

About the American Institute for Medical and Biological Engineering (AIMBE)

AIMBE's mission is to recognise and advocate excellence in the fields of medical and biological engineering to advance society. Since 1991, The College of Fellows has comprised the top two percent of medical and biological engineers. AIMBE Fellows are regularly recognised for their contributions in teaching, research, and innovation. AIMBE Fellows have been awarded the Nobel Prize, the Presidential Medal of Science and the Presidential Medal of Technology and Innovation, and many also are members of the US National Academy of Engineering, National Academy of Medicine, and the National Academy of Sciences.
