

23 - Flipped classroom teaching: molecular biology laboratory techniques

Tools / Services	Pedagogical Uses
<p>Camtasia studio screen recording & video editing software</p> <p>CUHK's Panopto Video Platform</p> <p>Blackboard eLearning system</p> <p>CUAV at CU</p>	<p>Flipped classroom approach is used. Students were asked to watch the micro-modules available online before attending laboratory sessions. The Micro-modules cover basic knowledge related to the experiments and videos showing experimental techniques.</p>
