

Master of Nursing Science (Pre-registration) Programme

PROGRAMME DESCRIPTION

The Master of Nursing Science (Pre-registration) Programme is designed to prepare those with a bachelor's degree in any discipline for a career in nursing. This master's entry programme aims to provide students with the opportunity to study the art and science of nursing from different perspectives and to develop their skills in clinical decision making, critical thinking and problem solving. Successful completion of the programme will enable the graduate to register as a Registered Nurse (General) with the Nursing Council of Hong Kong.

PROGRAMME STRUCTURE

The programme comprises eight terms and four clinical practice blocks over a three-year study period, with the curriculum well designed and integrated to equip students with a strong foundation of theoretical knowledge and clinical skills. Graduates of the programme will be able to take up different nursing roles in a wide range of practice settings, including acute hospitals, rehabilitation hospitals and community settings.
