

香港中文大學
The Chinese University of Hong Kong

2016/17

Professional Training Course in Cancer Genetics

*(which is the course CNGT5008 in
Master of Science in Medical Genetics)*

Date: 5 – 6 March 2017

Allan Chang Seminar Room, 1/F, Blk E, Prince of Wales Hospital, Shatin

Background

With the advances in the molecular genomic and genetic technology, we now have a much better understanding of the etiology of many diseases, which has widened the scope of clinical genetics from traditional paediatric syndromal disorders to fetal diseases, as well as to adult-onset diseases such as neurogenetic and oncological disorders. A wide range of laboratorial technologies also provides not only an accurate genetic diagnosis but also prenatal assessment and carrier screening.

Objectives

- ✓ To provide basic knowledge on genetics and common genetic diseases for clinicians, nurses and laboratory professionals who need to counsel, investigate and manage patients and families at risk of genetic disorders in their daily practice.
- ✓ To update the health care professional on the advances in the genomic and genetic technology in assisting clinical diagnosis and management.
- ✓ To serve as a preparation course for health care professional who want to further pursue a higher education in the field of clinical genetics.

Organiser

Department of Obstetrics and Gynaecology,
The Chinese University of Hong Kong

Entry Requirement

Applicants should possess a degree or equivalent and currently working in the relevant field.

Target Participants

- ✓ Clinical professionals (such as obstetricians, paediatricians, physicians, nurses and midwives), who are managing patients and families with genetic diseases in their daily practice
- ✓ Laboratorial professionals who are working with genetic and genomic testing
- ✓ Clinical and laboratorial professionals who plan for a master degree education in the field of clinical genetics

Course Description

This course focuses primarily on hematological malignancies including leukemia, lymphoma and myeloma, and will cover their pathogenesis and use of molecular and cytogenetic techniques for diagnosis, prognostication and treatment.

Course Design

The course comprises of lectures and elearning platform. The course is delivered through lectures and interactive case discussion with total 13 hours (1 unit). Local professionals and academic staff of the Department of Obstetrics and Gynaecology, CUHK are invited to be our teaching faculty.

Mar course schedule (Total 13 hours)

Date		Time	Hours	Venue
5-Mar 2017	Sun	12:00-19:00	6	ACS
6-Mar 2017	Mon	09:00-16:00	6	ACS
e-learning (discussion / presentation)			1	ACS

ACS: Allan Chang Seminar Room, 1/F, Blk E, Prince of Wales Hospital

Assessment

Written examination

Language

English

Accreditation

Pending **CME** points accredited by HKCOG

Pending **PEM** points accredited by Dept of O&G, CUHK

Tuition fee

Total \$5,000

Graduation Requirement

Students must fulfill all of the following criteria to be granted a:

Certificate of Completion

- An overall attendance rate of 80% (11 out of 13 hours)
- Pass the written examination

Certificate of Attendance

- An overall attendance rate of 80% but fail examination

Reply slip (Professional Training Course in Cancer Genetics CNGT5008)
