# CALENDAR

## 2021-2022

The emblem of the University is the mythical Chinese bird *feng* (鳳) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

The motto of the University is '博文約禮' or 'Through learning and temperance to virtue'.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects* of Confucius that the Master says, 'The superior man, extensively studying all learning, and keeping himself under the restraint of the rules of propriety, may thus likewise not overstep what is right.' (Legge's version of the *Four Books*)

In choosing '博文約禮' as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

## Origin

The University has its origin in three post-secondary colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizeable proportion of their teachers and some of their students from mainland China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the objective of securing government recognition of their efforts in providing higher education for the young people of Hong Kong. In 1959, Mr. John S. Fulton (later Lord Fulton of Falmer) was invited to advise on the general lines of development for the three Colleges as a whole. In 1960, the government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three Colleges with a view to raising their academic standards.

In 1961, a University Preparatory Committee, chaired by Dr. the Hon. Sir Cho-yiu Kwan, was appointed to advise on sites and buildings, and matters relating to the establishment of the University. A group of advisers from Britain and the US visited Hong Kong in the same year to advise the Colleges on the development of university level courses in arts, science, commerce, and social science. The report of these advisers was encouraging, and in 1962 the government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university could be created from the three Colleges.

The Report of the Fulton Commission, known as the *Fulton Report* and published in April 1963, recommended the establishment of a new university. Shortly after its publication, the *Report* was approved in principle by the government. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September of the same year. On 17 October 1963 the University was formally inaugurated.

---

## The Ordinance

In November 1975, the Chancellor of the University appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as chairman of the commission.

The second *Fulton Report* was submitted to the Chancellor in March 1976 and published in May. The *Report* recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of the curriculum, the conduct of examinations, and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the *Report* recommended that the University should strive to strike a balance between ‘subject-orientated’ teaching and small group ‘student-orientated’ teaching, and that the latter should be entrusted to the Colleges. This ‘student-orientated’ teaching would be designed to build in the students habits and frames of mind required of experts in their chosen fields and to equip them with the necessary skills for meeting new challenges in a rapidly changing world. A new ordinance to give effect to the recommendations in the second *Fulton Report* was enacted in December 1976.

In 1986 the University received a generous donation from the Shaw Foundation (Hong Kong ) Ltd. for the specific purpose of establishing a fourth College, Shaw College. The Ordinance and the Statutes were further revised to provide for its establishment, and it began admitting students in September 1988.

The University cherishes its college system and the vital roles played by its constituent Colleges. To cater for the addition of more than 3,000 undergraduate students upon reversion to a four-year undergraduate curriculum in 2012, the University decided to establish more Colleges. With very generous support from a number of patrons, the University established Morningside College and S.H. Ho College in May 2006, C.W. Chu College and Wu Yee Sun College in May 2007, and Lee Woo Sing College in October 2007. In July 2007, the University has by Ordinance, in accordance with a special resolution of the Council, declared Morningside College and S.H. Ho College as constituent Colleges of the University. In February 2008, an Ordinance for the declaration of C.W. Chu College, Wu Yee Sun College, and Lee Woo Sing College as constituent Colleges of the University was enacted by the Legislative Council.

The Ordinance and the Statutes of the University are printed in Part 7 of this *Calendar*.

## Academic Structure and Policy

The Chinese University of Hong Kong is a comprehensive research university offering a wide range of full-time and part-time programmes which lead to bachelor's degrees, master's degrees, and doctorates.

There are eight Faculties (Arts, Business Administration, Education, Engineering, Law, Medicine, Science, and Social Science), and 59 departments/schools offering 80 major programmes and 80 minor programmes for undergraduate students.

Postgraduate programmes including 41 MPhil–PhD programmes, 30 doctoral programmes, 144 master's programmes, seven postgraduate diploma programmes, and one postgraduate certificate programme are offered by the Graduate School through its 60 graduate divisions.

