

Tips for Take-home Midterm Test 1:

1. The test covers the content up to Chapter 1 of the textbook.
2. The test will **start at 10am, October 9 (Friday)** and the question papers will be uploaded to both blackboard and course web on time. You are suggested to directly check “Quizzes and Exams” on the course web to download the question papers.
3. Print out the front page as well as enough copies of the provided template of answer sheets. You may do this earlier than the starting time of the test. You may use other kinds of paper sheets with format similar to the provided one.
4. Your answers must be handwritten. You may write your answers either on the paper sheets or directly through your iPad.
5. Start each answer on a fresh page and write the number of the question attempted at the top of the page.
6. The test will take 24 hours, so it will **end at 10am, October 10 (Saturday)**. Please **submit your work (the signed front page and all complete answer sheets) in one electric file (PDF is better) online through Blackboard** on or before the due time. You are kindly reminded to prepare your submission earlier than the due time. Late submission will not be accepted.
7. It is an open-book test. You are allowed to use the textbook, lecture notes, and any reference books. **The test must be done by yourself without asking others in any format.** Discussions amongst classmates are strictly prohibited.
