THE CHINESE UNIVERSITY OF HONG KONG

The emblem of the University is the mythical Chinese bird *feng* (鳳), which is chosen because of its symbolism as Bird of the South since the *Han* dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is '博文約禮' (*bo wen yue li*): '博文' is to broaden one's intellectual horizon; '約禮' is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects of Confucius* that the Master says, 'The superior man, extensively studying all learning, and keeping himself under the restraint of the rules of propriety, may thus likewise not overstep what is right.' (Legg's version of the *Four Books*)

In choosing '博文約禮' as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

Introduction

Incorporated in October 1963 under a Hong Kong Ordinance, The Chinese University of Hong Kong is a bilingual (Chinese and English) and bicultural institution of higher learning. Its objectives are to (i) assist in the preservation, dissemination, communication, and increase of knowledge; (ii) provide regular courses of instruction in the humanities, the sciences, and other branches of learning of a standard required and expected of a university of the highest standing; and (iii) stimulate the intellectual and cultural development of Hong Kong and thereby assist in promoting its economic and social welfare.

The University has its origin in three post-secondary colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956). In December 1976 a new ordinance was enacted, making important changes in the constitution governing the University and its constituent colleges. An ordinance for the fourth college was enacted in July 1986, and the new college — Shaw College — became operational in 1988.

The University is a self-governing corporation drawing its income mainly from grants made by the government, supplemented by fees and donations from private sources.

The governing and executive body of the University is the Council, which has the management and control of the affairs, purposes, and functions of the University. The Senate has the control and regulation of instruction, education, and research.

A wide range of full-time undergraduate programmes leading to the BA, BBA, BChiMed, BEd, BEng, BMedSc, MB ChB, BNurs, BPharm, BSc and BSSc degrees are offered by various departments under the faculties of arts, business administration, education, engineering, medicine, science, and social science. There are four part-time degree programmes leading to the degrees of BA, BEd and BNurs.

Postgraduate programmes leading to the degrees of DMus, EdD, PhD, MA, MAcc, MArch, MBA, MChiMed, MClinPharm, MDiv, MEd, MFA, MMid, MMus, MNurs, MPH, MPhil, MSc, MSSc, MSW, and to 10 diplomas are offered by the Graduate School through its 53 graduate divisions.

Since its inception, the University has adopted bilingualism and biculturalism as the basis of its teaching, giving equal emphasis to both Chinese and English languages and Eastern and Western cultures. The majority of the teaching staff are bilingual (Chinese and English) and have studied and/or taught in major

universities all over the world. The University is international in outlook and enjoys close association with many universities, foundations, and organizations abroad.

The total enrolment of the University as at 31st December 2000 was 14,161, of whom 9,259 were undergraduate students and 4,902 postgraduate students.

The University has 10 research institutes, under which are a number of research centres. They are the Institute of Chinese Studies, the Research Institute for the Humanities, the Asia-Pacific Institute of Business, the Hong Kong Institute of Educational Research, the Hong Kong Cancer Institute, the Institute of Chinese Medicine, the Institute of Science and Technology, the Institute of Mathematical Sciences, the Hong Kong Institute of Asia-Pacific Studies, and the Hong Kong Institute of Biotechnology, which has been incorporated as a limited company.

Extensions of the University include the School of Continuing Studies and the New Asia Yale-in-China Chinese Language Centre.

GENERAL INFORMATION

The University

Origin

The University has its origin in three post-secondary colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizeable proportion of their teachers and some of their students from mainland China.

In 1957, these three colleges came together to form the Chinese Colleges Joint Council with the objective of securing government recognition of their efforts in providing higher education for the young people of Hong Kong. In 1959, Mr. John S. Fulton (later Lord Fulton of Falmer) was invited to advise on the general lines of development for the three colleges as a whole. In 1960, the government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three colleges with a view to raising their academic standards.

In 1961, a University Preparatory Committee, chaired by Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings, and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the colleges on the development of university level courses in arts, science, commerce, and social science. The report of these advisers was encouraging, and in 1962 the government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university could be created from the three colleges.

The Report of the Fulton Commission, known as the *Fulton Report* and published in April 1963, recommended the establishment of a new university. Shortly after its publication, the *Report* was approved in principle by the government. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September of the same year. On 17th October 1963 the University was formally inaugurated.

The Ordinance

In November 1975, the Governor of Hong Kong, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent colleges. Lord Fulton of Falmer was again invited to serve as chairman of the commission.

The second *Fulton Report* was submitted to the Chancellor in March 1976 and published in May. The *Report* recommended important changes to the constitutional arrangements governing the University and the colleges. Under the new arrangements proposed by the commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of the curriculum, the conduct of examinations, and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the *Report* recommended that the University should strive to strike a balance between 'subject-orientated' teaching and small group 'student-orientated' teaching, and that the latter should be entrusted to the colleges. This 'student-orientated' teaching would be designed to build in the students habits and frames of mind required of experts in their chosen fields and to equip them with the necessary skills for meeting new challenges in a rapidly changing world. A new ordinance to give effect to the recommendations in the second *Fulton Report* was enacted in December 1976.

In 1986 the University received a generous donation from the Shaw Foundation (Hong Kong) Ltd. for the specific purpose of establishing a fourth college, Shaw College. The Ordinance and the Statutes were further revised to provide for its establishment, and it began admitting students in September 1988.

The Ordinance and the Statutes of the University incorporating the amendments over the years are printed in Part 7 of this *Calendar*.

Academic Structure and Policy

The Chinese University of Hong Kong is a growing university offering a wide range of full-time and part-time programmes which lead to bachelor's degrees, master's degrees, and doctorates.

There are seven faculties (arts, business administration, education, engineering, medicine, science, and social science) and 61 departments offering 52 major programmes and 35 minor programmes for full-time undergraduate students, and four part-time undergraduate programmes for part-time students.

Postgraduate programmes including 59 doctoral programmes, 113 master's programmes, and 10 diploma programmes are offered by the Graduate School through its 53 graduate divisions.

The Senate has control over instruction and research. The faculties advise the Senate through the faculty boards on the programmes of study recommended

by the departments, who are responsible for subject-orientated teaching. The colleges, in turn, are responsible for student-orientated teaching and the provision of residential accommodation. All teaching staff and full-time undergraduate students are assigned to different constituent colleges.

■ Undergraduate Studies

At its inception the University's undergraduate curriculum was based on a combination of the credit unit system and the degree examination system. After a comprehensive review in the mid-80s, the University decided to adopt a pure credit-unit-based curriculum structure. From 1991–92 onwards, greater flexibility was introduced into students' selection of courses and pace of study.

Full-time Undergraduate Studies
The University endeavours to provide a wide variety of major and minor programmes to meet the changing needs of society. In the last triennium 1998–2001, the University introduced nine major programmes — modern languages and intercultural studies under the Faculty of Arts, hotel management and quantitative finance under the Faculty of Business Administration, language education and mathematics education under the Faculty of Education, and Chinese medicine, materials science, molecular biotechnology, and risk management science under the Faculty of Science. Two minor programmes were also introduced: linguistics and intercultural studies under the Faculty of Arts, and information technology under the Faculty of Engineering. In 2001–2, three major programmes were introduced: innovation and design engineering, and internet engineering under the Faculty of Engineering; applied chemistry with management studies under the Faculty of Science; and a minor programme in electronic engineering launched under the Faculty of Engineering.

Part-time Undergraduate Studies
The Part-time Degree Programmes were first launched in 1981–82 with classes conducted in the evening. The four part-time degree programmes currently offered are music, physical education and sports science, post-registration nursing, and primary education.

■ Postgraduate Studies

Master's programmes were first offered in 1966–67, and the number of programmes has, in 2001–2, increased to 113. Doctoral programmes were first introduced in 1980–81, and the number of programmes has increased to 59 in 2001–2.

Research and Development

CUHK fosters quality research over a broad front in all its seven faculties. It offers opportunities for significant advances in human knowledge, and provides scope for academic staff to undertake consultancy and collaborative projects with industry. The University has also established 10 research institutes to provide faculty members with financial support and other facilities for research.

While encouraging both basic and applied research in all academic areas, the University also realizes that it is important to achieve excellence and world-wide impact. In addition to two 'Areas of Excellence' identified by the University Grants Committee for financial support — Information Technology and Plant and Fungal Biotechnology — the University has identified specific areas which possess world-class strengths academically and offer unique research opportunities. These areas include computer-assisted diagnosis, treatment and training in medicine, marine biotechnology, research in Chinese medicine, e-commerce technologies, educational development in Chinese societies, automation and robotics, research in nanostructured materials, and Hong Kong culture within national, regional, and international contexts.

About one quarter of the government's annual allocation to the University in the form of block grants goes directly or indirectly to research. The University also relies heavily on different external funding sources to support research activities. The Research Grants Council remains the major sponsor of research. In the 2001–2 exercise, CUHK staff secured some HK$96 million in the form of competitive grants. The high quality of research is also reflected in the many papers published in international and local referred journals.

Other major sources of funding are the Health Care and Promotion Fund, the Quality Education Fund, the Innovation and Technology Fund, and various private donations.

The University's Research Committee is one of the main bodies responsible for allocating internal funding for research. It is supported by seven subject panels, each consisting of up to 10 experienced researchers. In addition to the allocation of research funding, it is also charged with the responsibility of evaluating and recommending project proposals for external grant applications. The committee is supported by the Research and Technology Administration Office (RTAO).

The RTAO is the primary office responsible for research administration and technology transfer. All intellectual property rights are administered through RTAO unless and until assigned. The RTAO also has the responsibility to manage all technology licensing and contracts, in all subject areas.

Both the Research Committee and the RTAO report to a pro-vice-chancellor.

The recent years saw a rapid increase in technology transfer activities at the University. More and more technologies developed by CUHK have been successfully adopted by industries. For example, a Biometrics and Smartcard Security System was licensed to a local conglomerate in electronic industry in 2000 for further commerial exploitation. The company intends to incorporate the system into a secure electronic transaction platform for a wide range of

e-commerce activities.

As of May 2001, CUHK and its staff have secured 18 US patents and one European patent covering various fields in biotechnology, information technology, pharmaceuticals, medical technology, as well as materials science.

Finance

Funding from the Hong Kong SAR government is the main source of income and constitutes almost 70 per cent of the University's revenue for capital and recurrent expenses. At about 12 per cent of the total, tuition fee income is the next important source of revenue. In addition, the University and its constituent colleges have small endowment funds at their disposal and also receive financial support from private donors for research and other designated purposes. Total income for the year 2000-1 was HK$4.7 billion.

