Discover Research Information Skills

Discover Research Information at Your Discipline

Group 1 - for all postgraduate students in Arts
Group 2 - for all postgraduate students in Business Administration
Group 3 - for all postgraduate students in Education
Group 4 - for all postgraduate students in Engineering
Group 5 - for all postgraduate students in Medicine
Group 6 - for all postgraduate students in Science
Group 7 - for all postgraduate students in Social Science
Groups 8-9 - for all postgraduate students in Law

Coordinator
Ms Bernice Chan
Postgraduate Liaison Librarian
The Chinese University of Hong Kong Library

Designed for

ALL postgraduate students.
These are discipline-specific courses focusing on discovering up-to-date scholarly and research information that are not available elsewhere. They are **HIGHLY RECOMMENDED** to enhance your research information skills.

Objective

At the end of the course, participants are able to:
- Have an overview of the key resources including both print and electronic provided by the Library and beyond;
- Select resources relevant to their research;
- Conduct effective search of research information in their discipline; and
- Assess the significance of the research information found.

Structure   2.5-hour workshop for each discipline with demonstration

Medium of Instruction   English

Brief Description

The workshops for **Arts**, **Business Administration**, **Education**, **Engineering**, **Medicine**, **Science**, **Social Science**, **Law** and **Chinese Law** will cover:

- Key resources provided by the Library and free Internet resources for locating and accessing journal articles, conference proceedings, books, theses, multimedia materials, and other relevant information resources in each discipline;
- Training on effective advanced search techniques of e-resources; and
- Highlights on ways of access to information sources in the campus libraries and beyond.

Group 1 - Discover Research Information at Arts

Speaker
Mr Leo Ma
Head, New Asia College Ch'ien Mu Library and United College Wu Chung Library
Faculty Liaison Librarian (Faculty of Arts)
The Chinese University of Hong Kong Library

Special feature
This workshop aims at introducing different search strategies and advanced discovery techniques commonly used in the research of arts and humanities information. Major electronic resources on arts-related subjects will be covered. Various citation analysis tools will be introduced. Useful tips and advice on conducting academic research will be discussed.

Group 2 - Discover Research Information at Business Administration

Speaker
Ms Vivian Lam
Head, Law Library
Faculty Liaison Librarian (Business Administration & Law)
The Chinese University of Hong Kong Library

Special feature
Focus on business information research skills, including developing search strategies in finding academic research materials, company information, industry and market information and economic data by using major business and financial databases.

Group 3 - Discover Research Information at Education

Speaker
Ms Sue Fung
Faculty Liaison Librarian (Arts & General Education)
The Chinese University of Hong Kong Library

Special feature

In the context of education discipline, the workshop will demonstrate how to develop advanced search strategies to find relevant information from library subscribed databases such as *ERIC*, *Education Full Text*, *ProQuest Education Journals*, as well as finding dissertations and e-books. The workshop will also cover search skills on the LibrarySearch system to enable participants to discover more research information on education.

Group 4 - Discover Research Information at Engineering

Speaker
Mr Seth Kwok
Faculty Liaison Librarian (Faculty of Engineering, Science & Social Science)
The Chinese University of Hong Kong Library

Special feature
To demonstrate advanced search strategies employed to find academic research materials including industry and international standard specifications and patents issued from various international bodies. This session will also provide in-depth coverage on locating peer-reviewed journals and discussion on academic citation analysis such as h-index and impact factor.

Group 5 - Discover Research Information at Medicine

Speaker
Ms Kendy Lau
Associate Medical Librarian
The Chinese University of Hong Kong Library

Special feature

This workshop will demonstrate the key electronic resources for health sciences including *MEDLINE, PubMed* and *Embase*. Participants will learn how to develop a structured search strategy, utilize MeSH to improve the precision of results, locate full-text journal articles, apply limiting filters, save search queries and other advanced search techniques. Citation analysis and journal metrics for scholarly impact evaluation will also be discussed. Hands-on exercises will be provided.

Group 6 - Discover Research Information at Science

Speaker
Mr Seth Kwok
Faculty Liaison Librarian (Faculty of Engineering, Science & Social Science)
The Chinese University of Hong Kong Library

Special feature

This session will provide in-depth coverage on how to locate academic papers and industrial patent specifications using various search strategies in renowned data sources. It will also discuss and compare various citation analysis tools including citation analysis in Google Scholar, journal impact factor and h-index.

Group 7 - Discover Research Information at Social Science

Speaker
Mr Seth Kwok
Faculty Liaison Librarian (Faculty of Engineering, Science & Social Science)
The Chinese University of Hong Kong Library

Special feature
At the end of the workshop, participants will be able to:
- identify academic resources related to Social Science
- develop advanced search skills to leverage the databases to meet their research needs
- distinguish tools that can help them to enhance research impact (ORCID & ResearcherID)
- understand the basic concept of data management

With hands-on practice on using featured social science databases such as *Academic Search Ultimate & ProQuest Social Science database*. Live demonstration on setting up ORCID profile & ResearcherID.

Group 8 - Discover Research Information at Law
Speaker
Ms Vivian Lam
Head, Law Library
Faculty Liaison Librarian (Business Administration & Law)
The Chinese University of Hong Kong Library

Special feature
Introduction to advanced legal research training using Lexis and Westlaw and various other case law and journal databases. The focus of the session will be researching in common law and foreign jurisdictions and international law areas.

Group 9 - Discover Research Information at Chinese Law

Speaker
Ms Agnes Cheung
Legal Resources Centre Librarian
Faculty Liaison Librarian (Faculty of Law)
The Chinese University of Hong Kong Library

Special feature
Participants will learn Chinese legal research methods and will be given hand-on training and exercises on using major databases such as *pkulaw*, *Lexis*, *Westlaw*, and *CNKI* to find Chinese journals, legislations, cases, and news. At the end of the course, participants will know the approaches of doing Chinese legal research and conduct effective research in Chinese Law.

Remark:
The Chinese University of Hong Kong Library will organise other library workshops and

seminars to address your research needs throughout the academic year. The schedules would be available via the CUHK Library home page (http://www.lib.cuhk.edu.hk/en/learning/workshops) and on the Library's notice boards.

Managing and Creating Reference Citations with Reference Managing Tools

Group 1 - EndNote
Group 2 - RefWorks

Coordinator & Speaker
Ms Bernice Chan
Postgraduate Liaison Librarian
The Chinese University of Hong Kong Library

Designed for

 ALL postgraduate students of various disciplines. HIGHLY RECOMMENDED.

Objective

At the end of the courses, participants are able to:
- create and format in-text citations and bibliographies for their papers using the two Reference Management Tools, *EndNote* and *RefWorks*;
- create personal references database by importing references from online databases and other sources; and
- manage references in the personal database.

Structure   2.5-hour demonstration session

Medium of Instruction   English

Brief Description

Mainly demonstration on:

- Setting up an EndNote/RefWorks account
- Importing references from online databases
- Creating groups (EndNote) / folders (RefWorks)
- Creating a bibliography in a variety of formats/styles
- Using EndNote/RefWorks with MS Word

Participant are advised to use a computer during the online course for following the demonstration.

Remark:
The Chinese University of Hong Kong Library will organise other library workshops and

seminars to address your research needs throughout the academic year. The schedules would be available via the CUHK Library home page (http://www.lib.cuhk.edu.hk/en/learning/workshops) and on the Library's notice boards.
