On the Development of CUHK

An Open Letter from the Vice-Chancellor

This is the first of a series of open letters from the Vice-Chancellor to all staff and students, in which policies and priorities in the development of the University are communicated to everyone in the University.

'The Chinese University of Hong Kong is a bilingual, comprehensive university, born through the amalgamation of three foundation colleges each with its own educational ideals bathed in Chinese culture. This is manifested in its four-year curriculum that has, in addition to its depth and width of specializations, general education to provide additional enrichment.' I was fortunate to join such a university taking up office about one and half years ago in time to celebrate its 25th anniversary year.

I am taking this opportunity to outline what I believe are the ideals in a university education, towards which all our staff and students have dedicated themselves these past years. For my part, I am adding the experiences of my working life in industry and in education to these joint efforts to bring The Chinese University of Hong Kong to its next stage of development. As a researcher, I had the opportunity of guiding and working with thousands of university graduates. It taught me the value of a flexible mind with strong convictions. As an educator, I believe in the need to adjust the tenets and principles of education to meet the challenges as set by a particular stage of development of our social and technological order.

Before proceeding further, I like to quote from Hamlet by William Shakespeare, 'To thine own self be true, and it must follow, as the night the day, thou canst not then be false to any man.' We must be true to our profession, learning wisely for ourselves and serving others to the best of our ability. We should as a group, staff and students alike, assure that labour, honour and virtue go hand in hand for everyone of us.

The objectives and directions of this university for the next few crucial years can clearly be

summarized as follows. The Chinese University of Hong Kong is a bilingual, comprehensive university. Its missions are (1) to produce graduates, in increasing numbers, with first and higher degrees of a quality comparable to the best in the world; (2) to serve as a knowledge pool for Hong Kong; and (3) to build selected infrastructures for Hong Kong in order to facilitate the growth of intellect, commerce and industry. To the achievement of these ends, specific actions with clear objectives are needed in all our endeavors.

Teaching

The quality of teaching depends on the recognition by students and staff alike, of the essential purpose of learning. I believe that teaching is to open the minds of the students and teachers such that all concerned, gaining comprehension of the academic subjects, are able to use or apply the knowledge flexibly, and to know how to look for or acquire relevant information on the subject. It is definitely not to memorize facts blindly, or to be able to substitute knowledge with jargons.

Many improvements must be introduced to assure high quality teaching even if our resources are

limited. Actions already started are:

- Placing emphasis on good teaching and teaching responsibilities as one of the primary promotion criteria.
- Reviewing the structure and size of core courses for each discipline.
- Reviewing the purpose and effectiveness of examinations.
- Matching resource to quality.

Research

We are living in a dynamic world. Our knowledge must be constantly upgraded to keep up with progress. It is imperative for teaching staff to undertake a certain amount of research in order to update his own area of expertise and to put the proper up-to-date perspective in his teaching.

Research is a discipline in learning. The Chinese University of Hong Kong must also expand its research efforts in some chosen focussed areas to capitalize on both the talents available and the local advantages. Through these efforts, we shall be able not only to supply future higher degree graduates, but also to create areas of excellence in knowledge and technology for Hong Kong. Actions started are:

- Creation of research student fellowships with a view to increasing the number of PhD candidates.
- Development of joint research projects with outside universities recognized as centres of excellence in mainline research areas.
- Rationalization of research leave in summer.

Research achievements will remain an important criterion for promotion, but the emphasis will be on quality rather than mere quantity. Research as an aid to good teaching will also be encouraged but the negligence of teaching with over emphasis on research will be discouraged. It is to be especially noted that having successful research students is an excellent indicator of both good teaching and good research.

Research provides a convenient bridge to the community. The sum total of research efforts in a university is a measure of the depth and breadth of a knowledge pool which the community can tap for a variety of purposes. Consultancy is an obvious example of a knowledge pool service.

Institutes

For Hong Kong's future, New opportunities must be created for investment to continue to be attracted. In this competitive age, Hong Kong must prepare its internal network and infrastructure well. The University is in a position to contribute to the

community by providing well-trained graduates as well as to create certain well chosen infrastructures in the form of independently funded and separately managed institutes within the University. These institutes are in addition to the existing internal research institutes. They will be able to highlight and make-ready key technologies for industrial exploitation, knowledge creation, and intellectual/commercial developments. The University is funded by the community. The Institutes are the direct links to community and form an additional dimension to the role of the University in society. Properly organized, they will permit strong coupling of the University to the community and will enable the University to derive long term financial resource in addition to the direct subvention it receives from the Government.

Actions started in this direction include:

- Setting up a University Development Office to deal with external affairs.
- Established the Office of Industrial and Business Development which will later be part of the University Development Office.
- Established Hong Kong Biotechnology Institute.
- Preparing the formation of Institutes in Business Administration, Sports Medicine, Material Science.

Student numbers

The four-year credit-unit based education structure of this University has the best potential to cope well with future educational needs in Hong Kong. It is being developed to gain the strength and flexibility intrinsic to this system. With modern management tools and techniques and with our resident experience, we should attain lower cost and improved operational efficiency if the size of the University can be expanded to considerably larger than our present UPGC approved projected size of 10,000 students by 1997. We are also the only university in Hong Kong with space suitable for such an expansion. We have proposed a 6% per annum expansion towards an eventual size of 20,000 students by the year 2008. This will meet Hong Kong's need for expanding tertiary sector student places at the same time. About 20% of the student body is envisaged to be postgraduate students.

Management structure

Modern universities are complex entities requiring the support of an appropriate management structure. The Chinese University of Hong Kong has adopted a Commonwealth University management

system with mixed professional and academic administrators. The system functions flexibly. As new tasks are introduced, the management machinery will respond and provide the necessary support. This will gradually and painlessly evolve the system into the appropriate new management structure with a smooth redeployment of manpower. In the course of the evolution some of the current functions will be reorganized or discontinued. The first action to be started will be:

- Reviewing the personnel policy and restructuring the Personnel Section of the Secretariat.

Triennium planning

We are starting our 1991-94 triennium planning.

I will be working with many of you directly and through the various academic and administrative leaders so that your valuable inputs will guide the overall plan. Many tasks are awaiting to be started, and started they will be in the next few months. Please remember that we have the mission of building our University to meet our educational ideals. By the sweat of our brows we shall accomplish our mission.

This open letter provides a broad brush strategic plan. From time to time, I shall provide further arguments for priority setting and resource allocation for the growing list of actions.

May I thank you all for your cooperation so far, and thank you in advance for your continuing and redoubled efforts that you will be devoting to the advancement of the University and yourselves.

Pipa Ji manuscript, Ming Dynasty (Exhibition of Archaeological Finds from the Five Dynasties to the Qing Periods in Guangdong)

Opening of Lady Shaw Building

The Lady Shaw Building, a new academic building, was formally opened on 12th January at a ceremony officiated jointly by His Excellency the Governor and Chancellor of the University, Sir David Wilson, and the donor of the Building, Sir Run Run Shaw.

The new building located at the University Mall has a gross area of 13,500 square metres. The five-storey building houses temporarily the University's engineering programme and the Hong Kong Institute of Biotechnology. It is equipped with teaching facilities for engineering and science studies as well as student amenities. The first two floors accommodate carpark spaces while facilities on the upper floors include offices, classrooms, laboratories, computer rooms and conference rooms. There are also six lecture theatres with different capacities. The building was constructed at a total cost approaching \$30 million. This was funded by a donation of \$10 million by Sir Run Run Shaw plus interest accrued thereon and a government subvention of \$17.6 million.

About 250 guests attended the opening ceremony, at which the following speech was delivered by Professor Charles K. Kao, Vice-Chancellor of the University:

Sir David, Sir Run Run, honoured guests, ladies and gentlemen,

It gives me great pleasure to welcome you to this opening ceremony of the Lady Shaw Building. Lady Shaw Building is an important new academic building at this University. With a gross area of 13,500 square metres, it provides some much needed teaching facilities as well as more room to accommodate the expanded programmes in science and technology here in this University. I must express our deep gratitude to Sir Run Run Shaw for his very significant donation which together with the capital grant we received from the University and Polytechnic Grants Committee (UPGC) has enabled us to construct the Lady Shaw Building in this expanded form.

The timely completion of this building allows our engineering programme and the extension of our biotechnology programme to be accommodated. These programmes have been developed at this

University in response to the urgent need to encourage the high-technology based industries that Hong Kong needs to sustain its fast growing economy.

For the last three years, our colleagues have worked hard to design a broad-based engineering programme having unique features. It is an integrative programme based on electronics and computer science, the two core subjects which are now at the centre of all engineering activities. Four areas of specialization will be offered in different stages. Apart from electronics and computer science specialization we have introduced information engineering and we will be adding system engineering specialization in due course. These programmes will produce a new breed of engineers, ones who can adapt to rapid changes in modern industry and contribute significantly to Hong Kong's future needs. This year we are implementing the engineering programme under the Faculty of Science. Hopefully the engineering faculty itself will be set up as soon as we have resolved technical difficulties with the UPGC. In fact, UPGC has included funding for the development for this programme in CUHK's budget for this current triennium from 1988 to 1991.