Negotiations between the University and the government are conducted by the University Grants Committee. This committee advises the government on the financial requirements of the University.

Lands and Buildings

The University campus, measuring approximately 134 hectares, is located on a tract of land under lease from the government north of Sha Tin New Town in the New Territories. It commands a scenic view of Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 140 metres above sea level and has been carved from a rocky promontory into a number of plateaux to provide the sites for buildings of the University and its four colleges, as well as blocks of staff residences.

In the last three decades, some 130 buildings, large or small, have been erected on this once barren hillside.

Buildings for central activities are located mainly at the mid-level. The expanse of land in the valley next to the University Station of the Kowloon-Canton Railway (East Rail) is the campus of Chung Chi College. At the highest level are United College and New Asia College while Shaw College occupies the northwest tip of the University campus.

Around the tree-lined University Mall and the University Square featuring a sculpture by Ju Ming and a Roman-style forum and fountain, the following buildings cluster: the University Administration Building; the University Library; the Tin Ka Ping Building (incorporating an extended section of the library and several research and academic exchange centres); the Institute of Chinese Studies and the Art Museum; the Sui-Loong Pao Building (housing offices of the Registry); the Pi Ch'iu Building (housing the Information Technology Services Centre); the Y.C. Liang Hall (a lecture hall complex); the Sir Run Run Shaw

Hall (an auditorium and performance hall); the Lady Shaw Building (for the science and engineering departments); the Ho Sin-Hang Engineering Building; Academic Building No. 1; the Science Centre Complex; the Choh-Ming Li Building for Basic Medical Sciences; and the Mong Man Wai Building (also for the science and engineering departments).

Other buildings around the central campus include the Benjamin Franklin Centre and John Fulton Centre (two amenities buildings with a swimming pool for staff and students) to the south; the Li Dak Sum Building, Fung King Hey Building, and Leung Kau Kui Building (housing academic facilities mainly for the arts and business administration departments) to the west; the Health Centre, the Yali Guest House, the Chan Kwan-tung Inter-University Hall and the Chiangs Building (a complex of guest house facilities) to the east. By the main entrance on Tai Po Road stands a Transport and Security Depot whilst blocks of staff quarters and postgraduate halls dot the hilly slopes to the north.

Descending towards the bay, one finds a student hostel for Chung Chi College, the Estates and Maintenance Building, the University Sports Centre, the Kwok Sports Building, and Postgraduate Hall No. 1, and on the waterfront, the Hong Kong Institute of Biotechnology complex and the Marine Science Laboratory.

Flanking the road to the University Station are the Shanghai Fraternity Association Research Services Centre, the Fong Shu Chuen Building and Fong Yun Wah Hall (housing a Chinese language centre), the Ho Tim Building (housing the Faculty of Education), Esther Lee Building, Lee Hysan Concert Hall (an auditorium hall), Chung Chi College Administration Building, the Hui Yeung Shing Building (housing the University Press and several departments of the Faculty of Arts), the Wong Foo Yuan Building, Chen Kou Bun Building, and Sino Building (housing several departments of the Faculty of Social Science).

The clinical departments of the Faculty of Medicine are housed in the Clinical Sciences Building and the Postgraduate Education Centre at the Prince of Wales Hospital, the regional hospital of Sha Tin, located about eight kilometres from the main campus.

Residential Accommodation

The University provides several types of accommodation for staff members, academic visitors, and students.

◼ Staff Housing

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are about 270 senior staff flats on campus in multi-storey apartment buildings, some 100 flats for single teachers and other staff, and several blocks of quarters for junior staff.

The Inter-University Hall provides fully-furnished and self-contained quarters for academic visitors coming to the University for a period of one to two years.

■ Guest Houses

The University operates several guest houses which provide room and board facilities for guests on short periods of stay in the University, including Yali Guest House, University Guest Houses I and II, the Chan Kwan-tung Inter-University Hall, and Chiangs Building, which together provide lodging for up to 180 visitors.

■ Student Hostels

The University and its constituent colleges operate a number of hostels for students who wish to live on campus.

Postgraduate Halls No. 1–6 provide some 1,000 places for graduate students. Chung Chi College has eight hostels: Ming Hua Tang, Wen Lin Tang, Ying Lin Tang, Hua Lien Tang, Theology Building, Madam S.H. Ho Hall, Wen Chih Tang, and Lee Shu Pui Hall, which together provide 1,084 places. At New Asia College, Chih Hsing Hall, Xuesi Hall, and Grace Tien Hall can accommodate 770 students. At United College, Adam Schall Residence, Bethlehem Hall, and Hang Seng Hall also have a combined capacity of 770. Kuo Mou Hall and Hostel II of Shaw College provide around 1,160 places.

With the exception of Postgraduate Halls No. 1–6 which have several hundred single rooms, most student hostels provide shared accommodation in the form of twin-bed rooms. There are also a small number of special rooms for married students without children. Telephone and computer network connections are provided for individual rooms.

The Faculty of Medicine operates the Madam S.H. Ho Hostel for medical students at the Prince of Wales Hospital in Sha Tin, the teaching hospital of the faculty, providing accommodation for 148 senior clinical students.

Detailed information on hostel fees is listed in Part 6 of this *Calendar*.

Liaison with the World of Learning

The University has since its inception in 1963 striven to enhance the cross-fertilization of Chinese and Western academic and cultural traditions. To this end, the University has over the years established and maintained relationships with a large number of institutions the world over, including universities, research institutes, centres of learning, governmental agencies, and in particular, regional and international associations of universities. It is also an active member of the Association of Commonwealth Universities, the Association of Southeast Asian Institutions of Higher Learning, the International Association of Universities, the European Association for International Education, the US Institute of International Education, and the Association of University Presidents of China (AUPC). The University has also been serving as one of the secretariat offices to AUPC since its founding in 1997.

■ International Links

The University's first exchange programme was launched in 1965 with the University of California system. Since then student exchange programmes have been established with nearly 70 institutions in other parts of the world. Apart from the UC system, exchange partners include Cornell University and the University of Pennsylvania in the USA, Sophia University and Kyushu University in Japan, Yonsei University in Korea, and the University of British Columbia and the University of Toronto in Canada. There are also exchange agreements with institutions in France, Spain, Denmark, the UK, Australia, and Switzerland. The University is also a member of the International Student Exchange Programme. All the above exchange programmes are supported and administered by the Office of Academic Links (OAL), which also runs a popular International Asian Studies Programme (IASP) that has already attracted over 2,200 students from 35 countries to study at CUHK since 1977. To add value to the learning experience and to promote inter-cultural exchange within the CUHK community, the OAL has also organized a variety of extracurricular activities for local and international students. These include monthly dinner talks, the 'Teaching in China' programme, and field trips.

The international character of the University has been significantly enhanced by foreign government contributions to a number of instructional programmes. In addition, staff exchanges and development programmes are maintained through agreements with respective governments and exchange organizations. Visiting lectureships have been provided by the governments of France, Germany, Italy, Spain, and Japan; many graduates of the University have also obtained fellowships for advanced studies in these and other countries.

The University has also benefited from the support of various foundations for staff development, research, scholarships, and exchange programmes with an international dimension. These foundations include the Lingnan Foundation, the Asia Foundation, the Yale-China Association, the Harvard-Yenching Institute,

the Henry Luce Foundation, the United Board for Christian Higher Education in Asia, the World Health Organization, the Fulbright Program, the Japan Foundation, and The Swedish Foundation for International Cooperation in Research and Higher Education (STINT).

The University's constituent colleges as well as other academic units have individually established links with universities abroad.

◼ China Links

The University has consistently developed academic links and research collaboration with educational and research institutions on the mainland and in Taiwan. Both the scope and the mode of exchange activities have expanded considerably over the years. Each year the University receives over 1,000 academic visitors from the mainland and Taiwan. At the same time, hundreds of faculty staff of the University conduct academic visits to institutions on the mainland and in Taiwan. Some of them also serve as honorary professors, advisers and consultants to various mainland institutions and government agencies.

Formal exchange agreements have been concluded by the University or its academic departments with various institutions, including the Academy of Military Medical Sciences, the Chinese Academy of Sciences, the Chinese Academy of Social Sciences, Chongqing University, College of Foreign Affairs, Fourth Military Medical University, Fudan University, Harbin University of Technology, Lanzhou University, Nanjing University, Peking University, Shanghai Jiaotong University, Sichuan University, Taiwan University, Sun Yat-sen University, Tianjin University, Tsinghua University, Wuhan University, Xian Jiaotong University, Zhejiang University, and Zhongshan University.

The University has established a number of multi-lateral, and cross-disciplinary research centres with its partners such as the Shanghai-Hong Kong Development Institute, the Brain Research Centre, the Joint Research Centre for Biomedical Engineering, the Epithelial Cell Biology Research Centre, the Joint Laboratory on Plant Biotechnology, the Joint Centre for Intelligence Engineering, the Joint Laboratory on Advanced Materials, the Joint Laboratory for Geoinformation Science, and the Hong Kong Base of Research, Development and Training of National Remote Sensing Centre of China. These centres play a very important role in promoting high standard scientific research and enhancing collaborative relationship among the partners. The University has also solicited support from business enterprises in Hong Kong to set up the Shanghai-Hong Kong-Anson Research Foundation for Molecular Biosciences.

The University is actively involved in providing training and consultancy services to governmental agencies and the business community on the mainland. Both regular and tailor-made courses are offered to meet the various needs of the organizations. In response to the rapid economic growth in China and the imminent need for high calibre business executives, the Uniersity has launched a joint MBA Programme in Finance in Beijing last year in cooperation with Tsinghua University. The programme will provide world-class business education and equip

the students with professional knowledge and skills in banking and finance. It also signifies the University's strong commitment to the development of higher education in China.

The University's Beijing Liaison Office, located in Nange of Peking University, provides logistics support to exchange activities conducted by University members and helps enhance cooperation with mainland institutions.

The Constituent Colleges

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the boards of trustees of the three original colleges, viz. Chung Chi College, New Asia College, and The United College of Hong Kong, were reconstituted. Each college board is mainly concerned with the management of the movable property and of certain college buildings entrusted to it, as well as the promotion of scholastic and cultural activities of the college.

Each college is governed by an assembly of fellows chaired by the college head, and this assembly is responsible for making and implementing decisions on various matters relating to the college.

