Special Performance

Little Clichés

The lack of inspiration is not a problem that bugs the average university student, but for Oliver Chan, a university student with a best-selling novel to his name, it's one of the biggest issues of his life. For his next novel, Oliver wants something original and perfect, and so far every spark he's had has turned out to be just a load of clichés that don't interest him one bit. Stuck with no perfect inspiration, and unwilling to pick any old cliché, Oliver's writing career seems to be stalling. And to make matters worse, he's got a more personal problem as well...

The Uprising

A lot of us hopes or even fantasizes about being a part of something extraordinary. To some extent, this was the story of Giselle Anderson. Although it is normal for teenagers to experience physical change, Giselle was facing entirely different changes. She was physically stronger everyday even though she was becoming more and more pale each day. Like any other teenager, she turns to her mother for guidance, which leads her to a shocking truth about her bloodline. And because of this devastating discovery, she would have to make a choice about who she was to become. Sometimes, blood isn't always family.....