The Senate regulates instruction, education and research. The Faculties advise the Senate through the faculty boards on the programmes of study recommended by the departments/schools, which deliver disciplinary teaching. The Colleges, in turn, support the broader development of students as whole persons in addition to the provision of residential accommodation. All teaching staff and full-time undergraduate students, with a few exception of teachers belonging to research institutes or centres, belong to both a Faculty and to a College.

### ■ Undergraduate Studies

At its inception the University's undergraduate curriculum was based on a combination of the credit unit system and the degree examination system. After a comprehensive review in the mid-1980s, the University decided to adopt a pure credit-unit-based curriculum structure. From 1991–92 onwards, greater flexibility was introduced into students' selection of courses and pace of study.

#### *Full-time Undergraduate Studies*

Throughout the years the University has endeavoured to provide a wide variety of programmes to meet the changing needs of society. In 2021–22, two minor programmes are introduced.

Programme Title	Faculty	Major/Minor
Artificial Intelligence: Systems and Technologies	Engineering	Minor
Curating and Artistic Strategies	Arts	Minor

#### *General Education*

General Education plays a vital role in the University's mission to provide a balanced undergraduate education for students. It equips students with the intellectual capacity for understanding critical issues, ideas, and values of humanity in modern society. It nurtures students to be educated persons capable of making informed judgment and meeting the challenges of the ever-changing world. Providing a firm foundation for the well-rounded intellectual

development of students, it prepares them to be lifelong learners and engaged citizens with a global awareness.

The General Education Programme at CUHK is composed of the General Education Foundation, the 'Four Areas' of University General Education, and College General Education. The General Education Foundation and the 'Four Areas' of University General Education are administered by the Office of University General Education, while the College General Education programme is offered by constituent colleges, each with its distinctive mission and tradition.

### ■ Postgraduate Studies

Master's programmes were first offered in 1966–67, and the number of programmes in 2021–22 is 144. Doctoral programmes were first introduced in 1980–81 and the number of programmes is 30 in 2021–22. MPhil–PhD programmes were first introduced in 2004–05, and the number of programmes is 41 in 2021–22. In addition, seven postgraduate diploma programmes and one postgraduate certificate programme are offered.

## Research and Development

CUHK fosters the development of high-quality research over a broad front in all its eight Faculties. It encourages academic staff to conduct research aimed at expanding the frontiers of knowledge, and also to undertake specific consultancy projects of community value and collaborative projects with industry. The University has also established a number of research institutes, providing the necessary financial support and research infrastructure.

Riding on its research strengths, CUHK aims to promote interdisciplinary research excellence that can deliver benefits, tackle grand challenges, and fulfil societal needs locally, nationally, and globally. As part of its Strategic Plan 2021–2025, the University has prioritized four major research areas that will address some of the most pressing issues facing humankind. These major research areas are China: tradition and modernity, innovative biomedicine, information and automation technology, and environment and sustainability. In nine Research Grants Council (RGC) 'Areas of Excellence' exercises, CUHK has secured significant support from the UGC in the following research projects: Centre for Medical Engineering of Molecular and Biological Probes, Aging, Skeletal Degeneration and Regeneration; Probing the Fundamental Structure of Matter with High Energy Particle Collisions; Centre for Genomic Studies on Plant-Environment Interaction for Sustainable Agriculture and Food Security; Centre for Organelle Biogenesis and Function; Institute of Network Coding; the Historical Anthropology of Chinese Society; Centre for Research into Circulating Fetal Nucleic Acids; Chinese Medicine Research and Further Development; Centre for Plant and Agricultural Biotechnology; and Information Technology. Good progress is being made in all these research centres by the dedicated, multidisciplinary teams.

