Seminar

List Decoding: Survey

by

Prof. Vladimir Blinovsky
Institute of Information Transmission Problems, Russia

Date : 24 August 2012 (Friday)
Time : 11:00 am - 12:00 pm
Venue : Room 833 , Ho Sin Hang Engineering Building
The Chinese University of Hong Kong

Abstract

We introduce the collection of the main results from list decoding theory.

Biography

Graduated from Moscow State Pedagogical University, 1981

PhD in Information Theory 1986

Dr. Sci. in Physics and Mathematics 1996

Chief Researcher, Institute of Information Transmission Problems,
Russian Academy of Sci., 1982- present

Area of research: Combinatorial Coding Theory, Information Theory, Combinatorics

****ALL ARE WELCOME ****

Host: Professor Raymond W.H. Yeung (Tel: 3943-8375, Email: whyeung@ie.cuhk.edu.hk)
Enquiries: Department of Information Engineering, CUHK (Tel.: 3943-8388)