Along with the development of the engineering programme, we are rapidly increasing our efforts to link our academic activities with the needs of Hong Kong community. In addition to our active advisory committees led by Hong Kong's leaders in the commercial and industrial sectors, we have established the Office of Industrial and Business Development to coordinate and expand our relationships with local and

international business organizations and foundations. Two examples can be cited. The Department of Electronics has already a consulting unit serving the community needs. We are also introducing innovative industry-sponsored international research fellowships to link our PhD students to industry.

Through the engineering programme, we will see a much closer working relationship between the community and the University. Already we have successes in recruiting good teaching staff and the first year registration in these courses has been most encouraging. Over one hundred students have already enrolled.

The growth and development of the tertiary education sector for Hong Kong has been placed as a high priority item as Sir David has emphasized in his address at the Opening 1988-89 Session of the Legislative Council. We certainly agree with you, Sir David, and the increased academic activities as a result of the addition of this building is just a concrete step in this direction. The Chinese University is particularly fortunate in having such a magnificent campus. Recently we have proposed to the UPGC that we are in a position to expand to a target student number of 20,000 in the year 2008. This is an extension of the

target figure of 10,000 students by the year 1994 set by the UPGC. With our flexible credit unit system, this University will be able to run with greater cost efficiency with the larger student numbers.

I would like to take this opportunity to thank the many people who have worked so extremely hard to maintain the progress of this project of constructing the Lady Shaw Building. As we all know labour shortage in the construction field is acute. The completion of this building in time for this opening ceremony is indeed a great achievement. I would like to thank all involved in the planning and execution of this project for their hard work and efficiency.

The growth and development of the University depends to a very large extent on the support of the government as well as public-spirited individuals and organizations. This is best exemplified by this building project we see here. On this happy occasion of the opening of the Lady Shaw Building, may I once again thank all those who have supported the University in the past: Sir David, our chancellor, and Sir Run Run in particular. I look forward to their continued support in the future and hope that as liaison and cooperation with the community sector grows and develops, the University will achieve its goals with distinction.

The First General Book Rolls off the Press

– By T.L. Tsim,
Director, The Chinese University Press

If the primary functions of a university are the creation and dissemination of knowledge, and I for one can think of no more noble goals for a university, the primary function of a university press is to assist in the latter, that is to say, to assist in the dissemination of knowledge, to make sure that knowing is not confined to a select few but is shared among the world community, not just in academia but also outside it.

However, the creation of knowledge – I am using that term loosely to mean knowing that which is not previously known – must precede its dissemination. And the responsibility for that rests with the teachers and researchers – the academics in a university. It is only natural, therefore, that when a university reaches maturity, when a lot of research has been undertaken, there will be a need for the creation of a university press to assist in knowledge dissemination. As far as our University is concerned, such a point was reached in 1977 when, fourteen years after the University first came into being, the then Vice-Chancellor, Dr. Choh-ming Li, found it opportune to start The Chinese University Press (CUP).

With the establishment of its own press, the University is able to share the research findings or academic treatises of its teaching and research staff with other interested parties. The creative function of the University is now complemented by the distributive function, so that the transmission of knowledge is no longer confined to teaching within our own campus but extends beyond it.

The academic community thrives on intellectual exchange, debate and discussion. The really good theories in the sciences and social sciences, like the most illuminating works in the humanities, should be able to stand up to the closest scrutiny. This is why, like other university presses, the CUP operates a referee system whereby all academic manuscripts are subjected to external assessment, and the reader is asked to comment, among other things, on the manuscript's originality, academic content and

contribution to the sum of human knowledge.

The system has worked quite well for a number of years but it does restrict the CUP to publishing only the following kinds of publications: (a) academic works of originality and (b) dictionaries. Then in 1981, the University established the **Committee on the Development Programme for Teaching Material in Chinese** and since then a number of textbooks in the Chinese language has been added to our list.

Increasingly, however, it is felt by members of staff in the University that there may be room for publications which while not being academic works of originality, nevertheless help in the dissemination or popularization of knowledge and experience. The books which immediately spring to mind under this category are those which attempt to explain sophisticated and difficult theories or academic treatises in the kind of everyday language which most people can understand. But we need not be restricted to these alone.

To accommodate such a niche in the publishing industry, therefore, we at the CUP have conceived the **General Books Publication Programme**. The first publication under this series rolled off the press in May 1989. This is the book entitled *Students' Activities Handbook* (學生活動手冊) edited by Mrs. Grace Chow, Deputy Director of Student Affairs. Other books will follow as we have now eleven publications

under various stages of publication.

The whole concept of a General Books Publication Programme was first discussed at the Senate Committee on University Press in the autumn of 1988, shortly after our Vice-Chancellor took up his appointment at the University. The Committee gave its blessings and the proposal then went to the University Senate. After it got passed the Senate, The Chinese University Press started recruiting new staff to cope with the projected expansion. One million dollars have been set aside from the CUP's Revolving Fund as seed money to enable the new operation to get off the ground. In the long run, of course, the whole project is expected to be self-financing.

Unlike academic books, therefore, which The University Press will continue to publish even if they are money losers, one of the criteria for determining whether or not to publish a general book is that of marketability. For general books, the minimum print-run is 3,000 and the production time is six months. If a publication is unlikely to sell that many copies or if its production is so complicated and time-consuming that it is likely to cost a lot of money,

then it would not be considered under the General Books Publication Programme. It might still be published, however, as an academic book, if it meets the publication criteria for such publications.

General books need not be externally assessed but must be endorsed by an editorial sub-committee made up of the following people:

Dr. F.C. Chen (Chairman)
Mr. T.C. Lai
Dr. Francis K. Pan
Dr. Philip Shen
Mr. T.L. Tsim (Secretary)

The idea is to make sure that the books published under this programme will be perceived as worthwhile and useful to the general reading public.

The creation of such a General Books Section within the CUP has meant that there will be increased opportunity for our academic, research and administrative staff to have their works published by The University Press. It is our hope that more and more colleagues will avail themselves of the opportunity and help make this publishing programme a success.

Pleated skirt, Ming Dynasty (Exhibition of Archaeological Finds from the Five Dynasties to the Qing Periods in Guangdong)

University Press Publications

The following books and journal were published by the University Press from September 1988 to February 1989:

(Titles in Chinese)

Hsu Kwan-san: *New Historiography since 1900*, Vol.2 (iv + 330pp., paperback & hardcover)

Kai-sun Kwong: *Towards Open Skies and Uncongested Airports* (xii + 82pp., paperback)

Lau Siu-kai and Kuan Hsin-chi: *The Ethos of the Hong Kong Chinese* (xii + 217pp., paperback)

Tian Shou-he: *A Guide to Proper Usage of Spoken Chinese* (xiv + 183pp., paperback)

Pen-yeh Tsao: *The Music of Su-chou T' an-tz' u* (xviii + 398pp., hardcover)

(Titles in English)

David Flux: *Hong Kong Taxation: Law and Practice* (1988-89 Edition) (xxxiv + 522 pp., hardcover)

Shu-hsien Liu and Robert E. Allinson (eds.): *Harmony and Strife: Contemporary Perspectives, East & West* (x + 327pp., hardcover)

John Minford and Siu-kit Wong (eds.): *Classical, Modern and Humane: Essays in Chinese Literature* (xiii + 327pp., hardcover)

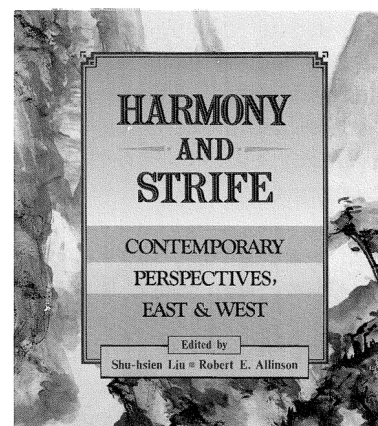

Mau-sang Ng: *The Russian Hero in Modern Chinese Fiction* (xvi + 332pp., paperback)

A.E. Starling: *The Chance of a Lifetime: The Birth of a New Medical School in Hong Kong* (xx + 194pp., paperback)

(Journal)

Journal of the Institute of Chinese Studies, Vol. 19 (x + 484pp., paperback)

News in Brief

Senate Issued Statement on the Executive Council Decision

The following is the full text of the statement to the press adopted by the University Senate at its meeting on 31st January, 1989, issued by the University in response to the decision of the Executive Council concerning the Education Commission Report No. 3:

The Senate of The Chinese University of Hong Kong expresses deep disappointment at the decision by the Executive Council to adopt, in essence, the recommendations of the Education Commission Report No. 3 on the structure of tertiary and senior secondary education, despite the public controversy and widespread criticism by educationists the Report aroused and in the absence of clear evidence of the efficacy or even practicality of the changes recommended. The University has always held the view that six years of secondary education followed by four years of university education is the best system for Hong Kong, and that such a system is not necessarily more costly than a '5+2+3' system; it also wishes to point out that students should not be denied the freedom of choosing to receive tertiary education as soon as they are ready to benefit by it. The University has already provided ample reasons and evidence in support of the above views on many different occasions.