At the national level, five State Key Laboratories have also been established at CUHK. The State Key Laboratory of Translational Oncology (CUHK), established in 2006, conducts research into the biology and early detection of cancers particularly prevalent in Asian populations, and seeks to develop novel therapeutics for their treatment. The State Key Laboratory of Agrobiotechnology (CUHK), established in 2008, brings advancements in basic science research for agricultural applications, for safeguarding food security and sustainable development of the nation. Established in 2009, the State Key Laboratory of Research on Bioactivities and Clinical Applications of Medicinal Plants (CUHK) conducts research into the modernization of traditional Chinese medicine and the application of biotechnology in medical science. The State Key Laboratory of Synthetic Chemistry, established in 2010, advances interdisciplinary basic research. In July 2013, the State Key Laboratory of Digestive Disease was approved by the Ministry of Science and Technology with the aim of promoting research in digestive disease.

About a quarter of the government's annual allocation to the University in the form of block grants goes directly or indirectly to research. The University also relies heavily on different external funding sources to support research activities. The RGC remains the major sponsor of research. In the 2020–21 grant application exercise, CUHK staff secured over HK\$378 million in RGC competitive grant funding. The University's high quality of research is also reflected in the many papers published in international and local refereed journals.

CUHK staff have also been active in seeking funding from several other important sources, including the Health and Medical Research Fund, the Innovation and Technology Fund, the Quality Education Fund, and various private donations.

Much of the University's internal funding for research is allocated by the Research Committee. The committee is supported by eight subject panels, each consisting of up to 17 experienced researchers. In addition to allocation of research funding, it is also responsible for evaluating and recommending project proposals for external grant applications. It is supported by the Office of Research and Knowledge Transfer Services (ORKTS) which oversees, develops and administers the University's policies in these two areas.

---

## **Innovation and Enterprise**

The Office of Innovation and Enterprise (OIE) was established in 2019 to facilitate the translation of CUHK innovation research into product or service commercialization. OIE aspires to create an innovation ecosystem that fosters interactions among industries, investors, government and academia, thereby accelerating CUHK's innovation and societal impacts. OIE leverages on the opportunities and participates in initiatives launched by the HKSAR government and external partners. The key foci of OIE are: (i) Establishment of a unique

healthcare centre of excellence—located in the Greater Bay Area, this will be a platform for interdisciplinary and multi-organizational collaboration, to conduct research and develop healthcare solutions for residents in Hong Kong and the Greater Bay Area; (ii) Translational services—facilitating the establishment of infrastructure for translational medicine such as GMP cell processing facility and commercialization of animal centre services; (iii) Enterprise innovation—invigorating private and public partnerships in sectors such as material science, green technology and marine science; (iv) Entrepreneurship and talent development—collaborating with internal and external partners to deliver new professional training programmes, including those for professional qualifications in the field of advanced therapeutic products and a double master's programme in translational sciences and business; and (v) Investment resource—introducing venture funds to University spinoffs especially for startups and providing assistance for industrial partnership matching.

## Knowledge Transfer

CUHK places great value on its interaction with society, and has broadened its range of knowledge transfer (KT) activities. ORKTS strives to promote interactions and partnerships between the University and industrial enterprises through conferences, contracts and licensing agreements, funding schemes, and entrepreneurship capacity building, with the aim of promoting knowledge transfer and creating economic and social impacts.

Licensing income from technology transfer and the number of licences granted have increased significantly over the years. Collaboration agreements were concluded with prominent commercial firms both in mainland China and elsewhere in the world. The Knowledge Transfer Project Fund has supported a total of 226 projects since 2009, many of which were interdisciplinary efforts which promised various social, cultural, environmental and economic benefits.

CUHK encourages students and researchers to contribute to society with the knowledge gained through their research. Launching startups is a direct and visible way of applying academic knowledge and skills for the benefit of the community. ORKTS has collaborated with other units to foster an entrepreneurial environment on CUHK's campus conducive to innovation and creativity.