In January 1986 the University received a generous donation of HK$100 million, and subsequently an additional gift of HK$10 million, from the Shaw Foundation (Hong Kong) Ltd. for the establishment of a fourth college in the University. The University Council subsequently decided that the new college be named 'Shaw College' and invited Sir Run Run Shaw to be its patron. To give legal effect to such a development, 'The Chinese University of Hong Kong (Declaration of Shaw College) Ordinance 1986' was enacted in July 1986. The new college admitted its first students in 1988.

Chung Chi College

Chung Chi College was founded in October 1951 by the representatives of Protestant churches in Hong Kong to meet the need for a local institution of higher learning that would be both Chinese and Christian. In 1955, it was formally incorporated under an ordinance of the government.

The college had a very modest beginning with borrowed and rented premises, first in the Cathedral Hall and St. Paul's Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from church organizations in North America and Britain. Local churches, firms,

and private individuals also gave considerable support. In 1956 the college moved to its permanent site in the Ma Liu Shui valley. Between 1959 and 1963 the college received the bulk of its funds from the government. In 1963 the college was incorporated as one of the three colleges of The Chinese University of Hong Kong.

The college set up a Theology Division for the training of Christian ministers, and later established its own Chaplaincy Office to promote religious activities which include Sunday worship services, and Christian fellowship programmes.

Academic and cultural activities are regularly organized for both staff and students of the college. They include seminars, college life luncheon talks, annual education conferences, the Siu Lien Ling Wong Visiting Fellows Programme, and various exchange and visitor programmes. Students are also encouraged to take part in extracurricular activities organized by the college student union, departmental societies, class societies, various interest groups, the non-residential hall student society, and student hostel associations. Various new endeavours, such as the student visitor programme, language enhancement programme, learning arts programme, Quality Activity Award Scheme, outward bound training programme and summer study abroad programme, are designed to provide students with more learning opportunities in the pursuit of a balanced education. A wide array of scholarships, financial aid schemes and awards are available to

encourage students to excel in their academic pursuits as well as to participate in college educational activities.

In 2000–1 Chung Chi College had a student population of 2,314, of whom 952 were male and 1,362 were female. While most of the students were born in Hong Kong, a few of them were overseas Chinese. About two-fifths of the students were Christians.

New Asia College

New Asia College was founded in 1949 by its former president, the late Dr. Ch'ien Mu, and a small group of scholars from mainland China. Their aim was to preserve traditional Chinese culture and to balance it with Western learning so that students might understand their cultural heritage and at the same time be capable of coping with the challenges of the modern world.

The college had a humble beginning but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which has been active in educational development in China for many years. It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, the Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, the Ford Foundation, and the Ming Yu Cultural Foundation. As a grant college from 1959 to 1963, and a constituent college of the University thereafter, it has received generous financial support from the government.

Scholarly visits and other cultural activities are arranged throughout the year under different programmes such as the Ch'ien Mu Lecture in History and Culture Programme, the New Asia Ming Yu Foundation Visiting Scholars Programme, the New Asia S.Y. Chung Visiting Fellows Programme, the New Asia David Lam Economist Exchange Programme, and the Y.S. Hui Exchange Programme in Fine Arts. Extracurricular activities form an important part of

student life in the college and are organized by the college student union and a host of student clubs and societies.

In 2000–1, New Asia College had a student population of 2,242, of whom 1,002 were male and 1,240 were female. Approximately 50 per cent of the student population received scholarships, bursaries or other forms of financial assistance.

United College

United College was founded in 1956 with the amalgamation of five post-secondary colleges: Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy. The five colleges decided to pool their resources to provide better higher education for local students. The United College of Hong Kong was subsequently incorporated under an ordinance of the government in 1957 with a board of trustees as its governing body.

In 1962, the membership of the board of trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected chairman of the board. In July 1962, the board appointed Mr. T.C. Cheng, then Chief Assistant Secretary for Chinese Affairs in the government, as president of the college. Dr. Cheng assumed office in January 1963. In October 1963, United College became a constituent college of The Chinese University of Hong Kong.

In March 1971, foundation stones were laid for the five new buildings of the college on the University campus in Sha Tin. In December, the college moved from Bonham Road on Hong Kong Island to its present site on the University campus.

Dr. the Hon. P.C. Woo succeeded Sir Kenneth as the chairman of the college board in May 1972, a position he had to resign from in November 1983 when he was appointed a member of the University Council. He was succeeded by Sir

Run Run Shaw as chairman. In December 1988, Dr. Woo was made a permanent member of the board. Sir Run Run was elected honorary chairman and permanent member of the board in December 1991, and was succeeded by Dr. Ho Tim as chairman. Dr. Ho Tim retired from this position in June 1995, and is now a permanent member of the board. The current elected chairman is Mr. Shum Choisang.

An endowment fund was established in 1973 under the direction of the board of trustees. It provides essential financial support to many projects and schemes organized by the college, benefiting both students and staff members.

The student union of the college was first inaugurated in 1963 as a statutory body to represent the interests of the students of the college and provide them with various services. With financial support from the University and the endowment fund of the college, a wide range of extracurricular activities and intellectual exchange projects are organized every year.

In 2000–1, a total of 2,237 students were assigned to United College, of whom 943 were male and 1,294 were female.

Shaw College

Named after its patron, Shaw College was made possible by the generosity of Sir Run Run Shaw, chairman of the Shaw Foundation (Hong Kong) Ltd., which donated HK$110 million to the University for the founding of its fourth constituent college.

An ordinance which gave legal effect to this new development in the University was passed by the Legislative Council in July 1986, and became law on 1st August of the same year. A Board of Trustees of Shaw College then came into being and helped chart the course of the college's development in collaboration with a planning committee appointed by the University Council. Chaired by the former vice-chancellor, Prof. Ma Lin, the planning committee was in turn advised by Dr. Lee Quo-wei, Dr. T.K. Ann, Mr. H.J. Shen, and Mr. Louis Page.

The foundation stones for the first four buildings of the college were laid on 12th January 1987 by Sir David Akers-Jones, then Acting Governor of Hong Kong, and Sir Run Run Shaw, patron of the college. In June 1987 the college set up its temporary offices in the Chung Chi Teaching Block near the University KCR Station. In September 1989 the first student hostel (which can accommodate 584 students) was completed. In October 1989, the administration building, Wen Lan Tang, and the visiting scholars units cum staff quarters, Ya Qun Lodge, were also opened for administrative staff, teachers, and students of the college. A lecture theatre with a seating capacity of 537 was completed towards the end of 1991. A second student hostel, with 289 places, was completed in the summer of 1992.

On 2nd March 1990, Shaw College was officially opened by Sir David Wilson, Governor of Hong Kong and Chancellor of the University, and the patron of Shaw College, Sir Run Run Shaw.

Since the formal establishment of the assembly of fellows in June 1987, numerous academic and cultural activities have been planned and organized. They include monthly dinner lectures and visits by Sir Run Run Shaw Distinguished Visiting Scholars.

Extracurricular activities form an important part of student life in Shaw College. The first student union was formed in April 1990, and various activities have been organized by different clubs and societies.

In 2000–1, Shaw College had a student population of 2,210, of whom 1,005 were male and 1,205 were female. The first batch of students graduated in mid-June 1990, and an alumni association was formed soon afterwards.

The Institute of Chinese Studies was established in 1967 on the basis of a broad conception of Chinese studies. Its activities include what is traditionally identified as Sinology, but emphasize the application of scientific methodology, characterized by quantitative and comparative approaches, and the use of experimental methods where appropriate; contemporary Chinese studies have also been included.

The objectives of the institute are to promote Chinese studies by serving as an international centre for communication and cooperation with other academic and research institutions and scholars in the field; to provide local and visiting academic members of the University with funding and research facilities; to promote the exchange of knowledge and experience in Chinese studies through publications, conferences, and research seminars; and to foster the growth of modern Chinese culture.

Under the Institute of Chinese Studies are the Art Museum, the Centre for Chinese Archaeology and Art, The Ng Tor-tai Chinese Language Research Centre, the Research Centre for Translation, and the Research Centre for Contemporary Chinese Culture, each of which maintains its own academic programme and publication activities. The institute publishes four periodicals — *Journal of*

Chinese Studies, *Renditions*, *Chinese Language Newsletter*, and *Twenty-First Century*, and maintains a long-term project to construct a comprehensive database of CHinese ANcient Texts (the CHANT Database). The reference reading room of the institute contains 34,500 volumes of books and 320 periodicals.

The Art Museum, established in 1971 as the Art Gallery, serves as a university museum and a research centre for Chinese art and antiquities. Along with semi-permanent displays of its collection, the museum mounts special exhibitions and organizes lectures and symposia to promote the appreciation and understanding of Chinese art.

The museum collection consists of over 8,000 pieces of Chinese art from the Neolithic to modern periods, including painting and calligraphy, rubbings of ancient calligraphy, seals, ceramics, jades, bronzes, lacquerwares, and objects for the scholar's studio. Notable among them are archaic seals, calligraphic rubbings, painting and calligraphy by Guangdong artists, and trade ceramics from kilns of southern China.

The Art Museum publishes fully illustrated catalogues of special exhibitions and monographs of its collection.

The Annex provides technical support for the museum. This includes the conservation of works of art, the mounting of Chinese painting, woodwork, photographic and graphic design services.

The Friends of the Art Museum was founded in 1981 to support the Art Museum and to promote its activities. Membership is open to the public.

The centre was established in 1978 to undertake research in Chinese archaeology and art. The purpose was to pool the resources of the Art Museum and the departments of history, fine arts, and anthropology to promote research cooperation with museums and universities in mainland China and abroad. Recently the centre has shifted the emphasis to field archaeology, and its field work team has become active in local excavations as well as collaborative projects with research institutes on the mainland and in southeast Asia. The centre has published several series of monographs and books on specialized subjects.

Established in August 1991, the Research Institute for the Humanities has three main objectives: to encourage and coordinate collective, especially inter-disciplinary, research in the humanities at the University; to identify areas suited to long-term strategic research; and to organize regional and international conferences on the humanities.

Currently, all research projects at the institute are grouped under three research centres: Centre for Comparative City Cultures, Centre for Cross-cultural Studies, and Centre for the Research and Development of Cyberculture. It is hoped that all research projects funded by RGC/UGC and other sources be housed under the institute, which will in turn provide clerical and logistic support, serve as an information clearing house, and organize events such as small workshops, lectures, brain-storming sessions for possible research topics.

