

## Wu Jieh Yee Visiting Professor Open Lecture

# Improving Patient Outcome Through Orthogeriatric Collaboration

## Professor David Russell Marsh

Emeritus Professor of Orthopaedics,  
University College London, United Kingdom

Professor David Russell Marsh represents the Fragility Fracture Network (FFN) – a global organisation dedicated to better prevention and management of fractures caused by osteoporosis and falls. Both are strongly age-related and fragility fractures are therefore increasing in frequency to an alarming extent, especially in emerging economies.

He is a retired professor of orthopaedics, who played a leading role in developing 'orthogeriatric' co-management of patients with fragility fractures in the UK, including secondary prevention to reduce the future incidence of hip fractures in particular, which rob older people of their independence. That experience led him to initiate the FFN as its founding president.

**31 October 2019 (Thursday)**

**6:00 PM – 7:30 PM**

Seminar Room  
Orthopaedic Learning Centre  
1/F Li Ka Shing Specialist Clinics, North Wing  
Prince of Wales Hospital, Shatin
