Masterclass for Innovation in Healthcare

Date : 17 December 2016 (Saturday)
Venue : Meeting Room 3 & 4, G/F, InnoCentre, 72 Tat Chee Avenue, Kowloon Tong

During this 1-day high energy interactive session arranged by CUHK, Trinity College (Ireland) and HKSTP, Professor McMahon from Trinity College, currently a Distinguished Visiting Scholar at CUHK, and Professor Hans Gregersen, an award winning researcher and inventor from the Department of Surgery, CUHK will relate their experiences on innovating in the healthcare space through an engaging workshop.

If you're curious about the world of ideation and invention or even if you are just challenged by a great idea and you don't know what to do with it, this workshop is for you. Please be ready to roll up your sleeves and get involved.

Target participants: Doctors (fellows as well as specialists), nurses, technicians, medical students, and BME students are welcome to register. Since the number of participants is limited to 24, show-up is mandatory if your registration is accepted. We will aim at a mix of participants with different backgrounds to facilitate interdisciplinary input and working in teams.

For registration, please email your information (Your Name / Position / Department / Contact Number) to Ms Aderine Lo at email address: aderinelo@surgery.cuhk.edu.hk

It is recommended to register as soon as possible.

Chaired by

Prof Hans Gregersen

Department of Surgery
The Chinese University of Hong Kong

With special guest lecturer
