**Date:** 4 March 2019 (Monday)

**Time:** 6:30 pm – 8:00 pm

**Venue:** L3, Science Centre Lecture Theatre

**Language:** Cantonese

**Speakers' background:**

**Dr. Kenneth Li**

Dr. Kenneth Li received his Ph.D. degree in Biochemistry from CUHK in 2009 and then researched in the Institute of Chinese medicine after graduation. He is now a lecturer in CUHK teaching the foundation course “In Dialogue with Nature” of the General Education Foundation Programme in CUHK. He has incorporated the hobby of farming into his teaching course and has recently developed a new experiential learning GE course about agriculture. Kenneth has extended his passion for wine tasting to the wine business. He is currently a Wine Consultant in a local wine company. He is also a guest speaker and host of programs in RTHK31 and MetroRadio. In his talk, Kenneth will share the experience of being a researcher, a lecturer, and his philosophy in being a life-long learner.

**Ms. Mia Chow**

Ms. Mia Chow completed her B.Sc degree in our Programme in 2015 and passed her MLT Board examination in 2017. She is now MLT Part II in KingMed Diagnostics (Hong Kong) Limited. She has worked in wide range of benches including Microbiology, Molecular Diagnostics, Haematology and Immunology and is now specialized in Bacteriology. She will share her experiences taking the Board examination and working on different benches in a core laboratory.

**Ms. Ada Chan**

Ms. Ada Chan completed her B.Sc. degree in our Programme in 2015; she has since worked in three different private laboratories, whilst studying part time in order to pursue her career in the medical laboratory sector. Alongside her work experience, Ms. Chan has achieved courses in Intravenous Cannulation and Phlebotomy, and obtained the Higher Certificate in Medical Laboratory Science (MLS), majoring in Clinical Biochemistry from HKU SPACE. As such, she has been registered on the MLT board since Dec 2018 and has plans to study for a Master in MLS in CUHK this year. In this talk, Ms. Chan will share her experience working in private laboratories in conjunction with studying part-time.
