

## 24 - Understanding HK Current Economic Issues in Global and Regional Contexts

Tools / Services	Pedagogical Uses
<p>Articulate and Adobe Creative Cloud are used. The Centre for eLearning Innovation and Technology (ELITE) provides technical support for the production of micro modules. A graduate from Hong Kong Institute of Vocational Education creates animation.</p>	<p>Overall speaking, the micro modules provide background information and analyzes issues using economic models, data analysis and news. Students can watch the videos before or after or during the class, depending on the course structure and teachers' preferences. Using the One Belt One Road videos as examples, students can watch the introductory videos (i.e., Section 1) before the class. With the background, a teacher can teach the economic models in the class. After the lectures, students can go home to watch the videos (sections 2 &amp; 3) to review the concepts and the application they learn from the class.</p> <p>As for the Aging Population videos, students can be asked to watch the videos to prepare for the group discussion of aging population issues-- health care, housing and pension systems--in the class.</p>