To facilitate research, the institute has maintained a website where e-texts and e-libraries pertaining to the humanities can be found.

The institute is primarily supported by private funds and external research grants. Its activities are governed by a management board comprising senior members of the University.

Activities include the analysis of the structure and properties of advanced materials, the development of applications for new materials, and the synthesis and processing of new materials to serve the needs of local industries.

To accomplish such tasks, a tandem accelerator worth HK$8 million was installed in March 1997 for ion beam analysis — Rutherford back-scattering spectroscopy, ion channelling, nuclear reaction analysis, particle-induced X-ray emission, elastic recoil detection, MeV ion implantation, and ion beam mixing for the modification of materials. This facility is the only one of its type in Hong Kong and southern China. The research centre is staffed by faculty members of the departments of physics, chemistry, mechanical and automation engineering, and electronic engineering, whose research interests cover elemental and compound semiconductors, exotic ceramics, and metal alloys. Particular emphasis is placed on studies of the properties of many materials and their processing in various forms — single crystal, heteroepitaxial, microcrystalline, amorphous, and porous.

Institute of Mathematical Sciences

Tel.: 2609 8038
Fax.: 2603 7636
E-mail: ims@ims.cuhk.edu.hk

The mathematical sciences are in a period of unprecedented growth. Sophisticated mathematical and computational tools are rapidly bridging the gap between abstract theory and applications in science, engineering and other disciplines. The University thus set up the Institute of Mathematical Sciences in 1993 to promote research in relevant fields — pure and applied mathematics, large scale scientific computation, nonlinear sciences, image processing, mathematical and theoretical physics, statistics, and probability. Emphasis is on their interaction and linkage with the physical sciences, engineering, industry, and commerce. The institute's major research projects are led by senior academics in the institute and the departments of mathematics, physics, and statistics.

The institute also organizes international mathematical conferences to promote academic exchange. The institute's objectives are to promote and stimulate research in new frontiers, train and nurture young scientists, attract grants and contracts from governmental organizations and the private sector, and develop into a centre of excellence.

The institute now offers postgraduate study programmes for both master and doctoral degrees. It also runs a postdoctoral fellowship programme and a short-term visitor programme. The institute regularly organizes postgraduate courses, academic colloquia and workshops, and lecture series by academic visitors. It also publishes a series of research reports, and runs three international research journals.

Activities in the pipeline include yearly programmes in geometrical analysis; nonlinear evolution partial differential equations and computational fluid dynamics; numerical and theoretical analysis of inverse problems; harmonic functions, fractals and wavelets. The institute also plans to strengthen collaboration with institutions on the mainland and abroad, and to lead research in the region.

Established in 1990, the Hong Kong Institute of Asia-Pacific Studies replaces the former Institute of Social Studies and its two research centres — the Centre for Hong Kong Studies and the Centre for Contemporary Asian Studies, and aspires to become a research and academic centre of excellence in the interrelated study of Hong Kong, mainland China, and the Asia-Pacific region.

With its focus on social science research, the institute plans strategic research programmes on the Hong Kong and Asia-Pacific economies as they develop in the 1990s and beyond. Topics include economic competitiveness and cooperation, reform and development of China, cultural relations and identities in East Asia, urban and regional development in the Asia-Pacific, gender in a changing world, the political development of Hong Kong, social indicators and the social development of Hong Kong. A collaborative research programme on southern China, Hong Kong and Taiwan has also been established with Yale University's Council of East Asian Studies. There is a strong policy orientation in all the research programmes being undertaken.

To support its research activities, the institute has been building up a data bank on Hong Kong, mainland China and the Asia-Pacific countries. Significant contribution in this respect has come from the Universities Service Centre, which is an important support centre for scholars in China studies. The affiliation of the acclaimed Universities Service Centre with the institute has greatly strengthened the documentation resources of the latter.

Another important task of the institute is to promote academic exchange, host conferences, receive visiting researchers, and publish research findings.

The Centre for the Advancement of E-commerce Technologies (AECT) is a cross-disciplinary centre established by the Faculty of Engineering in November 1999, in collaboration with Oracle, Sun Microsystems, and other industrial partners.

The mission of AECT is to foster excellence in the development of knowledge and tools to facilitate commerce on the web, and more broadly, to support operational decisions and Internet business strategies in an information-intensive and technology-based economy. AECT conducts basic and applied research in three broad areas of technology: Internet and information systems technologies, enterprise solution technologies, and emerging e-commerce-centred technologies.

A major focus of AECT is to develop a select set of 'E-commerce Pilots' — local firms (including those in manufacturing, banking, retail, and other service sectors) that are committed to adopting e-commerce technologies and setting up business operations on the Internet. Through its faculty, students, and other professionals, AECT will assist the pilots in training, business re-engineering, and system deployment. In addition, AECT will organize workshops and certificate programmes for a broader range of firms to help professionals acquire

the relevant skills in e-commerce.

A new cross-disciplinary MSc Programme in E-commerce was launched by the University in the fall of 2000. AECT's pilot and training programmes will provide real-world projects to enrich the educational experience of students in the programme.

The research facility, originally called the Comparative Literature Research Unit, was founded in 1979 with the intention of fostering inter-cultural exchanges through the medium of comparative literature studies. From the beginning, this programme has taken a Chinese perspective to complement the work of other comparatists through collaborative scholarly efforts. The programme's activities dovetail exceptionally well with the stated aims of the University in its dedication to 'both traditional Chinese scholarship and modern Western scholarship, and to the synthesis of the two'. To this end, the programme wishes to establish contacts with comparatists from all over the world in order to focus attention on areas of

mutual interest.

Apart from engaging in research, the programme devotes its energies to four other general areas: publications, conferences, building a materials resource centre, and conducting ongoing projects related to casebooks on comparative literature studies. A journal under the title *Chinese-International Comparative Literature Bulletin* was introduced in 1990. Directories of scholars throughout the world interested in promoting Chinese-Western comparative literature studies and their activities have been compiled, thus keeping comparatists updated on what is going on in the field. In 1996, the bulletin was renamed *Comparative Literature & Culture*.

The University's School of Continuing Studies (SCS) was established in 1965 under the former name of the Department of Extramural Studies. It has been providing quality continuing education programmes and services to meet the changing needs of society. In 2000–1, more than 2,500 courses were offered with a total enrolment of over 3,000. The SCS offers general short courses and award bearing programmes at the postgraduate, degree, diploma, and certificate levels.

General short courses normally last for three to four months for each term and are usually self-enrichment programmes for adults with no specific admission requirements. They are offered three times a year in spring, summer, and autumn and cover various subjects such as art and culture, business administration, computer and information technology, disciplinary forces and policing/security studies, employment schema course series, health care, languages, the performing arts, the social sciences, women studies, and distance learning courses. Diploma and certificate programmes have been offered since 1979. These are designed in accordance with guidelines and standards set by the University. To optimize resource use and cost-effectiveness, the SCS collaborates with the academic departments at the University as well as other institutions and professional organizations to organize or administer these professional programmes.

Since 1988, the SCS has diversified its services to include the running of bachelor and postgraduate programmes in Hong Kong jointly with overseas universities. These programmes include a Master in Applied Science in Biopharmaceuticals with the University of New South Wales (Australia); a Bachelor Degree Programme of Professional Studies in Policing/Civil Care and Security, a Master Degree Programme and Graduate Diploma Programme in Health Management, a Master Degree Programme as well as a Graduate Diploma Programme in Health Science (Gerontology), and a Master of Administrative

Leadership Programme with the University of New England (Australia); a Bachelor Degree of Business Systems Support (Computing) with the Victoria University of Technology (Australia); a Master Degree Programme in Teaching English to Speakers of Other Languages with Lancaster University (UK); a Master of Arts Programme in (Managerial) Economics with the University of Oklahoma (USA); and a Master of Science Programme in Professional Communication/ Concentration in Conflict Management with the University of Clark (USA).

In order to cope with the increasing need for practical and professional programmes, SCS has recently been developing many new diploma and certificate programmes, such as the Diploma in Telecommunication Technology and Management, Graduate Diploma/Diploma in Nutrition Education for Early Childhood Personnel, Certificate in Kindergarten Teaching, Diploma/Certificate in Fine Arts, Diploma in Teaching English as a Second Language, Diploma/ Certificate Series in Disciplinary, Forces and Security, Certificate in Professional Accountancy, Certificate Programme in China Accounting, Finance, Taxation and Law, Professional Diploma and Certificate in Marketing, Preparatory Courses for IBA Diploma in Business Administration, and Certificate in Basic Theologies of Traditional Chinese Medicine and Western Medicine. In 2000, SCS participated in the Project Springboard of the Education and Manpower Bureau to provide language courses to Form 5 students.

To address the burgeoning use of computers and technology in society, SCS has designed a wide variety of computer courses, from beginner's computer literacy courses to award bearing programmes. A new series of e-commerce courses are being developed to meet the needs of business people who wish to understand information technology in order to help participants master the 21st century business environment.

SCS also offers in-house training for government departments, commercial and voluntary organizations. Training courses include English, putonghua, Chinese language and literature, computer and information technology, secretarial studies, economics, management, accounting and law, and many other areas related to the training needs of employees.

For development and academic affairs relating to sub-degree programmes, the SCS is under the supervision of the Senate Committee on Continuing Studies. There is also an Advisory Board of Continuing Studies comprising renowned figures from the business sector and senior staff of the University, who give advice on the development of the School.

The head office of the SCS is located at the Inter-University Hall on campus. Its enrolment centre is on the 13th floor of Oriental Centre, 67 Chatham Road South, Tsimshatsui, Kowloon, and classrooms are found on the 5th, 8th, 13th, 14th and 17th floors of the same building. The New Asia Yale-in-China Chinese Language Centre offers two types of programmes in both putonghua and Cantonese. One is designed primarily for non-native speakers of Chinese, the other to improve the Chinese language proficiency of local students at CUHK. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the centre became a part of the University in 1974.

Every year over 1,000 students from different parts of the world are admitted to the language centre, ranging from absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a new Chinese dialect. Courses are offered at all levels so that students can find training suited to their needs and ability. The language centre also teaches putonghua regularly to thousands of Cantonese-speaking students of the University, and Cantonese to regularly admitted putonghua-speaking undergraduates from mainland China. In addition, it cooperates with University units in a range of language activities, such as with the Faculty of Education in a special putonghua course for secondary school teachers. Teachers of the language centre prepare a significant portion of their teaching material and audio-visual aids.

