The Chinese University of Hong Kong (CUHK)

Motto

博文約禮

Through learning and temperance to virtue.

Mission

To assist in the preservation, creation, application and dissemination of knowledge by teaching, research and public service in a comprehensive range of disciplines, thereby serving the needs and enhancing the well-being of the citizens of Hong Kong, China as a whole, and the wider world community.

Emblem

The emblem of the University is the mythical Chinese bird *feng* (鳳) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

Vision

To be acknowledged locally, nationally and internationally as a first-class comprehensive research university whose bilingual and multicultural dimensions of student education, scholarly output and contribution to the community consistently meet standards of excellence.

CU Medicine

History

Established in 1981, the Faculty of Medicine has flourished and grown over the years, adding different schools of various disciplines and churning out groundbreaking medical discoveries as well as graduates of exceptional talents who have put it on par with its international and local counterparts. The Faculty has been ranked as one of the top 50 medical schools in the world in less than 40 years.

Chinese characters of CUHK (中大) are masked in the contours of the leaf veins

The colour green symbolizes youth and vigour of the Faculty

Purple is the Faculty's signature colour

Two overlapping purple and green apricot leaves have come to represent the Faculty of Medicine since 2013. Apricot trees have long been used to embody the medical profession. While purple is the Faculty's signature colour, green symbolizes youth and vigour. Mimicking the leaf veins, the Chinese characters of CUHK (中大) are embossed on the apricot leaf.

The year 2021 marks the Ruby Jubilee of CU Medicine. Since our humble beginnings 40 years ago, CU Medicine has thrived to become one of the world's top 50 medical schools, serving as a hub of talented students, physicians and scientists who are committed to making a difference and having a positive impact on healthcare.

2. **M**edicine and Innovation
3. **M**orals, Ethics and Critical Thinking
4. **M**aturity, Leadership and Teamwork
5. **M**anner and Communication

Admission Requirements[^]

MBChB

JUPAS

HKDSE
40

Based on the previous results, we expect that students should achieve a total HKDSE score ≥ 40 for entry into our medicine programme.

The 4 Core subjects and the best 3 Elective subjects will be calculated as the HKDSE total score (where level 5** = 7 points, 5* = 6 points, 5 = 5 points etc.)

The extended mathematics module (M1/M2) contributes to the total HKDSE score if its attained level is higher than that of the worst one of the seven subjects.

Non-JUPAS[#]

IB
41-42

The minimum requirement is a final score ≥ 41 (out of 45), with grades of at least 6,7,7 in the Higher Level subjects.

GCE
A-Level
4A*

The minimum requirement is 4A* (usually an average mark of $\geq 95\%$), excluding Chinese. Further Maths is not counted as a separate subject. The raw mark of Maths or Further Maths, whichever is higher, will count towards the total GCE score.

