.

▲ Students from India had a dance performance to students.

▲ Dinner Time! Students enjoyed food and drinks.

▲ Students danced together after the dinner.