The CUHK PI Centre, established in early 2014, provides workspace, facilities, seed funding, development and mentorship support to successful CUHK student applicants from all disciplines. Since its inception, the PI Centre has admitted 113 student teams, 62 of which have already incorporated, some of them have been admitted to advanced incubation programmes outside the campus. Meanwhile, the Technology Start-up Support Scheme for Universities (TSSSU), funded by the Innovation and Technology Commission (ITC), encourages both faculty members and students to start technology businesses and commercialize R&D results. Since the inauguration of the scheme in late

2014, the TSSSU has supported 62 startup companies with close to HK\$44 million. The Sustainable Knowledge Transfer Project Fund (S-KPF) was introduced in 2015 to provide seed funding and consultancy support for innovative social enterprises. The goal is to support sustainable ventures that apply professors' research findings to address some of the social issues. Sixteen social enterprises have been launched under the S-KPF scheme to create different kinds of society impact ranging from psychological wellness to education for disadvantaged groups. To complement these schemes, CUHK offers mentorship and training workshops, and connects TSSSU companies to resources such as the Science Park, accelerators, and investors. Through TSSSU, the University's intellectual property is translated into products and services to benefit the society. CUHK's mentorship service has facilitated discussions between TSSSU startups and investors. Some startups have secured significant funding as a result.

## Finance

Funding from the Hong Kong SAR government is the main source of income and constitutes 55% of the University's revenue for capital and recurrent expenses. Income from tuition, programme and other fee, being the next important source of revenue, accounts for about 22% of total income. In addition, the University and its constituent Colleges have endowment funds at their disposal and also receive financial support from private donors for research and other designated purposes. The annual total income for the University is about HK\$10.9 billion.

Negotiations between the University and the government are conducted through University Grants Committee, which is the committee advising the government on the financial requirements of the University.

## Lands and Buildings

The University campus, measuring 137 hectares including the newly granted land in Area 39, is located on a tract of land under lease from the government north of downtown Sha Tin in the New Territories. It commands a scenic view of Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 150 metres above sea level and has been carved from a rocky promontory into a number of plateaux to provide the sites for buildings of the University and its Colleges, as well as blocks of staff residences.

To date, over 160 buildings, large and small, have been erected on this once barren hillside.

Buildings for central activities, Morningside College and S.H. Ho College are located mainly at the mid-level. The expanse of land in the valley next to the University Station of the Mass Transit Railway (East Rail Line) is the campus

of Chung Chi College. At the highest level are United College and New Asia College. Shaw College, Wu Yee Sun College and Lee Woo Sing College occupy the northwest tip of the University campus while C.W. Chu College is situated at the northern campus.

The following buildings are clustered around the tree-lined University Mall and the University Square: the University Administration Building, the University Library and the Li Dak Sum Yip Yio Chin Building (the library extension), the Tin Ka Ping Building (also an extension of the library), the Institute of Chinese Studies and the Art Museum, the Sui-Loong Pao Building, the Pi Ch'iu Building (housing the Information Technology Services Centre), the Y.C. By the main entrance on Tai Po Road stands the Security and Transport Building whilst blocks of staff quarters, postgraduate halls and international houses dot the hilly slopes to the north, including the Lee Woo Sing College and Wu Yee Sun College. The C.W. Chu College and Jockey Club Postgraduate Halls 2 and 3 are at the toe of the slope. Further north in Area 39, the University's research hub, is the Lo Kwee-Seong Integrated Biomedical Sciences Building.

Descending towards the bay, one finds the Pentecostal Mission Hall Complex (a student hostel for Chung Chi College), Morningside College and S.H. Ho College, the University Sports Centre, the Kwok Sports Building, the Jockey Club Postgraduate Hall 1, and on the waterfront, the Institute of Biotechnology and the Simon F.S. Li Building (Simon F.S. Li Marine Science Laboratory).