GPS

HKDSE
 ≥ 46 and 5**
in 4 subjects

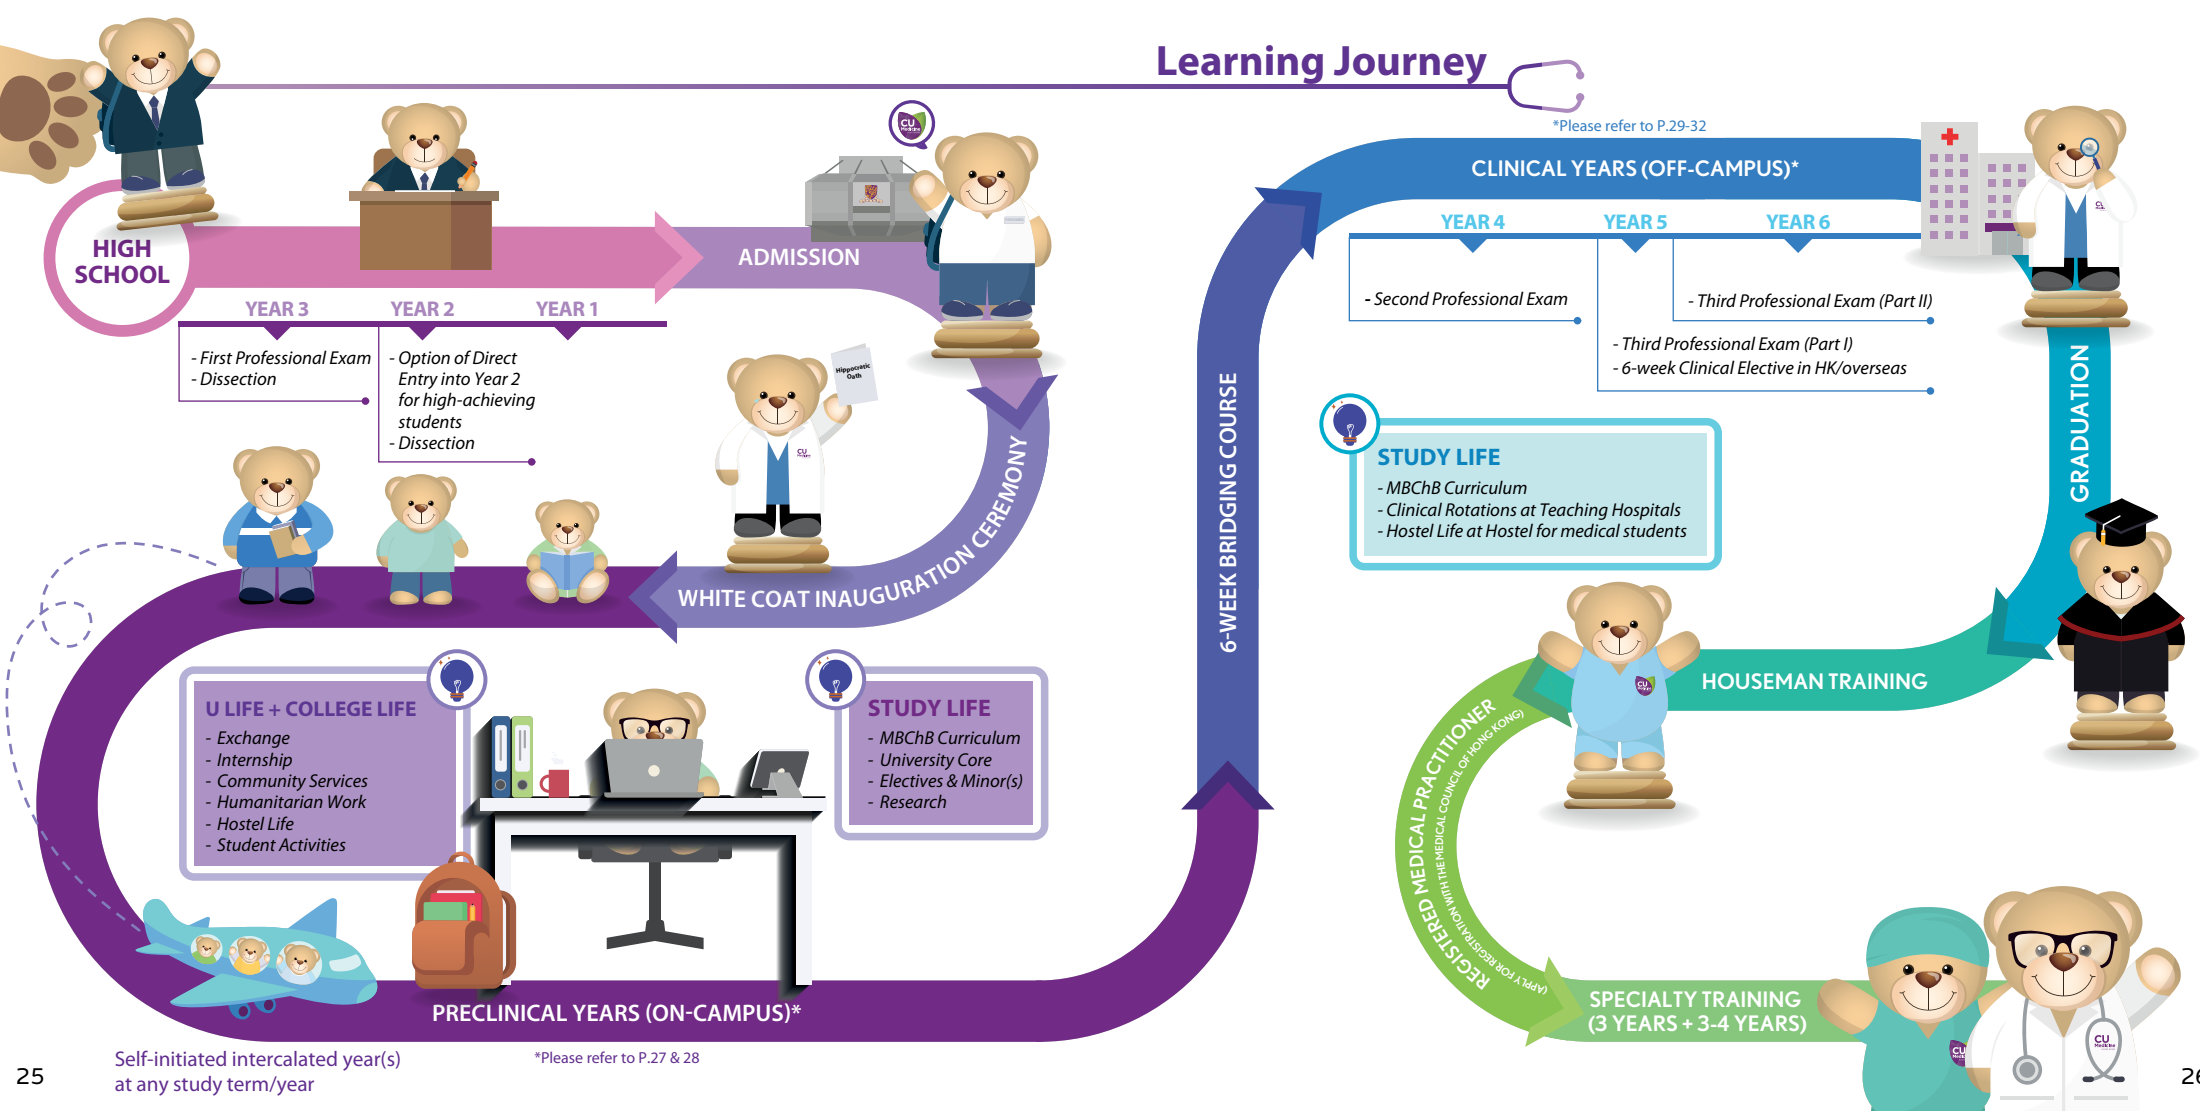

IB
 ≥ 44

GCE A-Level
A* in all subjects with
average mark of $\geq 97\%$

[^] The programme admission requirements are subject to interview performance and a past record of achievement
[#] Non-JUPAS applicants are students applying with academic qualification other than the HKDSE. For admission details, please visit: <http://www.med.cuhk.edu.hk> and <http://admission.cuhk.edu.hk>

Learning Journey

*Please refer to P.29-32

Teaching Facilities

Choh-Ming Li Basic Medical Sciences Building (BMSB)

The BMSB is a dedicated teaching and learning complex for the undergraduate students of the Faculty of Medicine.

Designed to heighten effectiveness and efficiency for education excellence, the building is renovated in 2020 with refurbished modern classrooms, state-of-the art teaching laboratories, computer rooms, and a spacious learning common with rooftop garden that can accommodate more than 130 guests.

Dissecting Laboratory

Choh-Ming Li Basic Medical Sciences Building(BMSB), CUHK

We take special pride in our modern dissection laboratory - one of the finest in the world for hands-on dissection training and life-and-death education. Students learn valuable lessons and anatomy knowledge from the "silent teachers" and develop a deep sense of gratitude and respect for those who have donated their bodies to science.

Since the "silent teachers" programme was launched in 2011, over 14,000 donors have registered the programme to contribute for the future development of local healthcare education and research.

Prince of Wales Hospital (Major Teaching Hospital of CU Medicine) 30-32 Ngan Shing Street, Shatin

As the largest teaching hospital of CU Medicine, the Prince of Wales Hospital has worked closely with the University to nurture over 5,000 healthcare professionals while supporting our medical research initiatives over the last few decades.