The University notes that there is allowance for it to adjust to the changes approved by the Executive Council over a nine-year period ending in 1997. However, this provision serves merely to delay, but not to mitigate the serious consequences which the Executive Council's decision would, if implemented, eventually have for the University. Besides, the decision would harm the education of Hong Kong as a whole, because it would lead to the demise of the six-year Chinese middle school.

In view of the above, the Senate sees no convincing reason for changing its previous position

on this issue, and feels unable to accept the decision of the Executive Council in respect of the following two particular points of policy communicated to the University by the Secretary of Education and Manpower on 27th January, 1989:

- (i) at all tertiary institutions funded by the University and Polytechnic Grants Committee (UPGC), the objective should be for all students to be accepted for first degree programmes after Secondary 7, following a two-year sixth form course leading to the Advanced (A) level examination or to a combination of A and Intermediate (I) levels;
- (ii) the length of first degree courses at all UPGC-funded institutions should in principle be the same for any given subject.

The University will do everything within its power to continue admitting students and offering degree programmes in accordance with its educational goals and the University Statutes.

The Government also stipulated that the subvented tertiary institutions should consult the UPGC on a number of important academic functions, including the determination of the length of first degree courses, admission procedure, teaching time, credit unit system; and that the UPGC was to implement the government policy decisions and monitor the progress made. The Senate wishes to point out that such specific supervisory acts would jeopardize the independent advisory role of the UPGC and place it in an invidious position vis-a-vis the universities with their own statutory responsibilities.

The University always seeks positive changes in the education system of Hong Kong. However, it does believe that the education system is not a matter for administrative decision alone, and that a large measure of consensus among academics, educationists and students themselves is a prerequisite for initiating far-reaching measures which would affect the future of millions of young people in schools, colleges and universities for decades to come. The University therefore considers it important that public discussion

of the complex issues involved be continued, and it appeals to all parties concerned to get together with a view to renewing the common search for a genuine long-term solution.

Vice-Chancellor Received Prestigious Awards

The Vice-Chancellor, Professor Charles K. Kao, received two important awards in March - the 1989 Faraday Medal awarded by the Institution of Electrical Engineers (IEE) in the UK and the International Prize for New Materials by the American Physical Society.

The Faraday Medal was presented to Professor Kao on 16th March in London in recognition of his continuing outstanding work on optical communication, including early work in establishing the feasibility of optical fibre communication systems and defining the parameters involved. The prestigious medal was set up by the IEE in 1922 to recognize notable scientific and industrial achievement in electrical engineering or conspicuous service rendered to the advancement of electrical science. It is awarded annually without restriction to nationality, country of residence, or membership of the Institution. Professor Kao is the first recipient of Chinese origin to receive this medal.

On 22nd March, Professor Kao received together with Dr. J.B. MacChesney of ATT Bell Labs and Dr. R.D. Maurer of Corning Glass Works, the International Prize for New Materials, which was awarded for their contributions to the materials research and development that resulted in practical low loss optical fibres, one of the cornerstones of optical communications technology. The three scientists were also the joint recipients of the Morey Award given by the American Ceramic Society in 1976 for their contributions to glass sciences.

Professor Kao is famed for his pioneering work on optical fibres. His subsequent research has helped reshape the whole of the world's telecommunications network, and optical fibres now dominate all new telecommunications cable installation. Incidentally Hong Kong boasts the highest density of such cables beneath its ground and many are waiting anxiously for the result of the recent bid for cable television to come out and for an additional network to be installed for the purpose. It will make Hong Kong the most advanced communication city of the world.

Sir Run Run and Professor Ma Lin Honoured

Sir Run Run Shaw and Professor Ma Lin were awarded the honorary degree of Doctor of Humane

Letters by the State University of New York at Stony Brook, USA. The ceremony for the conferment of honorary degree was conducted by Dr. John H. Marburger, President of the State University of New York at Stony Brook, on 12th January immediately following the opening ceremony of the Lady Shaw Building of this University.

New AIDS Drug Discovered

Dr. Hin-wing Yeung, senior lecturer of the Department of Biochemistry and director of the Chinese Medicinal Material Research Centre, has discovered a new AIDS drug, GLQ223 in cooperation with Dr. Michael McGrath of the University of California, San Francisco, and Dr. Jeffrey Lifson and Dr. Kou-mou Hwang of the Genelabs Incorporated, USA.

In laboratory studies, this new drug demonstrated selective inhibition of the human immunodeficiency virus (HIV) antigen expression and inhibited HIV replication in both T-lymphocytes and macrophage cells. It effectively blocked infection of both immune cell types in laboratory cultures, unlike the more limited effect of other potential anti-HIV drugs and AZT, the only approved drug for treatment of HIV infection.

This compound has not yet been tested in patients. However, Genelabs has filed an investigation new drug application with the Food and Drug Administration and it is expected that phase one clinical trials will begin in early 1989.

New Architecture Programme

An Architecture Study Programme will be launched in 1991-92. The University has been invited by the University and Polytechnic Grants Committee to formulate detailed course proposals for the establishment of a department of architecture.

The new programme aiming at an annual intake

of forty students will complement the existing programme at the University of Hong Kong to meet the demand for more locally trained architects in Hong Kong.

The Architecture Study Programme will be a welcomed addition to the wide range of academic and professional disciplines now offered by the University which is dedicated to providing a comprehensive higher education programme to serve the community's multifarious needs. The new programme will also augment the research and consultancy activities at the University.

Earlier, the University invited a panel of internationally renowned academics and practitioners in architecture to advise it on the planning of the new course to ensure that the graduates attain the level of professional competence required for full accreditation by professional architectural bodies in Hong Kong and the United Kingdom, and that they will keep abreast of new architectural design concepts and modern technology. The new programme will also place emphasis on management and environmental and social studies, drawing upon the strength of the University's bilingual education, its cultural heritage and its existing courses in fine arts, geography, urban and regional planning, management, high technology engineering and computer science. The University's established links with centres of excellence in China and overseas will bring additional benefits to the new programme.

PhD Programme in Business Administration

The Senate has approved the proposal to convert the existing PhD programme in Marketing and International Business into a new PhD programme in Business Administration with effect from 1989-90. The new programme has a wider scope of studies and offers more functional areas for students to choose from.

Mr. Hui Yeung Shing Memorial Endowment Fund

The University has received a donation of HK\$10 million by the family of the late Mr. Hui Yeung Shing, former trustee of New Asia College, for the establishment of the Mr. Hui Yeung Shing Memorial Endowment Fund, of which \$7 million is from the estate of the late Mr. Hui Yeung Shing, and \$1 million each from his three sons, Mr. Hui Kwok-hau, Mr. Hui Siu-wing and Mr. Hui Kin-wah.

The donation is to commemorate the close association of Mr. Hui and his family with New Asia

College and the University, and to carry on Mr. Hui's lifelong efforts in promoting higher education and cultural development in Hong Kong.

The endowment fund and the income derived from it will be used by the University for academic and research activities and other developments.

In recognition of the contributions by Mr. Hui and his family to the University, a new academic building will be named 'Hui Yeung Shing Building'.

Mr. Hui Yeung Shing served as a trustee of New Asia College from early 1950s until his death in 1981. His son, Mr. Hui Kwok-hau, has also been elected a trustee of the College since 1982. Over the years, the Hui family has rendered continual support to the University and New Asia College including the establishment of scholarships and awards as well as a donation for furnishing the Faculty Reading Room in the Chien Mu Library of New Asia College.

At a brief ceremony recently took place at the University, Dr. Dennis Hui, Mr. Ng Chi-fong and Mr. Hou Yuen-kin represented the Hui Family to present the donation to the Vice-Chancellor, Professor Charles K. Kao.

John Fulton Centre Completed

The new staff/student centre, John Fulton Centre, has recently been completed. Certain units in the Benjamin Franklin Centre moved to their new homes in March, including the supermarket, the Stationery Room, the General Office of the Business Section, the Mail Room, the Bookshop and the Barber Shop.

Council News

Council Committees

Dr. the Hon. Peter Poon Wing-cheung has been appointed to succeed Dr. the Hon. P.C. Woo as chairman of the Campus Planning and Building Committee, and the University Tender Board for a term of three years with effect from 14th December, 1988.

Pro-Vice-Chancellor Reappointed

At its meeting held on 10th March, the University Council reappointed Professor Baysung Hsu Pro-Vice-Chancellor for a term of two years with retroactive effect from 1st March, 1989.

Patent Committee

In anticipation of the expansion of research and development activities particularly in the engineering

and biotechnology field, and in view of the establishment of the Office of Industrial and Business Development which will now serve as the executive arm on matters related to patents and licensing for invention and technology transfer, the Standing Patent Committee has been renamed Patent Committee and reconstituted as follows:

Chairman

A senior academic staff member to be appointed by the Vice-Chancellor

Members (ex-officio)

Dean of Medicine or his representative
Dean of Science or his representative
Dean of Engineering or his representative
(Faculty to be established)
Director, Institute of Science and Technology or his representative
Director, Hong Kong Institute of Biotechnology or his representative
Bursar or his representative

Other Members

Up to two members to be appointed by the Vice-Chancellor
Director, Office of Industrial and Business Development (Secretary)

Apart from the ex-officio members, all other members are appointed for a period of two years and may be reappointed.

