FOREWORD TO THE COMMEMORATIVE EDITION by David T. W. Lau	ix
FOREWORD by Gordon W. Dillon	xiii
PREFACE by L. B. Throver	xv
Introduction	xvii
I. THE BASIC FEATURES OF THE ORCHIDS IN HONG KONG.....	1
Habit and Habitat.....	1
1. Terrestrial Orchids; 2. Epiphytes; 3. Symbiosis	
Root.....	4
Stem.....	5
Leaves.....	6
Inflorescence	6
Flowers.....	7
Fruit.....	16
Seed and Seedling	17
II. KEYS AND DESCRIPTIONS.....	19
Keys to the Subfamilies, Tribes, and Genera.....	19
Descriptions of Genera with Illustrations and Keys to the Species	26
III. COMPOSITION AND PHYTOGEOGRAPHIC SIGNIFICANCE	125
Systemic Summary.....	125
Analysis of the Composition	129
1. Generic Affinity with the Orchids of China; 2. Morphological Diversity;	
3. Small Species and Poor Populations; 4. Alphabetic List of the Species	
Phytogeographic Significance	136
1. Indication of a Rich Flora and a Favorable Area; 2. Reference for Floristic	
Relationships; 3. Endemism at the Species Level	
Conclusion	138
IV. ORIGIN AND MEANING OF THE GENERIC NAMES OF HONG KONG ORCHIDS.....	141
GLOSSARY.....	149
BIBLIOGRAPHY.....	155
INDEX	159
MAJOR LIFE EVENTS OF PROFESSOR SHIU-YING HU	161
