

# PRESENTATION SKILLS FOR SCIENTISTS: how to deliver powerful academic presentations

*If you can't explain it simply, you  
don't understand it well enough*

Effective communication and presentation skills are essential in science. From group meetings and journal clubs to thesis defence and international conferences - making a good presentation is essential to deliver your research to any audience in an effective way.

Dr Dominic Bowman

We are happy to invite you to a meeting with Dr Dominic Bowman from KU Leuven in Belgium, who will share his knowledge and expertise on how to deliver a thrilling and encapsulating presentation. By the end of this talk, you will not only know the difference between surviving a presentation and delivering a high quality talk, but, most importantly, you will become confident in how to prepare a good presentation your audience will love!