Terms of reference

- (a) To recommend to the Administrative and Planning Committee (AAPC) and to review from time to time guidelines in the handling of existing and potential inventions and technology transfer by staff members of the University.
- (b) To ensure proper dissemination of University policy on patents to members of the University.
- (c) To help and advise staff on patents and to assist (where applicable, on a fee-charging basis) in the filing thereof and in related matters.
- (d) To supervise the administration (including financial administration) of all matters related to patents in accordance with the established guidelines.
- (e) To submit a report to the AAPC upon termination of activities with regard to each invention or discovery brought to its attention and such other reports as it deems necessary to the AAPC from time to time.

University Members Serving on Outside Committees

- (1) The following members of the University have

been appointed by His Excellency the Governor to serve on various boards and committees:

* Professor Charles K. Kao, the Vice-Chancellor, on the Industry Development Board from 1st January to 31st December, 1989.

* Professor S.T. Chang, professor of biology, on the Marketing Advisory Board from 1st January to 31st December, 1989.

* Professor P.C. Leung, professor of orthopaedics and traumatology, on the Council of City Polytechnic from 1st January, 1989 to 31st December, 1990.

* Mr. Andrew Wong Wang-fat, lecturer in government and public administration, on the Vocational Training Council from 1st January, 1989 to 31st December, 1991.

Mr. Wong has also been appointed Non-official Justice of the Peace for Hong Kong from 16th January, 1989 for such period as he remains in Hong Kong.

* Dr. Lam Kin-che, lecturer in geography, on the Environmental Pollution Advisory Committee from 1st December, 1988 to 30th November, 1990.

* Mr. Tsim Tak-lung, director of the Chinese University Press, on the Education Commission from 1st January, 1989 to 31st December, 1990.

* Dr. Winston W.P. Liang, director of the Office of Industrial and Business Development and senior lecturer in electronics, on the Hong Kong Productivity Council from 1st January, 1989.

* Professor Rance Pui-leung Lee, dean of social science and professor of sociology, on the Management Committee of the Police Children's Education Trust from 1st December, 1988 to 30th November, 1991.

* Mrs. Eva Li Ko, senior lecturer in social work, on the Action Committee Against Narcotics from 1st January to 31st December, 1989.

* Professor C.N. Chen, head of Shaw College and professor of psychiatry, on the Triad Renunciation Tribunal for a term of one year from 20th December, 1988.

(2) The following members of the University have been nominated to represent the University on various boards and committees:

* The following staff members on the various training boards/general committees of the Vocational Training Council for a term of two years from 1st April, 1989:

Mr. Au Yeung Pak-kuen, senior lecturer in accounting and finance, on Accountancy Training Board.

Dr. Lawrence Tai, lecturer in accounting and finance, on Banking Training Board.

Mr. Lau Ho-fuk, senior lecturer in marketing and international business, on Wholesale/Retail and Import/Export Trades Training Board.

Dr. Charles F. Steilen, senior lecturer in marketing and international business, on Committee on Management and Supervisory Training.

Dr. Kelvin K.C. Chan, reader in pharmacology, on Committee on Technical Education.

Dr. Chan Chack-kuen, lecturer in electronics, on Electronics Industry Training Board.

Dr. Chung Po-sheun, reader in electronics, and Dr. Edwin Y.B. Pun, lecturer in electronics, on Committee on Training of Technologists.

Dr. Chan Sin-wai, lecturer in translation, on the Committee on Translation.

* Dr. Leung Yee, senior lecturer in geography, on the School Examinations Board of the Hong Kong Examinations Authority from 3rd January to 31st August, 1989.

* Dr. P.S. Chung, reader in electronics, on the Electronics Committee of the Industry Department for a term of one year from 1st January, 1989.

* Miss Linda Hu, senior assistant registrar (Academic and Examination Section), on the Advisory Committee on Qualifications of the Government's Civil Service Training Division.

* Professor Choy Chung-loong, professor of physics, to participate in the United Kingdom Council for National Academic Awards (CNAA) validation exercise for the proposed BSc(Hons) in Applied Physics programme of the City Polytechnic of Hong Kong from 13th to 15th March.

* Mr. Lau Ho-fuk, senior lecturer in marketing and international business, to participate in the CNAA representative validation exercise for the proposed BA in Clothing Studies programme of the Hong Kong Polytechnic from 19th to 23rd March.

Professorial Inaugural Lecture

Professor R. Swaminathan, professor of chemical pathology, delivered his inaugural lecture entitled 'Chemical Pathology — a Balancing Act' on 3rd March.

New UPGC Members

The following persons have been appointed members of the University and Polytechnic Grants Committee (UPGC) for a period of three years from

1st April, 1989:

Professor E.R. Oxburgh, head of Department of Earth Sciences, Cambridge University

Professor Sir Colin Dollery, professor of medicine, Royal Postgraduate Medical School, University of London.

Reopening of the Universities Service Centre

The University has reached agreement with the American Council of Learned Societies (ACLS) to take over management of the Universities Service Centre (USC), which was removed from its Argyle Street premises last June. The Centre, now temporarily relocated to the Central Library Building on CUHK campus, resumed partial service to qualified scholars from 16th January, 1989.

Established since 1963, USC has provided office accommodation and professional assistance to several generations of international scholars who came to Hong Kong for a great variety of research work on contemporary China. As a result, the centre has built up an extensive library holding of books and other original materials published in China, including over 400 newspapers and 1,000 journals and magazines. For a number of years, The Chinese University has been in touch with ACLS, exploring the possibility of providing a permanent institutional base for the centre here in Hong Kong, and the two parties successfully concluded their negotiations in 1988. By agreement, the University will fund and manage the centre for the next three years, during which the centre will be fully maintained for use by all qualified international scholars. At the end of the three-year period, it is expected that a final decision will be made to locate the centre permanently at the University.

The University is presently submitting to the UPGC a plan for expanding the centre into a full-fledged library of Modern Chinese Studies, which would, if approved, become a major repository of original source materials as well as a complete research library for studies of modern China. It will also continue to provide a full range of services to both international and local scholars.

The centre is now under the directorship of Dr. H.C. Kuan, reader in government and public administration. Ms. Jean K.M. Hung, who has long been associated with USC, now serves as the assistant to the director. The policy and overall direction of the centre rests with an advisory committee consisting of academics from both local universities as well as ACLS representatives.

Achievement of a Visiting Postgraduate from China

A former visiting postgraduate student, Mr. Yang Jin Ming, from the Department of Pharmacology of the Shanghai Medical University was recently conferred a PhD degree on his work on 'Studies on the Pharmacokinetics and Drug Metabolism of Ethmozine in Human and Animals', and became the first Doctor of Philosophy in the field of clinical pharmacology in China.

Sponsored by the Beijing and Hong Kong Academic Exchange Centre, Dr. Yang had stayed at The Chinese University for eight months in 1988 and worked under the supervision of Dr. Kelvin Chan, reader in pharmacology. A major part of his PhD thesis is the result of his research work at the University.

Chung Chi Staged Environmental Protection Week

The Environmental Committee of the Chung Chi College staged an Environmental Protection Week from 27th February to 4th March to enhance students' concern about the harmony between life and nature, and to call for greater attention to environmental protection matters.

Activities of the Environmental Protection Week included an exhibition, talks on environmental protection by academics of the University, an evening service, College Assembly with Dr. Man See Wai of the Conservancy Association as guest speaker, and clean campus campaign in the afternoon of 4th March.

Shaw College Celebrated Founder's Day

Shaw College celebrated its first Founder's Day on 11th and 12th January.

The celebration included a staff and students dinner gathering and a variety show at the Sir Run Run Shaw Hall on 11th January. A tea reception was held on 12th January at the University Guest House. Sir Run Run Shaw, patron of the college, together with Professor Charles K. Kao, the Vice-Chancellor, Mr. Teng Teng, vice-minister of the Chinese State Education Commission, Professor Ma Lin, chairman of the Shaw College Board of Trustees, Miss Mona Fong, college trustee, Professor C.N. Chen, college head, Dr. K.P. Fung, college dean of students, and student representatives officiated at a cake-cutting ceremony. The reception was attended by many distinguished guests including a seventy-nine-member delegation from twenty-six universities in China, Dr. John H. Marburger and Mr. Edgar Sandman from the

State University of New York at Stony Brook.

Debating Contest

18th IntersVarsity Debating Contest

The 18th IntersVarsity Debating Contest, an annual debating function between students of the University of Hong Kong and The Chinese University of Hong Kong, was held on 4th March at the Chung Chi Chapel. The University of Hong Kong team won the contest.

The contest was first instituted in 1972 to promote interaction, communication and cooperation between students of the two universities, and to promote interest in debating activities at the universities.

The contest this year is sponsored by The Hongkong Bank Foundation. The panel of adjudication included Mr. Denis Chang, Miss Emily Lau, Mr. Martin Lee, Mr. Brian Renwick and Mr. Roderick Woo.

Inter-postsecondary Debate

The debating team of this University beat its counterpart, the University of Hong Kong, in the finals of the sixth annual inter-postsecondary debate which took place on 12th March and captured the prize trophy. This is the first time the CUHK team has won in the competition.

