THE CHINESE UNIVERSITY OF HONG KONG
Department of Mathematics
MATH4240 Stochastic Processes, 2020/21 Term 2

Take-home Midterm Test
Time and Date: 10:00am March 19ᵗʰ to 10:00am March 20ᵗʰ

Name	Student I.D. No.

Directions:

1. Print out this front page and write your Name and Student ID on it. Then, print out enough copies of the template of the answer sheet and use them for writing your solutions. Start each answer on a fresh page and write the number of the question attempted at the top of the page. Last, scan your complete work and submit them (the front page together with all complete answer sheets) online through Blackboard. Only handwritten answers can be allowable and late submission will NOT be accepted.

2. Answer all questions listed in the question paper. Give adequate explanation and justification for all your computations, observations and reasonings. Write your proofs in a clear and rigorous way.

3. The test is open-book and open-notes, but it should be done absolutely by yourself without asking others in any format. In particular, making discussions amongst classmates or asking for answers via internet is strictly prohibited. Your submitted solution will be checked carefully to avoid plagiarism. Here is the Honesty in Academic Work: *The Chinese University of Hong Kong places very high importance on honesty in academic work submitted by students and adopts a policy of zero tolerance on cheating and plagiarism. Any related offence will lead to disciplinary action including termination of studies at the University. Although cases of cheating or plagiarism are rare at the University, everyone should make himself / herself familiar with the content of the following website: http://www.cuhk.edu.hk/policy/academichonesty/, and thereby help avoid any practice that would not be acceptable.*
