DEPARTMENT OF MATHEMATICS

MATH2020A

Guidelines for Midterm Examination

October 28, 2020

- (A) Midterm period: 10:30-12:00 Oct 28, 2020 (available on Blackboard at 10:25).
- (B) Deadline for submission: 12:30 Oct 28, 2020 (No late submission will be accepted).
- (C) Multiple submission is allowed, but only the LAST submission will be graded and counted.
- (D) No late submission will be accepted as extra time for submission after completing the midterm is included in the setting of the deadline for submission. Should spare enough time for submission in order to avoid or get around technical issues such as WiFi connection or heavy traffic due to a lot of last minutes uploads near the deadline.
- (E) Open book, open notes, may search on any references and web. Should not ask anyone else for help for the midterm.
- (F) Veriguide is not required (so no need to type up the answers), but plagiarism will be checked seriously. If necessary, an oral exam will be conducted, for those involved student(s), to supplement the take-home midterm result.

(Continue on next page)

(G) Submission format:

(i) one PDF file only (**DO NOT** simply take photos as “jpg” is not compatible with Blackboard; better keep file size small to avoid risk in uploading to Blackboard; using multiple files has the risk of missing some of them in grading)

(ii) File name should be in the format:

“Last name” + “initial” + “last 5 digits of your student ID” + “2020A_midterm”.

For example, if your name is “Chan, Tai Man” with SID: s1155012345, the file name should be

Chan_TM_12345_2020A_midterm.pdf.

(Using arbitrary file name has the risk of mixing up with others when technical issues occur and the assignment/exam needed to be printed out for grading.)

(End)