The centre operates on a three-term system, with the first and second terms lasting approximately 15 weeks each, and the summer term, 10 weeks. Students may register for admission to any term. Beginners' courses are offered every term. The full-time programme of 15 sessions of classroom instruction per week constitutes the maximum course load. The maximum class size is eight students. In exceptional cases, private tutorials and part-time classes are available.

The centre has a full complement of tapes for teaching purposes. Language laboratory facilities with computers are also available.

The centre gives credits according to the American system and issues grades and transcripts. Courses taken at the centre have been recognized by major universities for degree credit. For students from institutions not using the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

An information brochure is obtainable upon request. All correspondence should be addressed to the New Asia Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong.

SUPPORT FACILITIES, SERVICES AND STAFF ORGANIZATIONS

Support Facilities, Services, and Staff Organizations

The Library System

The University Library System coordinates the collections and services of the University Library and the branch libraries — the Elisabeth Luce Moore Library of Chung Chi College, the Ch'ien Mu Library of New Asia College, the Wu Chung Library of United College, the Li Ping Medical Library at the teaching hospital complex in Sha Tin, and the Architecture Library. Excluding the Medical Library, they can accommodate a total of more than 2,200 readers. The holdings of the Library System as at 31st December 2000 exceeded 1,540,000 items. The entire collection of the Library System comprises approximately 620,000 volumes of books and bound journals in East Asian languages and 920,000 volumes in Western languages. There are more than 30,000 serial titles, including 10,225 active print and electronic subscriptions. Students can borrow books and journals from any library and search items in the Online Public Catalogue of the University Library System.

The University Library houses extensive collections in science, engineering, social science and business administration, and each of the branch libraries at the colleges has some unique features. The Elisabeth Luce Moore Library holds strong collections in education, music, and religious studies. The Ch'ien Mu Library houses good collections in Chinese literature, fine arts, and philosophy. The Wu Chung Library is a multimedia library. Also located in the Wu Chung Library is the American Studies Resource Library whose nucleus is an interdisciplinary resource donated by the USIS American Library and a donated William Faulkner Collection. Medical collections are housed in two different locations — pre-clinical materials in the University Library and clinical materials in the Li Ping Medical Library. The Architecture Library collection covers subjects in the buildings industry and environmental sciences.

In addition, the University Library System has extensive collections of multimedia materials, microfilms, more than 14,000 titles of full-text electronic journals and hundreds of electronic databases. Most of the electronic resources are networked and can be accessed on the World Wide Web or the Library CD-ROM network (CDLAN) via the Campus Network.

Services offered by the Library System include circulation, reserve books,

inter-library loan, reference enquiry, instruction services and multimedia services. Library orientation sessions are organized for new students at the beginning of each academic year. Workshops on the use of different library resources are held from time to time. Information guides are available at the Library Homepage (website: http://www.lib.cuhk.edu.hk). *Library Newsletters* are also distributed to users via e-mails.

Universities Service Centre

The Universities Service Centre provides a comprehensive, user-friendly collection of original source materials on contemporary China for scholars all over the world. The centre's library on post-1949 China is incomparable in its coverage: complete runs from the early 1950s up to the present of most of China's provincial and national newspapers; a collection of provincial yearbooks; many hundreds of county gazetteers; and a judiciously chosen collection of the most valuable books available on the mainland, many of which are unavailable elsewhere in the world. Currently the centre subscribes to 2,000 journals and magazines in Chinese and over 80 in English, and to more than 400 Chinese newspapers.

The Universities Service Centre is committed to serving scholars in contemporary China studies everywhere. Overseas researchers at or above the graduate level are eligible to use the centre free of charge. Faculty of local tertiary institutions as well as local students enrolled in China-related courses can also have access to its collection. The centre also organizes luncheon seminars on China studies.

The Chinese University Press

The University started its publishing activities in 1967. After a decade of experience in this field, the University established The Chinese University Press in 1977. Over 900 titles in English or Chinese have since been published, covering various subjects, but mostly Chinese culture and China studies. These publications are widely distributed in Asia, North America, Europe, and Australia.

Since 1988 the Press has also published general books in addition to academic publications. Last year the Press published over 40 academic and general titles, including books in special series such as the Hong Kong Centre for Economic Research Series, and the Institute of Chinese Studies Series. In addition, the Press published and distributed nine academic journals.

In April 1991, the Press began producing audio and video tapes on educational and commercial subjects, including language skills, management for business executives, and clinical education in various medical disciplines. To date, over 80 audio-visual programmes have been published. The Press also produces audio-visual programmes for other organizations on a contract basis.

The Press has good connections with many university presses and academic

institutions and societies in Hong Kong and overseas. It has co-published books with other publishers and institutions, such as St. Martins, the SOAS of the University of London, and the university presses of Columbia, Harvard, Oxford, Princeton, and Washington. It has also entered into joint publication arrangements with commercial publishers in the US, the UK, mainland China, Taiwan, South Korea, Australia, Japan, and Sweden.

The Chinese University Press is a founding director of the Hong Kong Publishing Federation Ltd. and a member of the Association for Asian Studies, the International Association of Scholarly Publishers, and the Society for Scholarly Publishing. It is also an international member of the Association of American University Presses.

Information Technology Services Centre

The Information Technology Services Centre (ITSC) (website: http://www.cuhk. edu.hk/itsc) offers a variety of services to support academic development, research, and administration. Its service arm does not stop at technical support and application or project development, but stretches to areas like system recommendation, acquisition, installation and subsequent maintenance.

Key Services
The ITSC provides seven key services to users:
- basic computer resources;
- programming consultation;
- training seminars and user documentation on the use of computer systems and application packages;
- microcomputer application support, technology transfer, office automation and research;
- workstation support including advice on hardware selection and subsequent installation, user training, ongoing consultation and system administration;
- evaluation, selection, and installation of network equipment; the monitoring of networking activities between the University and the rest of the world; and
- development and maintenance of management information systems for the University administration.

Computing Resources for Research, Teaching, Learning, and Administration
To provide efficient services, the ITSC has multiplexed its computer facilities, which include
- two high performance computing systems for research computing: a 24-CPU SGI Origin 2000 supercomputer and a 10-CPU SUN Enterprise 6500 supercomputer. The former is a server for numerically intensive computing while the latter serves data-intensive computing.
- two UNIX servers which provide data library service, third-party commercial software packages, general UNIX applications, and Internet applications to

support the teaching and instructional needs of the University.
- a large pool of PCs and Macintoshes netted in a Novell Local Area Network facilitate PC software application/development and furnish access points to other supercomputers, minicomputers, workstation servers, and campus network applications. These personal computers are located at the User Area on 1/F, Pi Ch'iu Building, and Room 103 of Wong Foo Yuan Building.
- several IBM AS/400 machines and UNIX machines that support the development and running of management information systems of the University administration.

The ITSC provides a wide variety of services and resources for staff and students to promote the effective use of information technology in teaching and learning. They include resources and support for online teaching and learning; new means for the delivery of instruction; training for teaching staff to acquire new technologies and skills for teaching; consultation and support for designing instructional materials and media production.

The ITSC is also equipped with several special-purpose laboratories that are furnished with high-tech facilities for multi-media applications and courseware development, optical mark scanning, colour printing, text/image scanning, and user self-paced learning.

Campus Backbone Network

The campus backbone network was first set up in 1992. Over the last few years, the backbone technology has been upgraded gradually from FDDI (Fibre Distributed Data Interface) to ATM (Asynchronous Transfer Mode), and from ATM to Gigabit Ethernet. Connections between switches can therefore be made at 155Mbps or up to 1,000Mbps. The network is also a member of the Hong Kong Academic and Research Network (HARNET), a wide area ATM network linking the campus networks of eight tertiary institutions in Hong Kong.

All the computer systems for research and academic purposes are connected by this advanced campus backbone network so that they are accessible to users in various departments, colleges, student hostels, libraries, classrooms, public areas, and at home. In recent years, the campus backbone network has been further extended. Through the available connection outlets, staff and students can now log into the campus network using either their notebook computers or the built-in computers.

The ITSC also plays an important role in the development of Internet services in Hong Kong as it
- operates the Hong Kong Internet eXchange (HKIX), which acts as a neutral interconnection point for the routing of intra-Hong Kong and intra-Asia-Pacific Internet traffic, and this eliminates the need to send local information overseas before being routed back to Hong Kong and provides faster and less expensive paths to local sites;
- maintains a list of WWW servers in Hong Kong; and
- exchanges thousands of USENET newsgroups with many ISPs.

Services for Students and Student Activities

The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The services provided fall mainly into the following six areas:

Career Planning and Development The office is a centre for career development and employment information. It is responsible for initiating and developing job opportunities for graduates of the University, helping employers in recruiting the University's graduates, providing full-time and part-time job information, organizing summer internships, conducting individual/group counselling and career guidance programmes. It also administers guidance services to students who intend to further their studies after graduation.

Student Counselling and Development The office provides individual counselling for students having psychological, interpersonal and other adjustment difficulties. It organizes group programmes aimed at enhancing students' personal development and mental health. It also provides consultation to teachers, allied professionals, and student bodies on matters pertaining to psychological service and mental health. In addition, it conducts research on students' mental health and psychological needs.

Statistics, Research and Publication The office undertakes research and statistical work related to the career development of graduates and the general characteristics and needs of students. It also coordinates the editing and production of all publications of the office, such as *University Marketplace*, *Employment Survey*, *First-year Student Survey*, and *Office of Student Affairs Brochure*.

Counselling on social, interpersonal, financial as well as academic problems is also provided by the dean of students' office at each college. These offices administer college scholarship and bursary awards and also play a vital role in the enrichment of college life. In close cooperation and collaboration with the college student unions and their affiliated societies, the dean of students' offices also oversee the running of college-wide student activities.

At present, there are five student unions in the University, one for each of the colleges and one for the University as a whole. The latter maintains close links with the college unions.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff, and their dependents. A comprehensive primary care service has been developed to handle the medical and dental problems of users.

The Health Centre is open from 9.00 a.m. to 5.00 p.m. Monday through Friday and from 9.00 a.m. to 12.30 p.m. on Saturday. Services include

Sports Facilities

Sports facilities on campus include two sports fields, three gymnasiums, a swimming pool, 14 tennis courts, eight squash courts, four weight training rooms, and a water sports centre.

