

仁濟醫院第二中學

「香港健康學校獎勵計劃」為本校帶來的，絕不止於今日的獎項，而是學校整體的發展與躍進。在學校行政方面，計劃為校方帶來一次寶貴的自我審視機會，小至醫療室之急救設備，大至整體學校之安全環境，本校都能藉計劃之校外評核標準改善過來。難得的是，在營造健康安全的學習環境過程中，本校獲得家長教師會的鼎力支持和參與，這不但加強了家長對學校的信心，更深化了家校合作的層次。對教師而言，藉著參與專業分享、參觀、學術

交流，拓展了專業視野，並奠定本校健康教育的長遠發展基礎。對學生而言，本港中學教育尚未提供正規健康教育課程，學生僅能從各個學科接觸滲透式的相關資料；而健康學校計劃的「十大健康主題」，則倡導學校透過不同學科，有系統地將健康課題授予學生，令學生在生理及心理上對影響健康的時事物更具免疫力。在健康學校政策及既有環境的優勢下，本校更榮膺 2004 年「香港綠色學校獎」亞軍，堪稱錦上添花。

The Hong Kong Healthy Schools Award Scheme

Yan Chai Hospital No.2 Secondary School

The Hong Kong Healthy Schools Award Scheme

Not only has the Hong Kong Healthy Schools Award Scheme brought our school an honorable award, it has also provided us with a structured framework for holistic development.

As far as the school administration is concerned, the Scheme has provided us with a valuable opportunity to conduct a comprehensive evaluation with regard to various aspects, ranging from the medical facilities in the medical room to the safety environment in our school. Moreover, the involvement of the PTA in the Scheme can never be overlooked. With its enthusiastic and unremitting support, parents' confidence in our school has been boosted, and the participation of parents in school affairs has been strengthened. In

addition, teachers' horizons have been widened through professional development programs including sharing sessions, visits and academic interflow related to health education. Above all, despite the lack of health education in the school curriculum, students, through this Scheme, are greatly benefited by acquiring vast knowledge of health systematically via the coordination among different disciplines, so as to build up a sound mind and body.

Thanks to the Scheme and contribution from all parties, we are pleased to have won the second place in the Hong Kong Green School Award Scheme.