Occupying an area of around 10.5 hectares, the 1,700-bed regional acute hospital provides a comprehensive range of secondary, tertiary, and quaternary healthcare services through its many multidisciplinary teams, offering patients state-of-the-art medical care and cutting-edge treatment of many complex and rare diseases.

The Phase II redevelopment project commenced in 2017 will provide additional space to meet the increasing service demand and operational needs.

CUHK Medical Centre 9 Chak Cheung Street, Shatin

The CUHK Medical Centre (CUHKMC) is a non-profit, private teaching hospital wholly owned by The Chinese University of Hong Kong (CUHK). With a social mission to bridge the service gaps between private and public healthcare in Hong Kong, CUHKMC is dedicated to offering quality healthcare service at affordable and transparent package prices. In line with the not-for-profit principle, all surpluses from all healthcare services will be ploughed back to the hospital for hospital development and CU Medicine for research and teaching. With the full support from CUHK, the Government, our donors, and the medical alliance who share our purposes, CUHKMC is committed to offering quality patient-centred hospital service for the people of Hong Kong.

CUHKMC is expected to come into operation in 2021.

Li Ping Medical Library

Lui Che Woo Clinical Sciences Building, Prince of Wales Hospital

The Li Ping Medical Library provides an extensive collection of clinical and medical sciences resources in print and electronic formats to support the needs of students, faculty, and researchers. The design of collaborative learning space and individual study areas can cater to users with different learning styles.

Apart from a few sections, the Library provides 24 hours access for users daily.

Kai Chong Tong Clinical Skills Learning Centre

Lui Che Woo Clinical Sciences Building, Prince of Wales Hospital

To facilitate teaching and learning of physical examination skills and clinical procedures as part of our integrated systems-based medical curriculum, the 8,000 sq. ft. Learning Centre features 7 consultation rooms, 6 open-space demonstration/lecture rooms, and a control room that open 24-hour daily for students and faculty.

In addition to scheduled training sessions, the Centre maintains a collection of more than 200 models, manikins, compact discs and online materials for intensive learners.

CUHK Jockey Club Minimally Invasive Surgical Skills Centre (MISSC) ***Li Ka Shing Specialist Clinic (North Wing), Prince of Wales Hospital***

Opened in 2005, MISSC is the first training centre offering minimally invasive, robotic and endoscopic surgical training in the Asia Pacific region.

The centre comprises well-equipped Robotic & Minimally Invasive Surgical Skills Laboratory, Microsurgical & Endoscopic Skills Laboratory as well as Simulated Operating Theatre for facilitating hands-on training and research.

Lo Kwee-Seong Integrated Biomedical Sciences Building ***Area 39, CUHK***

Equipped with advanced biomedical equipment, the nine-storey, state-of-the-art building contains a demonstration laboratory, seminar rooms, research commons, theme-based laboratories, meeting areas and offices. Its open-plan layout and green designs offer an integrating, eco-friendly environment for the Faculty's expanding research activities and scientific exchanges.

The building has received Platinum Standard rating from the Hong Kong Building Environmental Assessment Method (BEAM).

Exchange & Clinical Attachment

Destinations of Student Clinical Attachment in 2016-2020:

University Admission Scholarships

Qualification

Outstanding academic or non-academic performance

JUPAS: Bases on HKDSE results

Non-JUPAS: Bases on examination results of GCE A-Level / IB Diploma / SAT / OSSD / B.C. Diploma (or equivalent) / ATAR / Taiwan GSAT / Cambridge Pre-U, etc.

Application

No application is required. The University will identify and grant qualified new students.

Amount

Up to full-tuition coverage. Some of the Admission Scholarships will also include an allowance of up to HK\$45,000 per year. Most of the Admission Scholarships are renewable for the normative period of study programme (subject to satisfactory academic progress).

Faculty Top-up Admission Scholarships for HKDSE students

Qualification

Students with a total score of 44 or above in 7 HKDSE subjects.

Application

No application is required. The University will identify and inform qualified new students.

Amount

Cover first year's tuition fee, granted in conjunction with the University Admission Scholarships.

Other Admission Scholarships

E.g. Gerald Choa Memorial Fund Admissions Scholarship

Li Po Chun Charitable Trust Fund Undergraduate Scholarships

Wei Lun Foundation Scholarships for the Faculty of Medicine