The motion of the debate was 'The Urban Council and Regional Council Should Merge', and the CU team were speaking against the motion.

Judges of the debate included Mr. Leung Chun-ying, Secretary-General of the Basic Law Consultative Committee; Mr. Ho Sai-chu, Legco member; Mr. Alan Hoo, member of Hong Kong Barristers Association; Mr. Simon Chan, member of Hong Kong Law Society; and Mr. Simon Lun, Assistant Director of Broadcasting, RTHK.

The debate was organized by RTHK and the Hong Kong Federation of Students to train students to use their analytical power and think independently. Nine postsecondary institutions took part in this competition.

Shell Cup Tennis Tournament

The annual Shell Cup Tennis Tournament between the University's staff team and the student team was held on 14th February.

Nine sets of doubles were played and the staff team defeated the students with a final score of seven to two.

Cultural Events

* The Department of Chemistry organized the following seminars:

- Dr. Ying Hung So, M.E. Pruitt Research Center of the Dow Chemical Company, USA, spoke on 'Thermally Stable Polymers' on 3rd January.
- Dr. Louis M. Leung, Department of Chemistry, Hong Kong Baptist College, spoke on 'Microdomain Structure of Polyurethane' on 3rd March.
- Professor Paul J. Scheuer, Department of Chemistry, University of Hawaii at Manoa, spoke on 'Biosynthesis in Marine Sponges' on 10th March. The seminar was jointly organized with the Chinese Medicinal Material Research Centre.
- Professor Huang Wenhong, Department of Chemistry, Zhongshan University, China, spoke on 'Synthesis of Dissymmetric Biaryl Compounds' on 17th March.

* The Faculty of Business Administration hosted two international conferences sponsored by the Fung King Hey Memorial Research Fund, the Beijing-Hong Kong Academic Exchange Centre, and Mr. Liu Jinbiao of the Giant Manufacturing Company Limited:

- An International Conference on Entrepreneurship held from 3rd to 4th January, where scholars and entrepreneurs from different parts of the world participated and examined the experiences of entrepreneurs in China, Taiwan and Hong Kong.
- The Symposium of Economic Development: China Experiences, held from 6th to 7th January, where the economic development policy of China and Taiwan and the prospect of regional economic development were among topics discussed.

* The Research Centre for Translation of the University and the Commercial Press (HK) Ltd. jointly sponsored the 'Fifteen Years of *Renditions*' exhibition from 3rd to 5th January, in the exhibition room of the

Press. Lady Wilson officiated at the opening ceremony.

Renditions is a literary Chinese-English translation magazine published since 1973 by the Research Centre for Translation of the University. Highlighting the exhibition was a special issue of *Renditions* on Hong Kong (December 1988), with literary works spanning the history of Hong Kong from its emergence as an international financial centre to its future status as part of China. *Renditions Books* and *Renditions Paperbacks*, a series of book-length translations of modern and classical Chinese literature launched since 1986, were also on display.

Over the past fifteen years, *Renditions* has been striving to make Chinese literature in English a pleasure to read. Its high standard of excellence has won *Renditions* the respect of scholars world-wide, while the lively, readable quality of the translations has attracted the general reader as well. Probably no other source of Chinese literature in English offers such an extraordinary range of classical and contemporary fiction, drama, prose and poetry. The fifteen years' publishing achievement on display in the Exhibition represented a strong commitment to bringing the best of a great tradition to an English-reading public.

* Chung Chi College invited Professor Qian Jiaju, a well-known economist from China, for a visit to the College from 9th January to 3rd February, as its Siu-lien Ling Wong Visiting Scholar (1988-89). Professor Qian delivered a public lecture entitled 'The Reform of Chinese Economic System - Retrospect and Prospect' on 13th January.

* The Department of Music organized the following activities:

- A piano-zheng lecture-recital by Jimmy Sun Ngan on 11th January.
- Maurice Ravel song-and-piano lecture-recital by Ruth Wilcox (soprano) and Siglind Bruhn (piano) on 18th January.
- Vocal recital by Ms. Chan Siu-kwan, soprano, on 27th February, with Ms. Irene Yip Chiu Leung at the piano.
- Tenor recital by Mr. Li Lie Gang on 20th March.
- The following lecture-demonstrations were presented by the Chinese Music Archive: Professor He Chang-lin of the Institute of Traditional Chinese Music spoke on 'Bibliographical Studies and Fieldwork' on 18th March.

Professor Yuan Jing-fang of the Central Conservatory of Music spoke on 'Model Analysis in Traditional Music' and 'The Study of Buddhist Music in China' respectively on 22nd and 23rd March.

* The following scholars visited New Asia College early this year:

Ming Yu Visiting Scholars

- Professor Melvin Cohen, professor of biology, Yale University, visited the College from 17th to 24th January and delivered a lecture on 'Changes in Form and Function of Central Nerve Cells after Injury' on 24th January.
- Professor Jack Goody, professor emeritus, Department of Anthropology, Cambridge University, visited the College on 15th February and gave a lecture on 'Anthropology, History and the Family'.
- Professor Shi Qing-qi, vice-director, Institute of Planned Economy, State Planning Commission, China, visited the College from 28th March to 2nd April.

S.Y. Chung Visiting Scholar

- Professor Wolfgang Schluchter, professor of sociology, Heidelberg University, West Germany, visited the College from 31st January to 25th February and gave a lecture on 'Confucianism and Capitalism: Max Weber's Study of Imperial China' on 20th February.

* The Centre for Contemporary Asian Studies and the Japanese Studies Section jointly organized a lecture on 'Japan's Development and Confucianism' on 18th January. The speaker was Professor Egashira Kazuma of Nihon University, Japan.

* The Institute of Chinese Studies organized the following lectures:

- Professor Chao Chung-fu, research fellow of the Institute of Modern History, Academia Sinica, Taiwan, spoke on 'The Bearded Bandits of Manchuria' on 18th January, in a lecture jointly organized with the Department of History.
- Professor Su Bai, chairman of the Department of Archaeology, Peking University, China, spoke on 'The Dates of Early Caves at Dunhuang Cave Temple' on 30th January.

- Professor He Yaohua, associate director, The Academy of Social Sciences of Yunnan Province, China, spoke on 'Folk Cults of Tibetan Tribes in Southwestern Sichuan' on 8th March, in a lecture jointly organized with the Department of Archaeology.
- Mr. Liu Xinwu, chief editor of *Renmin Wenxue*, spoke on 'The Creative Directions of Contemporary Mainland Chinese Writers' on 22nd March.

* Chung Chi College held its annual Educational Conference 1988-89 on 20th January. Professor Qian Jiaju, well-known economist from China, Dr. Sung Yun Wing, senior lecturer in economics, CUHK, and Mr. Henry Woo, chairman of the Hong Kong Institute of Economic Science were panelists of the conference on the theme 'Man and the Economy', and Dr. Philip Fu, reader in accounting and finance, CUHK, was the moderator of the panel discussions.

* The Department of Physics organized a seminar on 23rd January. Professor Yu Lu of the Institute of Theoretical Physics, Beijing, and the International Centre for Theoretical Physics, Trieste, spoke on 'Current Status of the Theory of High T Superconductivity'.

* The Department of Paediatrics presented a lecture on 24th January on 'Children Who Smoke - Actively or Passively'. The speaker was Dr. Judith Mackay, executive director of Hong Kong Council on Smoking and Health.

* The United College held its annual workshop of 1989 on 10th February.

Panel discussion on the theme 'The Hong Kong Mind' was moderated by the college head, Professor C.Y. Lee. The panelists included Professor T.C. Chen, professor of electronics and computer science; Dr. Y.S. Leung, senior lecturer in philosophy and religion, Hong Kong Baptist College; Mr. T.L. Lui, lecturer in sociology; Dr. Byron S.J. Weng, reader in government and public administration; and Mr. Wong Chi Wai, president of 1988 United College Students' Union.

* The Department of General Business Management and Personnel Management organized a seminar on 10th March. Professor Thomas G. Gutteridge, dean and professor of management, College of Business and Administration, Southern Illinois University at Carbondale, spoke on 'AACSB Accreditation Policies and Their Impact on Business Education'.

* The University Health Service, University Student Union, United College Student Union and Medical Society jointly organized a health campaign - Emergency Care, which took place from 13th to 23rd March. The campaign attempted to enhance general awareness of the management of different types of emergencies and the application of simple first aid before the availability of medical care.

The programme of the campaign included an exhibition on emergency care with a first aid video show and cardio pulmonary resuscitation demonstration. The following seminars were also held:

- (1) 'Traumatic Emergency', conducted by Dr. Kwa Will-pong, Matthew, Consultant, Accident and Emergency Department, United Christian Hospital.
- (2) 'Medical Emergency', conducted by Dr. Lau Fei-lung, senior medical officer, Accident and Emergency Department, United Christian Hospital.

* An exhibition of 'Archaeological Finds from the Five Dynasties to the Qing Periods in Guangdong' commenced from 18th March at the Art Gallery to continue until 14th May. A preview of the exhibition was held on 17th March and Dr. Solomon Bard officiated at the opening ceremony.

