

Getting Connected to Y5ZONE Wi-Fi Service- Windows Users

(This document describes how to connect to Y5ZONE Wi-Fi Service using a Windows computer. Before using this service, you should first sign up for your [Wi-Fi Account](#).)

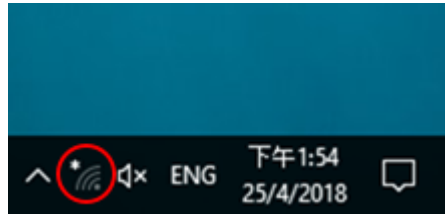

Table of Contents

A. Detect a Y5ZONE Hotspot Connection	1
B. Connect to the Y5ZONE Wi-Fi Service	3

A. Detect a Y5ZONE Hotspot Connection

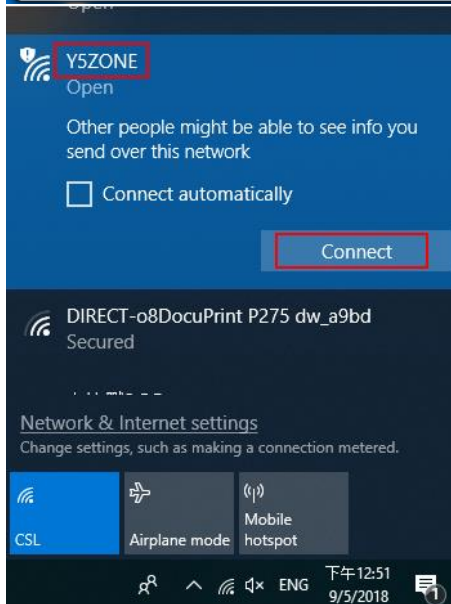

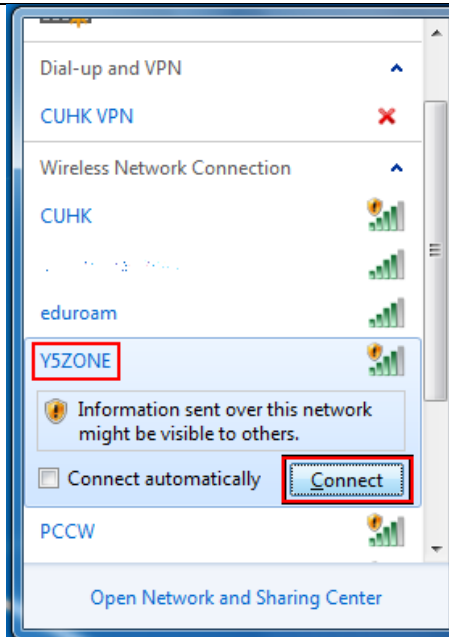

1. Turn on the Wi-Fi function of your computer (please refer to your computer's user manual for more details)

Click the **Wi-Fi icon** on the system tray

2. You should see the available wireless networks in the list.

Click **Refresh network list** if you cannot find **Y5ZONE** in the list.

3. Choose **Y5ZONE** and then click **Connect**.

B. Connect to the Y5ZONE Wi-Fi Service

1. Open your browser and visit any homepage e.g. <http://www.cuhk.edu.hk>.

Your browser will automatically lead you to the login page below.

2. At the "login" page,

- **Username:**
your_Computing_ID@cuhk.edu.hk
(e.g.s0123456@cuhk.edu.hk)
- **Password:**
the password you have created for this programme

Click **Login**.

3. If your browser displays “**You are now connected to the Internet!**” then you may enjoy Y5ZONE Wi-Fi service from now on.

4. While using the Wi-Fi service, please also observe the [Best Practices For Accessing Public Wi-Fi Service](#) advised by Office of Telecommunications Authority.
