

老如松柏...

是我們寄望香港每一個人都會擁有的。

「松果」- 寓意是一些可令長者生活得更開心舒適的建築城市設計。這些松柏的「果實」，不一定是宏大的概念，可以是一些細微的設計事物。

小松隊將會聯同醫護健康及城市建築界的專業人士，與長者及學生，一起在香港中尋「松果」。

想一起成為小松隊隊員嗎？

A collaborative effort of health and built environment professionals, elders and students who will be digging for pine nuts in Hong Kong.

Pine nuts are some attentive observations in the city where design can be further explored to help building quality environments for our grannies, our parents and our seniors, where they will be happy and safe to live in.

Let's crack them up - the pine nuts!