Jointly organized by the Guangdong Provincial Museum and the Art Gallery, the exhibition features 112 items of food and water utensils, storage jars, funeral objects, architectural parts, tools, mirrors, coins, clothing, ornaments, fans, scholar's articles, dramatic script and sculptures. Most of the exhibits have been excavated from various archaeological sites in the Guangdong Province. Twelve are however items from local archaeological finds.

A fully-illustrated catalogue of more than 200 pages with colour plates is available for sale at the Gallery.

* Professor Ky Fan, emeritus professor in mathematics, University of California at Santa Barbara, visited the United College as its 1988-89 Distinguished Visiting Scholar from 29th March to 11th April. During his stay, Professor Fan gave three public lectures:

- 'Game Theory and Its Influences' on 31st March;
- 'Analytic Functions of Linear Operators' on 3rd April; and
- 'Convexity Theorems in Fixed Point Theory' on 7th April.

1988 Freshmen in Profile

The annual survey on new students of the University conducted by the Office of Student Affairs revealed statistics that presented an interesting profile of the student population. Of the 1,531 full-time first-year students admitted to the University in the academic year 1888-89, 98.9% of them responded to the survey while all of the 179 part-time students also participated.*

Freshmen of the Full-time Programmes

Statistics revealed that the overall male to female ratio among the freshmen is 1:1.1. However, male students still form the majority in the Faculty of Medicine (86.1%) and the Faculty of Science (76%). The average age of the students is 18.3 years, while male and female averages are 18.4 and 18.1 respectively. Some 72% of the students profess no religious belief. The others are mainly Protestants (21.1%) and Catholics (6.3%).

Freshmen in general have had an active non-academic life before entering the University: 99.3% of them having participated in various extracurricular activities at school, and 82.8% having travelled outside Hong Kong. 4.4% of the freshmen have had the experience of full-time employment, 10.9% the experience of part-time employment and 60.7% the experience of summer work prior to entering university.

With respect to the level of educational attainment of student parents, it was found that 21.7% of the fathers and 14.3% of the mothers received education to tertiary level. 34.3% of the fathers and 28.4% of the mothers were educated to secondary standard, while less than half of the parents received only primary school education. Of the parents' occupations, 22% of the fathers are production-related workers/drivers, 16.2% of them store-owners or merchants, 12% professionals or in managerial positions. A large majority of the mothers (55.6%) are housewives, while 19.4% of them are employed as production-related workers.

The survey revealed that freshmen came from families with a monthly household income in the average of \$8,061. Over 92% of the freshmen have to rely in varying degrees on their families for financial support. 48.7% of them also indicated the need for government grants and loans. 43% of them plan to take up summer or part-time work to help provide for their education expenses.

49.8% of the freshmen live in Kowloon, 27.3% of them in the New Territories and 22.5% on Hong Kong Island. 38.9% of the freshmen live in public housing estates, representing a decrease of 1.3% compared with the previous year's figure. The average household size is 5.1 persons. The overall average living area per person is 7.8 square metres, which is slightly higher than that of the previous year (7.6 square metres). However, nearly half of the freshmen (42.9%) do not have a favourable study environment at home. About 74% of the freshmen therefore expressed a strong need for campus accommodation, according to the survey.

As many as 97% of the students surveyed have chosen their major programmes out of an interest in the subject fields. 82.8% of the participants in the survey believed that their chosen major would lead to promising careers. Examination results have played a part in the choice of majors for 57.6% of the freshmen, and 24% of them were influenced by family expectations. About 97% of the respondents hoped to study a subject of their own interest in university. Some 93% of them expected to obtain specialized training in university, and 89% expected a university education to assist them in perfecting their human nature. About 81% of the students place emphasis on acquiring an all-round education, while most of them also expressed a keen interest in extracurricular activities. Nearly 87% suggested that they would participate in academic activities outside the formal curriculum. 77.5% of them expressed interest in activities related to arts and crafts, and 31.5% indicated that they would participate in Student Union activities.

* Enrolment figures as of 30th October, 1988

As regards future employment expectations, 41.9% of the freshmen cited administrative/management as their top preference, followed by teaching (36.9%), research (29.4%), computer/data processing (16.3%) and social services (13.9%).

Part-time Degree Programmes

Freshmen of the Part-time Degree Programmes are different from their full-time counterparts in a variety of ways. They are older, with an age range between 23 and 49, while the average is 29.3 years. Female and male are about equally represented at a split of 46.9% and 53.1%. Unlike their full-time counterparts, a large proportion of these part-time students are married (38%). Of these 66.2% have one or more children.

Nearly half of the new students reported that they had, at one time or another, attended post-secondary institutions after secondary schooling, while 39.1% had already graduated from Colleges of Education. About 16% took courses organized by various institutions, such as the extramural courses offered by the two universities. The survey found that the 1988 entrants to the Part-time Degree Programmes appeared to be a group of highly motivated learners.

The new part-time students come from four major occupational sectors. 22.3% of them work in various government units, 39.7% come from the education sector, 24% from commerce and industry, and 8.9% serve in various social service organizations. Most of these students chose to enrol in a subject that relates to their work. 59% of students enrolled in the Chinese-English Programme, 69.2% of those in the Music Programme and 94.4% of those in the Primary Education Programme are from the teaching profession. In the Social Work Programme, about half of the students are in-service social workers. Finally, 73.6% of the students in the Business Administration Programme come from the commerce and industry sector.

Over half of the students (52%) have had working experience of less than six years, while 32.4% of them have worked for over ten years. About 18% of the new students have monthly salaries below \$6,000 while 40% earn over \$9,000 per month, the average being \$9,053. As for the financing of university education, over 80% of the respondents reported that the major source of the fund came from their own personal income, while others relied on allowances from employers (10.1%), personal savings (3.9%), and assistance from family members (1.7%).

Profiles

Dr. Walter W.K. King

Senior Lecturer,

Department of Surgery

Dr. Walter W.K. King received his secondary school education in Hong Kong and at Repton School, England before he went to the United States of America in 1968. After graduating from the University of

Wisconsin, Madison with honours in biochemistry in 1971, he studied medicine at Vanderbilt University School of Medicine in Nashville, Tennessee and received his doctor of medicine (MD) degree in 1975. He did a year of internship in internal medicine at Vanderbilt University Hospital under Dr. Grant W. Liddle. Between 1976 and 1980, he received postgraduate training in general surgery at the State University of New York at Stony Brook, where he was chief resident in surgery from 1979 to 1980. Between 1980 and 1982, he was clinical assistant in surgery at Massachusetts General Hospital, clinical fellow in surgery, Harvard Medical School, and research fellow at Shriners Burns Institute, all at Boston. In 1981, he was certified as a specialist in general surgery by the American Board of Surgery. In 1982, he was appointed assistant director, nutritional support unit, Massachusetts General Hospital. Between 1982 and 1983, he became fellow in head and neck surgery at Memorial Sloan-Kettering Cancer Center, New York. He was appointed assistant professor of surgery at State University of New York at Stony Brook and consultant surgeon at Northport Veterans' Administration Medical Center in 1983. In 1984, Dr. King was invited to be visiting fellow at Stanford University Medical Center.

Dr. King joined The Chinese University of Hong Kong as lecturer in surgery in 1984 and was

reappointed senior lecturer in surgery in 1988. Between 1986 and 1987 Dr. King was on special leave to serve as fellow in surgery at the Massachusetts General Hospital and the Harvard Medical School to work on burns, facial and reconstructive surgery. Dr. King has wide clinical interests in head and neck surgery, facial and reconstructive surgery, burns surgery and endocrine surgery. His research interests include nutrition and metabolism, chemical carcinogenesis, cultured human epidermis and tongue cancer. Dr. King is currently chief of the head and neck unit, nutritional support unit, and burns unit of the department of surgery, and consultant in head and neck surgery at the Prince of Wales Hospital. He was recipient of the fellowship award of the American Society for Head and Neck Surgery in 1984. He is currently a fellow of the American Society for Head and Neck Surgery, the Royal College of Surgeons of Canada, and the Hong Kong Surgical Society, and he is a member of the Society of Parenteral and Enteral Nutrition, the Pan Pacific Surgical Association, the Society of Head and Neck Surgeons, and the International Association of Endocrine Surgeons.

Dr. Tay Lian-soo

Senior Lecturer, Department of Chinese Language and Literature

Dr. Tay Lian-soo is a Malaysian Chinese. He graduated from the National Taiwan University in 1971 with a DLitt degree, and took up teaching at the University of Malaya at different times as lecturer, associate professor, and head of department for about seventeen years. He

frequently visited and gave lectures at overseas universities including the University of London, the University of Tokyo, the Waseda University and the University of Hong Kong. He also served as external examiner and as assessor of research papers for universities and research institutions. During 1980-84, Dr. Tay was invited by the Geneological Society of Utah in the United States to supervise the research field work on the geneologies, documentations and historical data and burial records of the Chinese people in Malaysia. His research efforts and contributions earned him warm appreciation of the Geneological Society of Utah. Dr. Tay returned to National Taiwan University as visiting professor in 1982 and he initiated a course on the authentication of classical Chinese texts. This was the first time such a course was offered in tertiary institutions.