The sports fields are built with covered spectator stands on the lowlands facing the sea. The Haddon-Cave Sports Field (with a seating capacity of 2,800 and flood-light facilities) comprises a 400-metre all-weather track, a soccer pitch and an archery practice field. The Lingnan Stadium Sports Field provides a 400-metre track, a soccer pitch, a basketball court, a handball court and a volleyball court. Each of the three indoor gymnasiums (New Asia, United, and University) houses badminton courts, basketball/volleyball courts, and dance studios/table-tennis rooms. There are six squash courts in the Kwok Sports Building beside the University Sports Centre. The multi-purpose hall on the Chung Chi campus provides similar facilities on a slightly smaller scale. On the Shaw College campus, there are two indoor squash courts and a basketball/table-tennis exercises room. Adjacent to the Benjamin Franklin Centre, which is a staff-student amenities building, is an outdoor 50-metre swimming pool. The Water Sports Centre is located on the Tolo Harbour shoreline.

The Sir Run Run Shaw Hall

With a seating capacity of 1,438, the Sir Run Run Shaw Hall is a well-equipped auditorium suitable for holding ceremonies, assemblies, meetings, lectures and exhibitions, and for staging concerts, plays and film shows. The hall also utilizes its Cultural Activities Fund to present and sponsor high-quality stage performances

and film shows, as well as to organize activities such as talks and workshops related to the performing arts.

Information and Public Relations Services

The Information and Public Relations Office of the University Secretariat is mainly responsible for providing information and public relations services both internally and externally.

It liaises closely with the media through its functions including answering press enquiries, organizing press conferences, press interviews and media gatherings, and issuing press releases regularly on University news and developments.

The office handles both internal and external enquiries, informs the University community about campus activities through the publication of *Campus Events*, and helps update information about the University for local and overseas publications.

It is also responsible for organizing official functions such as degree congregations, public lectures, seminars, agreement signing and presentation ceremonies.

It plays host to local and overseas visitors and produces promotional materials introducing the University to visitors.

University Publications

The Publication Office (website: http://www.cuhk.edu.hk/puo) of the University Secretariat produces official publications that provide different types of information about the University. Most of these publications have both printed and electronic versions.

The Chinese University of Hong Kong Calendar (website: http://www.cuhk.edu.hk/puo/calendar/index.htm), published in Chinese and English in autumn each year, is a university catalogue with information about the history, organization, facilities, regulations, and academic programmes of the University. Copies are on sale at The Chinese University Press and the University Bookshop.

Staff Association of The Chinese University of Hong Kong

The Staff Association of The Chinese University of Hong Kong (CUSA) is a trade union registered with the government. Its membership is open to all full-time non-teaching staff employed by the University under Terms of Services (A), (B) and (C), irrespective of race, sex, religion and rank. Founded in 1981, the association has the following objectives:
• to obtain and maintain just conditions of employment;
• to protect the interest of its members;
• to strengthen relations with the University authorities on the basis of mutual respect and understanding;
• to promote the cultural, social, educational, and recreational well-being of its members.

CUSA aims to keep its members informed of the welfare and benefits offered in institutions funded by the University Grants Committee, and negotiate or consult on behalf of its members with the University authorities on all matters of common interest.

The executive body which governs the association is its executive committee, whose members are elected biennially by secret ballot during alternate annual general meetings.

There are also eight standing sub-committees and other *ad hoc* sub-

committees or working groups that are appointed from time to time to advise the executive committee on matters relating to members' general benefits.

Each year social activities are organized to provide opportunities for members working in different departments and units in the University to acquaint themselves with one another.

In June 1999 CUSA joined the Federation of Hong Kong Higher Education Staff Associations as a full member, with two representatives participating as the federation's council members.

Teachers' Association of The Chinese University of Hong Kong

The Teachers' Association of The Chinese University of Hong Kong (CUTA) was established in 1974 and was registered with the Hong Kong Government in 1988 as a trade union. Its membership is open to all full-time teaching staff employed by the University. The main objectives of the association are

- to safeguard and promote the professional rights and interests as well as the welfare of CUTA members;
- to represent and express members' views on University affairs, and to work for the development and betterment of the University;
- to adopt an amicable, collaborative, and negotiative approach to resolving disputes among members, between members and other University employees, and between members and the University authorities.

Major decisions are made at the association's general meetings. The council of the association (hereafter referred to as 'the council') becomes the highest decision-making and supervising body during intervals between general meetings. Its 24 members are elected from among and by the voting members through secret ballot on a faculty basis. The president of the council, elected from among and by the council members, represents the association in all its external relations and affairs, and is the *ex officio* chairman of both the general meeting and the council. The executive committee, whose members are elected from among and by the council members through secret ballot, is responsible to the council and implements the council's policies.

Since its inception, CUTA has been working towards improving communication between the University authorities and CUTA members, and helping to establish effective mechanisms in the areas of staff recruitment, substantiation, promotion, and retirement. Through the Joint Consultative Committee — which consists of representatives from CUTA and CUSA (The Staff Association of The Chinese University of Hong Kong), a University pro-vice-chancellor, the University Secretary, the University Bursar, and one of the heads of the four colleges — many problems of concern and interest to the University and its employees have been resolved satisfactorily.

A student who satisfies the conditions for graduation shall be awarded a bachelor's degree with one of the following classifications: First Class Honours, Second Class Honours Upper Division, Second Class Honours Lower Division, Third Class Honours, and Pass. Degree classification is based on the grade point averages of major and other courses, and the results of the comprehensive examination or its equivalent. However, the degrees of MB ChB are awarded on the basis of professional examinations taken at the end of the second to the fifth medical years.

Curriculum Structure

The normal length of study for a full-time programme is three to four years with the exception of medical studies and some professional programmes which have prescribed otherwise. The curriculum (excluding the MB ChB Programme, the Intercalated Degree Programme in Medical Sciences, and the Pre-registration Nursing Programme) is based on a credit unit system.

For graduation, a Secondary 6 and a Secondary 7 entrant* shall successfully complete at least 123 and 99 units of courses respectively which include:
(a) General Education (15 units);
(b) Physical Education (two units);
(c) normally up to 72 required units of major courses;
(d) remaining units in minor and/or elective courses of the student's choice.

If a graduation thesis/project is prescribed by their major programmes, students need to take and pass it.

Starting from 1997–98, all students in their first year of attendance are required to complete an Intensive Programme in Putonghua, Cantonese and English which is non-credit-bearing, but the examination results of which will be recorded on academic reports and transcripts.

Starting from 1999–2000, all newly-admitted students are required to achieve a certain level of competence in IT. They are expected to pass the IT proficiency test within their first year of attendance. If they pass, 'IT Proficiency Passed' will be recorded on the transcripts. If they fail, they are required to attend summer intensive courses in IT.

A student who wishes to take a minor programme should formally register

---

* *A Secondary 6 (or 7) entrant means a student who has been admitted to the University after completion of Secondary 6 (or 7) in a school or on equivalent qualifications.*

for his minor subject, preferably in the second year of attendance. A minor programme normally requires 15–30 units of courses.

Programmes in the Faculty of Medicine

The Faculty of Medicine offers a non-unit-based professional programme leading to the degrees of MB ChB. Up to 2000-1, the medical curriculum has been divided into pre-clinical studies (years 1-2) and clinical studies (years 3-5). Students who have completed their pre-clinical studies with satisfactory results may apply for admission to the Intercalated Degree Programme in Medical Sciences. From the year 2001-2 onwards, the Faculty of Medicine has adopted an integrated, system-based medical curriculum starting Medical Year 1. The new curriculum consists of 70 per cent core courses and 30 per cent electives, with emphases on early clinical contact, communication and life-long learning skills, attitude and ethics.

Medical students shall have continuous and end-of-year assessments on individual subjects and sit for the First, Second and Third (Part I & II) Professional Examinations before they graduate. Students are also required to serve one year's internship at a recognized hospital before they register as a medical doctor.

A four-year Pre-registration Nursing Programme is offered by the Department of Nursing. It aims at preparing graduates for registration as general nurses in accordance with the requirement of the Nursing Board of Hong Kong.

A Pharmacy Programme is offered by the School of Pharmacy. The BPharm programme follows the credit unit system. Graduates must complete one year of pre-registration training before registration by the Pharmacy and Poisons Board as a pharmacist in Hong Kong.

Besides taking the professional courses required by the faculty, students have to complete General Education, Physical Education and language courses in compliance with University requirements.

Programmes

The courses under the various programmes are listed on pp.168-249.

Explanatory notes on codes and signs used

A course code comprises three letters of the alphabet, three Arabic numerals, and one numeral/letter. The first three letters stand for the subject (e.g. CHI, ENG, BIO, stand for Chinese, English, and Biology respectively). The first numeral stands for the level of study. Undergraduate courses are coded 1 to 4 while postgraduate courses are coded 5 to 6 (where 5 denotes first year in Graduate School and 6 denotes second year in Graduate School). The numeric code starting with 0 stands for a course by Student-orientated Teaching (STOT).

Normally, lower level courses should be taken before upper level courses. However, for the sake of flexibility, most courses are open to students of all years of attendance subject to the satisfactory fulfilment of pre-requisite and co-requisite requirements. In fulfilling the total unit requirements of a major or minor programme, students should follow a prescribed study scheme and complete the required and elective courses. Please refer to *The Chinese University of Hong Kong Student Handbook* for details of unit requirements and study schemes.

▮ Student IT Competence

IT literacy, the ability to use computers and other technologies to improve learning, productivity and performance, has become essential. To help students acquire this fundamental skill, the University will provide a training and test package targeted at basic IT skills: the basic operation of a computer, skills in using application software in electronic communication, data management and information presentation, and an appreciation of the social implications of developments in IT.

IT Proficiency Training

The University has set up an IT Learning Centre to cater to the training needs of the students. A self-learning courseware in a hands-on tutorial mode is also available for use by those who wish to be trained before taking the test. Students may use the courseware at the centre. Alternatively they can access the courseware through several servers on campus. Some faculties and departments have also set up self-learning centres for their own students. For details, please browse the SITC homepage (http://www.sitc.cuhk.edu.hk). Training is entirely voluntary.

IT Proficiency Test

(*Applicable to students admitted in 1999–2000 and thereafter*)
All students are required to sit an IT Proficiency Test in their first year of attendance. Students who fail the test will be required to attend a summer intensive course and retake the test in their second year of attendance. Any student who fails the test again in the second year will be required to attend the summer intensive course again. Students will be barred from graduation if they do not pass the test *and* despite this have not attended the summer intensive courses.

