

## 樂華天主教小學

我校的願景目標為「建設一所綠色健康學校，培育學生全人發展」。為了爭取有公信力的專業指導及監察評估，我校參加了「香港健康學校獎勵計劃」，旨在透過計劃中六大範疇的內涵，組織及動員教職員、學生及家長，共同攜手建設一所身心健康的優質教育學校，並讓學生透過多元活動經歷學會學習和全面發展。

承接過往的工作，我校在2001至2002年度於發展健康學校方面取得一點成績。最近的「非典型肺炎」事件，更令我們體會到健康教育與認識生命意義是息息相關的。我們堅信：建設學校成為一所健康學校，對師生、家長及社會，皆別具前瞻識見及務實意義。

我們將持續發展優勢，強化架構及行政管理，營造自律自強、關愛同行的校風及人際關係，爭取及調動社區資源支援全人教育，為推廣個人及社區健康而努力。

## Lok Wah Catholic Primary School

Our school's wish and goal is to establish a green and healthy school and nurture the whole person development of students.

Our school joined the Hong Kong Healthy Schools Award Scheme in order to obtain guidance, monitoring and assessment which are both credible and professional. One of our aims is to organise and mobilise teachers and staff, students and parents to set up a school that provides quality education on physical and psychological health by following the contents of the six categories of the Scheme. The other aim is to allow students to learn and develop in various areas through diverse activities.

Based on our past work, our school achieved some good results in developing a healthy school in 2001-2002. The recent SARS outbreak made us further realise that there is a close link between health education and understanding the meaning of life. We firmly believe that the development of our school into a healthy school has both a far-seeing and practical meaning to teachers, students, parents and the society.

We will continue to develop our superior areas, strengthen our school structure and management and create a school environment that stresses self-discipline, self-strengthening and interpersonal relationship of care. We will also strive to obtain and allocate community resources to support whole person education and endeavour to promote both individual and community health.
