

9 - Supplementary Micro-modules: Beyond the Dialogue with Humanity

Tools / Services	Pedagogical Uses
Technical support from ELITE, CUHK	UGFH1000 In Dialogue with Humanity invites students to read the classics in the humanities. From the past experience, students are very active to engage in these discussions but find it difficult to have in-depth exploration. In light of this, we have initiated the UGFH1010 Beyond the Dialogue with Humanity project to provide further understanding of the selected text, which may include the background, the analysis of the text from another aspect.
