

Ms. Ada Li (Lecturer)

Language brings us to travel, it enhances communication!

Language brings us to communicate, it increases interaction!

Language brings us to interact, it gives satisfaction!

Language is the magic.

Born in Hong Kong and moved to New York, U.S.A when I was 16; I finished my high school and bachelor degree in New York. The experience refreshed and opened my mind in western culture. Being in a foreign country for more than 10 years enriched my language skills. Because of my language skills, it brings me much friendship internationally.

If you enjoy traveling, communicating or interacting; I am the person you are interested in. I am ready to share with you and hope you are ready too.
