

**Words from Professor II (September 17, 2014)**

I have revised Sections 1.5 and 1.6, so Chapter 1 is now finalized. I wish to point out that three places need attention:

- The first several lines on page 24 has been made more precise.
- Corollary 1.17 is improved.
- A harmless factor  $\pi$  was missing in the proof of Cor 1.19.

All other changes are minor ones either typos or polish.