Dr. Tay's earlier research activities were focussed mainly on Chinese textual criticism, and had a number of publications under his authorship, including 'Textual Criticism on Huai-nan-tze' (淮南子校理), 'Textual Criticism on Sun-tze' (孫子校補), 'Selected Papers on Bamboo and Silk Manuscripts' (竹簡帛書論文集) and 'Textual Criticism on Lao-tze' (老子新校). From the 1980s onwards, he has also devoted much of his efforts to the authentication of classical Chinese texts. 'The Political Thoughts of Shang-yang and His School' (商鞅及其學派) and 'Authentication of Classical Chinese Text' (古籍辨偽學) are among his recent publications.

Dr. Tay is also interested in the history of Chinese activities in Singapore and Malaysia, and has to date published three books on this subject in Singapore and Malaysia.

Mr. Chan Lik-man

Lecturer, Department of Social Work

Mr. Chan Lik-man is a graduate of the Department of Sociology and Social Work, Chung Chi College, The Chinese University of Hong Kong in 1969. He joined the Social Welfare Department in the same year to take up duties in community development, social group work and social work training.

In 1977, Mr. Chan joined the Hong Kong Polytechnic as a lecturer in the Department of Applied Social Studies until September 1988, when he joined the University as a lecturer. During the eleven years with the Hong Kong Polytechnic, he went to UK in 1981-82 for further studies and obtained his master degree in social and community work studies from the University of Bradford.

Mr. Chan specializes in social work with groups, children and youth work, as well as services for the handicapped. Most of his papers published and research are related to these areas. At present, he is planning to launch a study on the female in deviant youth gangs. Mr. Chan participates rather actively in voluntary social services and is currently vice-chairman on the Advisory Committee of the Hong Kong Association of the Deaf.

Dr. Peter Lap-Ming Liu

Lecturer, Department of Computer Science

Dr. Peter Lap-Ming Liu was born in Hong Kong. He received his secondary school education at Wah Yan College, Hong Kong. In 1979, he went to the University of Wisconsin, Eau Claire in the United States for his undergraduate studies, and transferred to the University of Texas at Austin in 1981. He graduated with a BA degree in computer science in 1983. He then went to the University of Pennsylvania for graduate studies in computer science. After obtaining the PhD degree in June 1988, he joined the Department of Computer Science of The Chinese University of Hong Kong.

Dr. Liu's major research interests are software development for parallel/distributed processing, automatic programme generation, and specification languages. Recently he and two other lecturers were given a grant by the Engineering Research Committee for a research project to work on 'a specification-based neural network simulation environment'. Meanwhile, he is supervising and co-supervising three MPhil research projects on automatic generation of exception handlers, specification of neural networks, and debugging logic programmes.

Gifts and Donations

The University has recently received from local and overseas individuals and foundations the following gifts and donations in support of its programmes and projects:

- (1) From Dr. Dennis Hui on behalf of Yeung Shing Land Investment Co., Ltd. HK\$300,000 for the New Asia College Endowment Fund.
- (2) From Banca Popolare di Bergamo approximately Lit 4,800,000 for the award of four scholarships to students for short-term studies at the Institut Universitario di Bergamo, Italy, in summer 1989.

 - (a) HK\$20,000 for the establishment of a Minigrant Fund to support student projects in the areas of music, drama, dance and public speaking; and
 - (b) HK\$30,000 annually for the award of six scholarships to two students each from the Departments of Music, Fine Arts, and Journalism and Communication, with effect from 1988-89.
- (4) From Chou's Foundation HK\$20,000 for the establishment of a student campus work scheme in 1988-89.
- (5) From Duty Free Shoppers International Limited HK\$6,200 for the award of a scholarship to an MBA student in 1988-89.
- (6) From Hitachi Hong Kong Ltd. HK\$80,000 for the establishment of an endowment fund, the accrued interests from which will be used to set up two scholarships to be awarded to second-year students in the Integrated Engineering Programme annually with effect from 1989-90.
- (7) From The Incorporated Trustees of the Wah Kiu Yat Po Fund for the Relief of Underprivileged Children an annual donation of HK\$6,200 for the award of a Wah Kiu Yat Po Scholarship in Communication to an M.Phil. student in communication (increased from 1988-89 from HK\$4,000).
- (8) From The Hong Kong Pathology Society HK\$1,000 annually for five years with effect from 1988-89 for the award of a prize to a medical student.
- (9) From Mr. Frank L. Kwok further donation of HK\$400,000 to an endowment fund totalling HK\$500,000, the accrued interests from which will be used for the award of ten scholarships annually to undergraduates with effect from 1988-89.
- (10) From T.S. Tong & Co. HK\$3,000 for a T.S. Tong & Co. Scholastic Achievement Award of HK\$1,000 annually for the MBA Programmes for three years from 1989-90.
- (11) From University Lodge of Hong Kong No. 3666, E.C., HK\$5,000 for the award of one to two University Lodge Masonic Bursaries for 1988-89.
- (12) From Abbott Laboratories Ltd. HK\$30,000 for the study of Terazosin undertaken by the Department of Medicine.
- (13) From Astra Pharmaceuticals Sweden HK\$10,000 for the neonatal research projects undertaken by the Department of Paediatrics.
- (14) From Bayer China Co. Ltd. HK\$20,000 for research undertaken by the Department of Microbiology.
- (15) From Beijing-Hong Kong Academic Exchange Centre:
 - (a) HK\$7,500 for a research project undertaken by Dr. Tso Wung-wai of the Department of Biochemistry;
 - (b) HK\$80,000 for a conference jointly organized by the Faculty of Business Administration and the Chinese Academy of Social Sciences, China, in January 1989; and
 - (c) HK\$4,800 for an international conference under the Japan Study Programme organized by the Centre for Contemporary Asian Studies in May 1989.
- (16) From two separate donors contributions to the Department of Orthopaedics and Traumatology for educational and research purposes:
 - (a) HK\$10,000 from Mr. K.Y. Cheng; and
 - (b) HK\$2,000 from Mr. Ng Wang-chi.
- (17) From The Croucher Foundation:
 - (a) Further donation of HK\$138,000 for a research project undertaken by Dr. T.Y. Luh of the Department of Chemistry;
 - (b) HK\$714,540 for a research project undertaken by Dr. Dolly Huang of the Department of Morbid Anatomy and Dr. Lau Ching Ching of the Department of Pharmacology;

- (c) HK\$155,000 for a research project undertaken by Dr. Lee Chi-ming of the Department of Biochemistry;
 - (d) HK\$1,600,000 for a research project undertaken by Dr. Walter K.K. Ho of the Department of Biochemistry, in cooperation with the Department of Biology, Zhongshan University;
 - (e) HK\$70,000 for a research project undertaken by the Department of Community and Family Medicine;
 - (f) HK\$50,000 in support of the visit of Dr. Duncan R. Clark to Hong Kong at the invitation of the Vice-Chancellor; and
 - (g) HK\$700,000 as the first payment of a three-year donation of HK\$2,100,000 for the appointment of a visiting professor in information technology from 1989.
- (18) From Farmitalia Carlo Erba (HK) Ltd. further donation of HK\$30,000 for a study undertaken by the Department of Medicine.
 - (19) From the French Government HK\$25,400 for research purposes in the Department of Anthropology.
 - (20) From GD Searle & Co. further donation of HK\$5,000 for research undertaken by the Department of Microbiology.
 - (21) From General Foods Worldwide Coffee and International, USA, US\$20,000 for a postgraduate studentship/research fellowship programme set up jointly with the donor at the Department of Biology for two years from January 1989.
 - (22) From Glaxo Hong Kong Limited to the Department of Surgery:
 - (a) HK\$100,000 for research and development purposes; and
 - (b) HK\$78,148 to sponsor two staff members to attend an international congress in Rome in September 1988.
 - (23) From Hoechst China Ltd. US\$12,000 for a study undertaken by the Department of Medicine.
 - (24) From The Hong Kong Anti-Cancer Society HK\$22,460 for a research project undertaken by the Department of Morbid Anatomy.
 - (25) From Hua Wah (Shipping) Co., Ltd. HK\$8,000 for a research programme undertaken by the Centre for Contemporary Asian Studies.
 - (26) From Janssen Pharmaceutica:
 - (a) HK\$600,000 for a research project undertaken by the Department of Medicine;
 - (b) HK\$4,000 for a visiting scholars fund of the Department of Orthopaedics and Traumatology; and
 - (c) HK\$3,500 to sponsor a visiting professor to give a lecture for the Department of Community and Family Medicine in October 1988.
 - (27) From Kansai Economic Research Centre, Japan, US\$1,925 for a research project undertaken jointly by the Departments of General Business Management & Personnel Management, Accounting & Finance, and Economics, and the donor.
 - (28) From Mr. Law Chung Wan HK\$100,000 for research purposes in the Department of Medicine.
 - (29) From Lee Hysan Foundation Ltd. HK\$300,000 for the establishment of a special project fund in the Art Gallery.
 - (30) From Mr. T.N. Ling HK\$20,000 for a study undertaken by the Centre for Hong Kong Studies.
 - (31) From Mrs. Lo Mak Hau-chong HK\$2,000 for a research project undertaken by the Department of Biochemistry.
 - (32) From Merck Sharp and Dohme (Asia) Ltd.:
 - (a) HK\$447,000 for a study undertaken by the Department of Medicine;
 - (b) HK\$330,000 for a research project undertaken by the Department of Community and Family Medicine;
 - (c) HK\$60,000 for a clinical project undertaken by the Department of Medicine; and
 - (d) Further donation of HK\$31,200 for a study undertaken by the Departments of Medicine and Microbiology.
 - (33) From Roche Asian Research Foundation HK\$10,000 for a research project undertaken by the Department of Community and Family Medicine.
 - (34) From various donors contributions totalling HK\$232,870, US\$100 and £100 for the Hong Kong Paediatric Bone Marrow Transplant Fund of the Department of Paediatrics.
 - (35) From Wideland Foundation Ltd. HK\$500,000 for the establishment of a memorial fund in the Department of Surgery.
 - (36) From World Health Organization further donation of US\$12,222 for a research project jointly undertaken by the Department of