Tests will be graded pass/fail, and multiple attempts are allowed. Upon graduation, the transcript will show 'IT Proficiency Passed' or 'IT Proficiency Course Attended'.

Part-time Undergraduate Studies

___

General Information

The University offers four part-time degree programmes: Music, Physical Education and Sports Science, Post-registration Nursing*, and Primary Education. Regulations governing these programmes as well as admission to part-time undergraduate studies are given in Part 7 of this *Calendar*. Degrees are awarded on the same basis as the full-time programmes described on p.166.

___

Curriculum Structure

The normal length of study for a part-time programme is five to six years, with three terms in each year (with the exception of the Post-registration Nursing Programme). Apart from completing requirements of the major subject, students are also required to take general education courses and/or elective courses in other disciplines.

The University adopted with effect from 1991–92 a full-fledged credit unit system in the undergraduate curriculum (with the exception of the Post-registration Nursing Programme). Secondary 6 and Secondary 7 students are required to complete before graduation at least 123 and 99 units of courses respectively. Students who satisfy special entrance requirements of a specific programme and are granted unit exemption at the time of admission shall complete at least 80 or 60 units of courses before graduation, depending on the specific category under which they are admitted.

Exemption from major requirements in specific programmes shall also be given to students as prescribed in the study scheme concerned. (Please see also Curriculum Structure of the full-time programmes on pp.166-167.)

The Post-registration Nursing Programme is designed for registered nurses, and the normal length of study shall be three to four years.

Starting from 1999–2000, all newly-admitted students are required to achieve

___

* *The programme is being phased out, with its last intake in 1999-2000.*

a certain level of competence in IT. They are expected to pass the IT Proficiency Test within their first year of attendance. If they pass, 'IT Proficiency Pass' will be recoreded on the transcripts. If they fail, they are required to attend summer intensive courses in IT.

Programmes

Explanatory notes on codes and signs used
To distinguish Part-time Degree Programmes from their full-time counterparts, 'P' is always used as the third letter in the course code (except Post-registration Nursing Programme). The other two letters stand for the subject (e.g. EPP, MUP, and PEP respectively stand for Primary Education, Music, and Physical Education and Sports Science).

MSc Programme in Epidemiology and Biostatistics (Part-time)

Fields of Specialization

Evidence-based medicine or health care emphasizes the need to base decision-making on evidence. Evidence required for health care practices includes information related to disease etiology, diagnosis, prognosis, benefits and harms of treatment and that for health care provision. The best evidence is from organized scientific research. The discipline of epidemiology is concerned with the methodology of scientific investigations into these issues in humans, and how to collect the best evidence for decision-making. Biostatistics is concerned with understanding the data obtained from these investigations. This two-year part-time MSc programme will provide a unique opportunity for students to learn the concepts, principles, skills and applications of epidemiology, clinical epidemiology and biostatistics.

The programme is a continuation of the Postgraduate Diploma Programme in Epidemiology and Biostatistics, aiming to broader students' perspectives and offer more in-depth training.

The purposes of the professional programme are to consolidate the student's knowledge of the art and science of building, to stress the integration of diverse subject areas, and to provide a focus of effort that will increase competence and understanding of architecture in general. The programme recognizes special gifts and tendencies, yet maintains that the design and implementation of a building and the built environment are the primary qualifications of the profession. The discipline of architeture requires an ability to integrate often conflicting goals and requirements into a convincing whole.

The first year stresses the comprehensive nature of design while the second year promotes focused work. Relevant directions are supported by Computer-aided Architectural Design and offer opportunities for integration and exploration of methods facilitated by CAAD and information technology. Students are encouraged to develop their own learning plan with the assistance of faculty advisers.

▌ Division of Gender Studies

MPhil Programme in Gender Studies

This is an interdisciplinary programme administratively housed in the Department of Anthropology.

Fields of Specialization

Gender Studies examines how human beings are socially and culturally constructed as 'women' and 'men'. It seeks to understand how gender as an important principle of social organization interacts with the political, economic and ideological systems. An interdisciplinary approach is thus appropriate for a comprehensive study of gender.

Students pursuing an MPhil in gender studies will do so from within an existing department. They will receive a degree such as Gender Studies (Anthropology), Gender Studies (History), Gender Studies (psychology), etc. Actively participating departments at present include Anthropology, Chinese Language and Literature, English, Government and Public Administration, History, Journalism and Communication, Modern Languages and Intercultural Studies, Nursing, Psychology, Religion, and Sociology. Students may also apply to do gender studies from other departments.

Courses Offered

First year
1. Seminar in Gender Studies I & II
2. Requirements of the students' home department

Second year
1. Advanced Topics in Gender Studies I & II
2. Thesis
3. Requirements of the students' home department

International Asian Studies Programme

(Under revision)

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme (IASP) was introduced in the University in 1977 with the support of the Yale-China Association. This programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular structure of the University. Participants from overseas will share hostels with local students and take the same courses offered by the University, except those by the Faculty of Medicine and the Faculty of Education, and courses of the Intensive Programme in Putonghua, Cantonese and English, and putonghua courses offered to CUHK degree candidates. All overseas students will also be encouraged to join a special Chinese language training programme offered by the New Asia Yale-in-China Chinese Language Centre. In addition, the IASP offers selected courses in Asian and Chinese studies taught in English for the benefit of both programme participants and local students. Participants should be aware that normal timetabling constraints as well as course quota and language proficiency requirements apply equally to all students.

There are three categories of participants: (1) associate students: undergraduate and postgraduate students taking a full load (12–18 units per term) of University courses; (2) associate research students: graduate students primarily undertaking research or writing their master's theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of postdoctoral status, pursuing research, refresher or advanced courses.

The programme normally lasts for one academic year (September to May), but participation for one term is also possible, subject to availability of places. Previous course work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must normally have completed at least two terms of university study and graduate applicants must hold a bachelor's degree. Associate research students and special scholars with research or scholarly interest in China or Asian studies are especially welcome.

The University also welcomes exchange students from partner universities. All exchange students at CUHK are automatically affiliated with the programme and are exempt from paying the programme fees. However, they are responsible for the tuition of their home institution, hostel fees, and other fees as stipulated in the exchange agreements.

Cost of University Education

In addition to the prescribed fees listed above, all full-time students are advised to set aside money for other items including meals, books, transport, personal and other expenses.

The cost of meals on campus is about HK$15 for breakfast and $30 each for lunch and dinner. It is estimated that expenses on books and stationery and other incidental expenses would be in the region of $6,500 a year. In addition, a commuting student may have to spend between $6,200 and $7,200 a year on transport. Personal and other extra expenses are entirely at the discretion of the individual student concerned.

Taking into consideration all fees and expenditure set out above, a full-time student will probably need between $90,000 and $98,000 a year to support his education at the University.

Scholarships and Financial Aid to Students

To help needy students meet part of the cost of their university education, the government has made provisions for grants and loans through the Joint Committee on Student Finance. The University and its constituent colleges also administer their own scholarships, bursaries, loans and campus work schemes.

A summary of the scholarships and awards tenable is given below. Further details are available at the Office of Student Affairs of the University.

1.1 Students shall observe all rules and regulations prescribed by the University authorities.

2.0 Admission

2.1 An applicant seeking admission to an approved full-time course of study leading to a bachelor's degree shall have fulfilled the entrance requirements of the University as prescribed in the Regulations Governing Admission to Full-time Undergraduate Studies.

2.2 A successful applicant shall be admitted to a major programme.

3.0 Fees

This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies at the University. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.4 Apart from caution money, fees once paid shall not be refunded, except under very special circumstances.

4.0 Registration

4.1 An applicant who has been offered admission to an approved course of study shall pay the fees and register with the Registry on the respective specified date/s and shall be considered to have enrolled in the approved course of study from the date of his first registration.

11.6   A student who, without permission to take leave, has been absent for a continuous period exceeding one month shall be considered to have withdrawn from studies at the University.

11.7   A student shall be required to take leave of absence if the condition of his health is considered by the Director of the University Health Service as

constituting a definite hazard to the University community. At the end of the prescribed period of absence, the student shall obtain a certificate of good health signed by the Director of the University Health Service before he can apply to resume studies.

The board of the faculty to which he belongs may after considering his application make a recommendation to the Senate thereon. No student shall be granted this privilege more than once, and such an application shall be made within two weeks after the election results are announced.

12.2 Such permission for reduced course load shall not prejudice the student's eligibility for any academic awards or financial assistance in his academic career.

The grade point average of a student's course work shall be computed by dividing the total weighted converted points for courses taken by the total number of units attempted inclusive of courses failed, where the weighted converted points are converted points multiplied by the number of units of the course concerned.

13.3 A student who has gained a grade of 'D' or above in a course shall earn the unit/s of that course. However, the unit/s of a course which a student has passed but is required to repeat shall count only once towards the fulfilment of course units for graduation.

    A student who has satisfied the above requirements shall graduate, unless, in accordance with Regulation 19.0, he is required to terminate his studies at the University or be suspended from the University.

16.2 Notwithstanding Regulation 16.1(b), a student who has obtained a grade point average of below 1.5 but not less than 1.3 in all major courses taken which are coded 2000 and above (for STOT courses, coded 0200 and above) may be recommended by the Undergraduate Examinations Board for the award of a pass degree, subject to his satisfying all other requirements for graduation.

16.3 Provided that he is not required to discontinue his studies, a student shall register for a further term or year or specific course/s as the case may be, if he fails to meet any of the requirements prescribed in Regulation 16.1.

In cases where the student would nevertheless receive adequate supervision on a regular basis while away from Hong Kong, or where the absence from Hong Kong is related to an academic purpose, an application should be made beforehand to the head of the graduate division concerned, with the endorsement of the supervisor, to regard the student as being in residence during that period of absence.

8.3 In case of illness necessitating absence exceeding one week, a student shall obtain permission from the Registrar/office concerned through written

application. Such applications shall be accompanied by a certificate signed by a registered medical practitioner and shall require the endorsement of the department/programme/graduate division concerned.

8.4 A student who wishes to obtain a leave of absence exceeding one week for non-medical reasons shall obtain prior permission from the Registrar/office concerned through written application. Such applications shall state the reasons for which leave of absence is sought and shall require the endorsement of the department/programme/graduate division concerned.

8.5 A student who, without permission to take leave, has been absent for a continuous period exceeding one month shall be considered to have withdrawn from studies at the University.

8.6 A student shall be required to take leave of absence if the condition of his health is considered as constituting a definite hazard to the University community. At the end of the prescribed period of absence, the student shall obtain a certificate of good health as required before he can apply to resume classes.

