

8 - Developing Micro-Modules for the Implementation of Flipped Classroom Activities in Introductory College General Education Courses

Tools / Services	Pedagogical Uses
YouTube / Blackboard	<p>The first three micro-modules were used for flipped-classroom teaching. They are uploaded on YouTube and disseminated to students through Blackboard, students are asked to do post-video quiz on Blackboard.</p> <p>There are also in-class follow up discussion sessions for students to clarify concepts, for teachers to elaborate on more in-depth aspects and for the class to discuss on the concerned topics.</p>