Flanking the road to the University Station are the Shanghai Fraternity Association Research Services Centre, the Fong Shu Chuen Building and Fong Yun Wah Hall (housing a Chinese language centre), Yasumoto International Academic Park (lecture theatres, conference and exhibition areas, and housing the Office of Admissions and Financial Aid, the Office of Academic Links, the Office of Academic Links (China) and the Registry), Wu Ho Man Yuen Building and Lee Shau Kee Architecture Building. Others include the Pommerenke Student Centre (a student amenity complex), Ho Tim Building (housing the

## Social Responsibility and Sustainable Development

CUHK is a socially responsible university that upholds the principle of sustainable development and seeks to tackle global social and sustainability challenges through teaching, research and engagement. We have set several university social responsibility goals, ranging from health to education, from inclusion to partnerships, and from climate action to responsible processes. We are committed to pursuing and achieving our university social responsibility goals which also actively respond to the Sustainable Development Goals adopted by the United Nations. As a leader in sustainability, CUHK houses the Jockey Club Museum of Climate Change, the world's first museum of its kind, and co-hosts the Hong Kong Chapter of the Sustainable Development Solutions Network, a United Nations initiative to mobilize knowledge institutions to promote practical problem-solving for sustainable development. We communicate our goals clearly with the university community and engage faculty members, students and staff to discharge our social responsibilities to foster a sustainable society.

---

## Diversity and Inclusion

Embracing diversity and cultivating inclusiveness are the invaluable elements of realizing students' and staff's full potential and consummating everyone's achievements in the University. In 2020, the University has adopted a proactive and comprehensive approach in integrating all existing mechanisms and practices to address inclusion and equal opportunities issues and established the Diversity and Inclusion Steering Committee (DISC), which aims to steer and review the Diversity and Inclusion Policy, develop strategies to promote the Principles of Communities by means of educational and training development programmes, publicity campaigns and communication with stakeholders, and to ensure any action plans derived are effectively implemented. The Diversity and Inclusion Office (DIO) was also set up to serve as DISC's executive arm, aiming to foster and sustain a vibrant, open and truly inclusive environment.

DIO collaborates with Faculties, Colleges, Graduate School and other offices to promote the University's core values, namely, openness, civility and inclusivity, and to heighten the awareness of our campus community towards diversity and inclusion. With the DISC's directives and guidance, DIO will advance its diversity and inclusion endeavours in the University and ensure that the campus is free from all forms of discrimination so that members of the CUHK community who study, do research, work, play and live on campus would feel welcome and have a strong sense of belonging to the University.

## COVID-19

Since the outbreak of COVID-19 in Hong Kong, the University's Committee on Health Promotion and Protection (CHPP) has kept close watch on the progression of the pandemic. Various measures have been implemented, including enhanced cleaning on campus as well as reminding all University members to maintain good personal and environmental hygiene and to wear a surgical mask on campus. More information is available at CHPP's website:

 [www.cuhk.edu.hk/health\\_promote\\_protect](http://www.cuhk.edu.hk/health_promote_protect)

The Emergency Response Group led by Prof. Rocky S. Tuan, Vice-Chancellor, was established to direct and coordinate the University's efforts to combat COVID-19. The website 'Act together against COVID-19' was launched with a view to providing related news and announcements:

 <https://againstcovid19.cuhk.edu.hk>

In view of the stabilizing situation of COVID-19 in Hong Kong, the University resumes face-to-face academic and student activities on campus in the school year 2021–22. Precautionary measures will be put in place to keep our campus safe. The University has set out different sets of guidelines, including the 'Referencing Guidelines of Social and Non-academic Events':

 [www.cuhk.edu.hk/cpr/referencing\\_guidelines.pdf](http://www.cuhk.edu.hk/cpr/referencing_guidelines.pdf)

To support CUHK staff, students and young graduates during this period of adversity, the CU RELief Fund has been established to provide financial assistance to those in need and build up resilience in the CUHK community:

## Global Engagement

Uniquely positioned to serve as a bridge between China and the West, CUHK is one of the most internationalized universities recognized globally for its dedication to education and research. The University attaches great importance to global engagement with a view to nurturing students for the global knowledge economy, fostering world-class and impactful research, and reinforcing the University's reputation and visibility nationally and internationally. Over the years, the University has forged partnerships with many universities, research institutes, government agencies, funding bodies, and national and international associations of higher learning and research.

