

Earth System Science Programme Faculty of Science Distinguished Scholar Workshop

Date : 9 January 2017
Time : 10:00 a.m. – 12:30 p.m.
Venue : L1, Science Centre,
The Chinese University of Hong Kong

Frontiers in Air Pollution Research: From Observations to Modeling

Making Sense of Air Pollution: Lessons from the US

Prof. Daniel J. Jacob

PhD, Environmental Engineering, California Institute of Technology
Vasco McCoy Family Professor of Atmospheric Chemistry and
Environmental Engineering
Harvard University

Distinguished Visiting Scholar

Real Time Ambient Measurements of Particulate Matter

Prof. Chak K. Chan

PhD, Chemical Engineering, California Institute of Technology
Dean of School of Energy and Environment
Chair Professor of Atmospheric Environment
City University of Hong Kong

Guest Speaker

Improving Air Quality Models through Better Representation
of Reactive Nitrogen Chemistry and Radical Sources

Prof. Tao Wang

PhD, Atmospheric Chemistry, Georgia Institute of Technology
Chair Professor of Atmospheric Environment
The Hong Kong Polytechnic University

Guest Speaker

Moderator: Prof. Amos P. K. Tai, Assistant Professor in Earth System Science, CUHK