- Community and Family Medicine and the donor.
- (37) From Yue Xiu Enterprises Ltd. HK\$30,000 for a research project undertaken by the Centre for Contemporary Asian Studies.
- (38) From Xing Xia Co. Ltd. HK\$50,000 for a research project undertaken by the Centre for Contemporary Asian Studies.
- (39) From a group of alumni a donation of HK\$10,450 towards the Biology Alumnus Fund, to be used for general purposes for the benefit of the students of the Department of Biology.
- (40) From AM Medica Communications, Ltd. US\$1,500 as sponsorship for the provision of secretarial services to the Merck Sharp and Dohme International Conference organized through the Department of Medicine in France in July 1989.
- (41) From Amateur Sports Federation and Olympic Committee of Hong Kong HK\$10,000 for a conference jointly organized by the Physical Education Unit and the International Society of Comparative Physical Education and Sport in August 1988.
- (42) From the following donors contributions for a conference on philosophy organized by the Department of Philosophy in October 1988:
- (a) HK\$5,000 from Mr. Au Chung-kit; and
 - (b) HK\$15,000 from K.C. Wong Education Foundation Ltd.
- (43) From JCG Finance Co., Ltd. HK\$20,000 for an international conference under the Japan Study Programme organized by the Centre for Contemporary Asian Studies in May 1989.
- (44) From the following donors contributions for a workshop on cardiology organized by the Department of Medicine in November 1988:
- (a) HK\$10,000 from Boehringer Ingelheim (Hong Kong) Ltd.;
 - (b) HK\$10,000 from Cordis Neich Ltd.;
 - (c) HK\$10,000 from Hoechst China Ltd.;
 - (d) HK\$5,000 from Medtronic International Ltd.; and
 - (e) HK\$5,000 from Jardine Danby Ltd.
- (45) From Jardine Danby Ltd. HK\$2,000 for the cardiac seminars organized by the Department of Medicine in December 1988.
- (46) From the following donors contributions for postgraduate educational activities organized by the Department of Obstetrics and Gynaecology:
- (a) HK\$2,000 from Bristol-Myers (HK) Ltd.;
 - (b) HK\$2,000 from Goodman Medical Supplies Ltd.;
 - (c) HK\$1,000 from Pfizer Corporation; and
 - (d) HK\$2,000 from Wyeth (HK) Ltd.
- (47) From Ms. Alice Cheng, Yung Shing Enterprise Co., further donation of HK\$4,880 to sponsor two scholars from the University of International Business and Economics, Beijing, for an attachment to the Faculty of Business Administration from September to December 1988.
- (48) From Essex Asia Ltd.:
- (a) HK\$5,980 to sponsor a staff member of the Department of Medicine to attend two congresses in Seoul, Korea, in October 1988; and
 - (b) US\$1,200 to sponsor a staff member of the Department of Surgery to attend a congress in Penang, Malaysia, in February 1989.
- (49) From Goethe-Institut Hong Kong HK\$3,000 for a seminar organized by the Centre for Contemporary Asian Studies in November 1988.
- (50) From Mr. Albert Cheung, Grand Textile Co., Ltd. HK\$1,000 for the publication of the proceedings of an international conference organized by the Department of Anthropology in December 1988.
- (51) From The Hongkong Bank Foundation HK\$28,500 for the 1989 Intersarsity Debating Contest held in March 1989.
- (52) From ICI Pharmaceuticals HK\$26,000 to sponsor a staff member of the Department of Medicine to present paper at an international symposium in Cambridge, UK, in September 1988.
- (53) From Jepsen & Co., Ltd. HK\$9,090.80 to sponsor a staff member of the Department of Paediatrics to attend a congress in Singapore in November 1988.
- (54) From Jubilee Sports Centre HK\$3,819 for a programme undertaken by the Department of Medicine.
- (55) From the following donors contributions for conferences organized by the Chinese Law Programme of the Centre for Contemporary Asian Studies:
- (a) HK\$53,299.60 from Messrs. David K.M. Lai, Li Man Wah and Ma Siu Lam; and
 - (b) HK\$67,000 from Mr. T.N. Ling.

- (56) From The Linguistic Society of Hong Kong HK\$2,500 for an international conference organized by the Department of Anthropology in December 1988.
- (57) From Mr. Liu Lit-man HK\$100,000 for New Asia College's 40th anniversary celebration programmes and other activities.
- (58) From Ming Yu Foundation HK\$234,000 for New Asia College.
- (59) From Olympus Optical Co., Ltd. HK\$7,640 to sponsor a staff member of the Department of Medicine to attend a conference in India from 28th October to 1st November, 1988.
- (60) From Sandoz Pharmaceuticals Ltd. HK\$4,500 to sponsor a staff member of the Department of Medicine to attend a congress in Beijing in September 1989.
- (61) From Shung Yuen Land Investment Co., Ltd. HK\$600,000 for educational and general purposes for the Department of Medicine.
- (62) From Squibb (Far East) Limited to the Department of Medicine:
- HK\$9,100 to sponsor a staff member to attend a congress in Vienna, Austria, from 28th August to 1st September, 1988; and
 - HK\$20,000 for the subscription of medical journals.
- (63) From Telectronics (HK) Ltd. further donation of HK\$70,333.41 for the laser seminar and workshop of the Department of Obstetrics and Gynaecology in November 1988.
- (64) From Trustees of Lingnan University:
- US\$43,500 for the Comparative Literature Research Unit's exchange programme with China in 1988-89; and
 - US\$40,000 for the Programme of Academic Visitors (management teachers) from China for 1988-89.
- (65) From Wen Wei Po Limited a donation of HK\$5,500 for a mandarin debating contest between the Zhongshan University and The Chinese University of Hong Kong in December 1988.
- (66) From the following donors contributions to Chung Chi College from April to October 1988:
- From United Board for Christian Higher Education in Asia, HK\$163,000 towards the Christian Education Fund.
 - From the following donors for scholarships:
 - HK\$24,000 from Chekiang First Bank Ltd.;
 - HK\$6,000 from Union Carbide Asia Ltd.;
 - HK\$5,400 from Chinese Christian Universities Alumni Association;
 - HK\$3,200 from Chung Chi Alumni Association;
 - HK\$1,000 from The Church of Christ in China, HK Council;
 - HK\$10,800 from Sir Quo-wei Lee; and
 - HK\$8,000 from Dr. Ho Tim.
- (c) From the following donors for the Dr. C.T. Yung Memorial Scholarship:
- HK\$1,000 from Mr. Ngan Lung;
 - HK\$1,000 from Mrs. Leung Choy Yuk Tsang;
 - HK\$1,000 from Mr Sze Kit Sum/Mr. Chan Wan Tat;
 - HK\$1,000 from Mr. Yiu Chee Cheong;
 - HK\$1,000 from Mr. Lo Wai Ming;
 - HK\$1,000 from Mr. Pang Yuk Wing;
 - HK\$500 from Mr. Yau Chuen Loi;
 - HK\$500 from Mr. Mo Ping Kui;
 - HK\$200 from Ms. Luk Sau Ling;
 - HK\$200 from Mr. Suen King Feng; and
 - HK\$150 from Mr. Cheung Wai Shing.
- (d) From the following donors for the Theology Division:
- HK\$2,000 from The Church of Christ in China, Mongkok Church;
 - HK\$2,729 from Dr. Charles H. Long;
 - HK\$4,000 from South East Asia Graduate School of Theology, HK Area;
 - HK\$170,000 from The Church of Christ in China, HK Council;
 - HK\$27,500 from Mr. Tso Man-kin;
 - HK\$15,750 from All Saints' Church;
 - HK\$50,000 from Ms. Ho Ling Shan;
 - HK\$500 from an anonymous donor;
 - HK\$200,000 from Tsung Tsin Mission;
 - HK\$30,176 from United Church of Canada;
 - HK\$39,870 from the Council for World Mission;
 - HK\$46,137 from Presbyterian Church;
 - HK\$14,000 from Anglican Church;
 - HK\$9,601 from Kau Yan Church;
 - HK\$195 from Sai Kung Tsung Tsin Church; and
 - HK\$2,000 from Rev. Daniel Chow.