Academic linkages and collaborations at the University are managed by two offices: the Office of Academic Links and the China Engagement Office. The former is responsible for the University's international engagements and coordination of global education initiatives including student exchange programmes, while the latter is responsible for strategic collaborations on the mainland, in Macau and Taiwan.

### ■ Global Learning and Experience

Global learning and experience are critical to student success in the 21st century. It is necessary to expose students to diverse cultures, ideas, knowledge and skills that would prepare them for rewarding careers, responsible citizenship and leadership roles. CUHK provides a range of global education and experiential learning opportunities to meet the needs and aspirations of individual students.

Student exchange at CUHK began in 1965 when the University established its first student exchange agreement with the University of California system. Since then, the University has established student exchange programmes with over 280 partner institutions in more than 35 countries and regions. Every year, over 1,000 students undertake student exchange programmes at the University's partner institutions for a term or an academic year. Besides, about 5,000 students benefit from short-term experiential learning opportunities outside Hong Kong ranging from internships and thematic studies to field trips and service learning.

Each year, over 1,500 students from around the world study at CUHK as exchange or visiting students. As an integral part to the University's internationalization-at-home efforts, the active non-local student population makes CUHK a multicultural campus where local students and those from outside Hong Kong learn, live and engage in a vibrant community.

The University has established over 20 global collaborative programmes with leading universities around the world. They include dual undergraduate, master's, and PhD degree programmes, joint teaching programmes, as well as combined qualification arrangements.

To support global learning, bursaries, awards and financial assistance are available to students undertaking term-long exchanges as well as other shorter opportunities.

To make learning more accessible, the University's Global Online Academic Learning Programmes (GOAL) allow students to benefit from global education and experience without having to travel. Such opportunities help students to hone their digital skills and prepare them for the global, technology-driven, and borderless workplace of tomorrow.

### ■ International Relations

The Office of Academic Links (OAL) serves as the international relations arm for the University. Much of its effort is devoted to the internationalization of the University's teaching, student experience, research and outreach. It is a central coordinator for all international partnerships and global education programmes, and facilitates academic departments to develop such partnerships and programmes.

OAL is instrumental in driving and fortifying academic collaborations. At present, the University has over 700 agreements with institutions worldwide for partnerships ranging from student exchange to collaborative teaching programmes and joint research centres. OAL actively identifies new opportunities and develops programmes with partners of strategic significance to cultivate and consolidate ties; assists individual units within the University to realize joint initiatives with overseas institutions; and administers schemes that support faculty and graduate student mobility, knowledge exchange, and research development.

The University is an active member of a number of international academic alliances that provide opportunities for forming multi-lateral collaborations, exchanging knowledge and best practices, and promoting cultural exchange. These include the Association of Pacific Rim Universities (APRU), the Worldwide Universities Network (WUN), and the Asia-Pacific Association for International Education (APAIE), just to name a few. OAL leads engagements with these alliances and promotes academic and research cooperation with member institutions.

As part of its continued efforts to strengthen the University's presence in the international arena, OAL works with major university ranking agencies including Times Higher Education (THE) and Quacquarelli Symonds (QS) to promote CUHK to the global academic community and reinforce it as the partner of choice for education and research.

Each year CUHK receives about 150 delegations comprising over 2,000 visitors from the mainland and Taiwan. Members of the University go on academic visits to institutions on the mainland and in Taiwan via various channels such as outreach trips led by the University's senior management, and staff mobility schemes. Visits and meetings were conducted online during the pandemic period.

