### **About CUHK's Faculty of Engineering and CEFAR Academy**

A pioneer in financial technology education in Hong Kong, the faculty launched the first FinTech undergraduate programme in the 2017/18 academic year, and a Master of Science in FinTech programme in the 2019/20 academic year. The 2022/23 academic year marks another milestone, with the launch of the new Postgraduate Diploma (PgD). It will allow high-calibre candidates to learn core FinTech skills and emerging developments, giving them the chance to explore potential careers in the FinTech sector. The programmes aim to cultivate a new generation of financial technologists and equip them with essential industry experience and professional skills. All programmes receive full support and high commendation from the banking industry and financial regulatory bodies.

CEFAR was established in 2020 by the faculty with the aim of creating a new pipeline of talent for Hong Kong's rapidly emerging FinTech industry. It partners with government, industry, NGOs, professional bodies and other universities and research institutes to provide research experience and internship opportunities for students.