9.0 Course Assessment and Grades
(not applicable to auditing students)

9.1 A student shall be assessed for every course he has registered for on the basis of his performance in the course. Criteria for assessment may include any one or any combination of the following: attendance, class work, written work, laboratory work, field work, research papers, tests, examinations, and any other criteria.

9.2 Course grades, their standards and converted points used in reporting shall be as follows:

(a) For undergraduate courses:

Grade and Standard	Sub-divisions (if needed)	Converted Points
A Excellent	A	4.0
A– Very Good	A–	3.7
B Good	B+ B B–	3.3 3.0 2.7
C Fair	C+ C C–	2.3 2.0 1.7
D Pass	D+ D	1.3 1.0
F Failure	F	0.0

(b) For postgraduate courses:

Grade and Standard		Sub-divisions (if needed)	Converted Points
A	Excellent	A	4.0
A–	Very Good	A–	3.7
B	Good	B+ B B–	3.3 3.0 2.7
C	Pass	C+ C C–	2.3 2.0 1.7
D	Failure	D	1.0
F	Bad Failure	F	0.0
P	Ungraded Pass	Counted towards the total number of units gained by a student but not counted in the calculation of the GPA	
U	Failure (unsatisfactory performance)		

The grade point average of a student's course work shall be computed by dividing the total weighted converted points for courses taken by the total number of units attempted inclusive of courses failed, where the weighted converted points are converted points multiplied by the number of units of the course concerned.

9.3 Notwithstanding Regulation 9.2 above, an OISP student taking a course offered by the New Asia Yale-in-China Chinese Language Centre may within two weeks after the beginning of the teaching term, apply to the New Asia Yale-in-China Chinese Language Centre to have his assessment result in that course reported on a pass/fail basis. The course grade for a student who has taken this option will be either 'pass (PA)' or 'fail (FA)', and will not be included in the calculation of the grade point average.

9.4 A student who has gained a 'pass' or above in a course shall earn the unit/s of that course.

10.0 Examinations
(not applicable to auditing students)

10.1 *Course examinations*
A student shall take course examinations, if prescribed by the teacher/s concerned, in the form of written, practical or oral assessment, or any combination thereof.

10.2 *Absence from course examinations*

    10.2.1 A student who for medical or other compelling reasons is unable to sit for any course examination, shall apply in writing with documentary evidence at the earliest possible moment but not later than 10 days after the examination concerned to the Registrar/office concerned for permission for absence. In the case of illness/injury, the application shall be accompanied by a certificate signed by a registered medical practitioner.

    10.2.2 (a) A student who is absent from course examination/s and whose application for absence is successful may be otherwise assessed at the discretion of the department/programme/graduate division concerned.

           (b) A student who is absent from any examination without permission shall be given a grade of 'F' for that examination.

11.0 Transcripts
(not applicable to auditing students)

11.1 A student may apply for an official transcript giving details of all courses taken and grades obtained.

11.2 The official transcript shall not be issued to a student or any private individual. It shall be sent direct to an institution or a prospective employer upon payment of the prescribed fees and postage.

12.0 Disciplinary Action

12.1 A student who violates any rule or regulation and/or commits any misconduct such as:

    (a) defamation of or assault on or battery against the person of any member of the University;

    (b) wilful damage to or defacement of any property of the University;

    (c) theft, fraud, misapplication of University funds or property of any kind;

    (d) plagiarism in written assignments or cheating in tests or examinations;

    (e) an offence in connection with examinations or violation of any of the regulations of the Senate governing conduct at examinations;

    (f) falsification or serious misuse of University documents or records;

    (g) refusal to comply with any regulations or orders by authorized persons and bodies prohibiting any conduct which disrupts teaching, study, research or administration of the University;

    (h) any conduct which is detrimental to the reputation and well-being of the University;

    (i) an offence of an immoral, scandalous or disgraceful nature of which the student has been convicted in any court of law; or

    (j) misrepresentations or false statements made in any application or document submitted to the University;

shall be disciplined by the Senate, Council of the Graduate School, the board of faculty and/or college assembly of fellows concerned in accordance with the nature and gravity of the offence.

12.2 Such disciplinary action may take the form of any of the following penalties which may be entered into the transcript of the student's academic record:
(a) reprimand;
(b) suspension from part or all of the rights, privileges and/or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit (a total of three demerits may result in termination of studies at the University);
(d) suspension from the University for a specified period of time; or
(e) termination of studies at the University.
Penalty (d) or (e) may be imposed only with the approval of the Senate.
12.3 A student, on being informed of a decision to take disciplinary action against him, may within seven days write to request the Senate to review the decision.

Regulations of the University Library System

The University Library System consists of the University Library in the central area of the campus and branch libraries at the colleges and at the teaching hospital. The University Library houses an extensive research collection as well as many undergraduate materials and the pre-clinical portion of the medical collection. The branch libraries contain reference and curricular materials, some special subject collections according to the needs of the colleges, and books and periodicals to support general education. Library regulations apply to all the libraries. The University Library System reserves the right to revise these regulations when necessary.

Details about opening hours are posted at the entrance to each library and on the library homepage. Opening hours are adapted to the semester schedules.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges fall into three categories:

1. *Borrowing*

   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

   Others may apply to the University Librarian for special Borrowers' Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. *Reading*

   The privilege of reading is extended to visiting scholars, to researchers and to graduates of this university according to established regulations. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. *The use of special facilities*

   Carrels: not reserved for any category of library user; they are available for the convenience of all.

Study rooms in the University Library: on application to the University Librarian, faculty members and PhD students may reserve a room for one month. The reservation is renewable once if continued use of the room is justifiable. These study rooms may not be transferred to another person.

Seminar rooms in the University Library: upon application to the University Librarian, a user may reserve a seminar room for a lecture or meeting or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: photocopying machines are available in all libraries. A reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: the Interlibrary Loan Librarian will attempt to obtain from other libraries books and other materials which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every library user must show a University Identification Card, or a Reader's Card at the entrance of the library. Applications for Borrowers' Cards and Readers' Cards are made at the Circulation Desk.

The loss of a Borrower's Card must be reported to the library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the library as soon as possible.

Borrowing Regulations

Borrower Categories

CUHK Library users are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong (including undergraduate students, graduate students and exchanged students).
2. Staff members of Terms A, B and C who have valid borrowers' cards issued by the University Librarian.
3. Others: spouses of staff members, alumni, visiting scholars and readers approved by the University Librarian.

Borrowing Limits

The borrowing limits for different categories of users are as follows:

Category 1. Undergraduate students: 15 volumes for 14 days

Category 2. Postgraduate students: 30 volumes for 30 days

Category 3. Research assistants: 30 volumes for 30 days

Category 4. Faculty members: 50 volumes for 60 days

Category 5. Administrative staff (Terms A): 30 volumes for 60 days

Category 6. General non-teaching staff (Terms B): 10 volumes for 14 days

Category 7. Staff members of Terms C: 3 volumes for 14 days

Category 8. Spouses of staff members: 3 volumes for 14 days

Category 9. Others: according to special arrangement

(Maximum limit of 15 volumes and maximum loan period of 30 days at the Li Ping Medical Library)

Categories 2 to 5 may charge out periodicals. Bound periodicals may be borrowed for three days. Current and single issues may be borrowed for one day only.

All books taken from the book stacks must be charged at the Circulation Desk. Reserve books must be charged at the Reserve Books Desk: there are varying borrowing limits on these books.

Books obtained from interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks. Photocopies of periodical articles may be obtained at cost.

Reference books, rare books and microfilms are not available for loan.

Renewals

Borrowers may renew loans for two additional periods. Renewals must be made on or before the last date of the initial loan period. Otherwise, overdue fines will be charged.

Borrowers in categories 4 and 5 listed above may renew loans in writing. After two renewals, however, the book must be returned to the library shelves so that it may be available to others.

No book may be renewed if it is required by another person.

Recall

When needed by other users, circulating books and journals are subject to recall at any time. In the recall notices, a new due date will be given, i.e. 14 days after the date of the notice.

Borrowers should respond to a recall promptly. Late returns will be fined [see Fines (b)].

Overdue

The responsibility of returning books on time lies with the borrower. When the loan period expires, an overdue notice is sent to all categories of borrowers.

Fines

(a) Overdue — All categories of borrowers who keep books/items beyond the loan period are subject to a fine of HK$1 per item per day up to a maximum of HK$100. A fine of HK$1 per hour will be charged for each reserve book overdue.

(b) Recall — The fines for not responding to recalls for all categories of borrowers are as follows:
  — HK$5 per item per day
  — five working days after issuing of a second recall: the library may take any appropriate action to retrieve the items.

Losses

Borrowers who fail to return books or who return books damaged beyond repair

will be charged the cost of replacement in addition to the processing cost of HK$100 and any accumulated fines. Damaged books and marked pages should be reported at the Circulation Desk as soon as noticed.

Borrowers in categories 4 and 5 who fail to return or renew books after 120 days and three recalls will be subject to the above charges, which will be collected by the Bursary upon notification by the library.

Control Counter

Bags and briefcases may be brought into the libraries whereas umbrellas should be deposited on entering the libraries. No food or beverages may be taken into the library. On a user's leaving the library, all his books, etc., may be inspected.

Loss of Privileges

Infractions, such as smoking, shouting, use of mobile phones, pagers and other disturbances, are forbidden in all parts of the libraries. The librarian or an appointed deputy may expel from the library building for the remainder of the day any person who is acting in any way which will annoy others or who is damaging books or other property. Payment must be made to cover all damages.

A gross breach of the regulations may subject the borrower to a loss of library privileges.

(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the libraries until the return of the book(s) and the payment of accrued fines.

(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged books or repair of damaged property), all the libraries will withhold borrowing privileges until the account is cleared.

(c) In case of materials which have not been charged out properly at the Circulation Counter:
    1. The user's name will be recorded in the library's register;
    2. The user's borrowing privilege will be suspended for eight weeks from the day of violation;
    3. Compensation for the damage of the item will be charged if necessary;
    4. For the student, a letter to this effect will be issued by the library to the faculty dean, college dean of students, and department chair to which the student belongs, and/or authority concerned.

(d) Unreturned library materials
    1. The user's name will be recorded in the library's register;
    2. An invoice will be sent to the user with the warning that borrowing privileges will be suspended if the books are not returned or the account is not settled.

Repeated offenses may lead to a total loss of the privilege of using the libraries.