The University works closely with mainland and Taiwan institutions on a wide spectrum of research collaborations. These include joint research projects and the setting up of over 50 joint research centres/institutes/laboratories. Currently the University has established five State Key Laboratories as approved by the State Ministry of Science and Technology, namely, State Key Laboratory of Translational Oncology, State Key Laboratory of Agrobiotechnology, State Key Laboratory of Research on Bioactivities and Clinical Applications of Medicinal Plants, State Key Laboratory of Synthetic Chemistry, and State Key Laboratory of Digestive Disease.

CUHK–Sun Yat-sen University Centre for Historical Anthropology, and CUHK–Beijing Language and Culture University Joint Research Centre for Chinese Linguistics and Applied Linguistics were set up as the only two extension units of Key Research Institutes in Humanities and Social Sciences under the MoE in CUHK and in Hong Kong.

In recent years, CUHK has also actively initiated or participated in a number of university alliances such as the Guangdong–HK–Macau University Alliance, Alliance of International Science Organization in the Belt and Road Region, the Innovation and Entrepreneurship Education Alliance of China, China–UK Humanities Alliance for Higher Education, and the Mainland–Hong Kong–Macau Law Education Alliance, University Alliance of the Silk Road, University College Alliance, Beijing–Hong Kong Universities Alliance, Shanghai–Hong Kong University Alliance, Global AI Academic Alliance and Green University Consortium, etc., to enhance partnership and exchange, and expand existing collaborations at university and disciplinary levels by synergizing regional advantages.

Student interflow activities are actively promoted at university, college and faculty levels in CUHK. Every year, CUHK sends over 4,000 students to mainland China and Taiwan for short-term activities. Besides, CUHK aspires to

create more interactive opportunities in organizing short-term exchange visits and activities. Examples include cultural interflow camps, research placement programmes, summer school and visiting student programmes, which have yielded fruitful results in promoting mutual understanding and integration among students.

The University and its academic departments constantly organize joint academic activities, such as academic symposia, conferences and summits. Examples include annual academic symposium jointly organized with the National Natural Science Foundation, World Philanthropy Forum and the lecture series by academicians of CAS, CAE and AS, and by scholars of CASS. Other academic and executive exchange activities include CUHK Distinguished Lecture Series, Interflow Programme for Mainland Academic Exchange Executives under the MoE, Summer Institute for Mainland Higher Education Executives and Mainland and Taiwan Visiting Scholar Scheme.

The University has launched a number of joint postgraduate training and supervision programmes and dual degree programmes with its close partners including Peking University, Tsinghua University, Fudan University, Shanghai Jiao Tong University, Zhejiang University and Shanghai National Accounting Institute to cultivate talents together. The University is also involved in providing training courses to governmental agencies, the business sector and universities on the mainland.

# The Constituent Colleges

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Boards of Trustees of the three original Colleges, viz. Chung Chi College, New Asia College, and The United College of Hong Kong, were reconstituted. Each college board is mainly concerned with the management of the movable property and of certain College buildings entrusted to it, as well as the promotion of scholastic and cultural activities of the College.

Each College is governed by an Assembly of Fellows chaired by the College Head/Master, and this assembly is responsible for making and implementing decisions on various matters relating to the College.

In January 1986 the University received a very generous donation from the Shaw Foundation (Hong Kong) Ltd. for the establishment of Shaw College with Sir Run Run Shaw as its patron. The Chinese University of Hong Kong (Declaration of Shaw College) Ordinance was enacted in July 1986. Shaw College admitted its first batch of students in 1988.

In 2006, the University received very generous donations from the Morningside Foundation and Morningside Education Foundation Ltd., and from The S.H. Ho Foundation Ltd. in support of its visions to enhance the collegiate system in anticipation of the surge in undergraduate enrolment in 2012 when the University reverts to a normative four-year curriculum. In May the same year, the University Council endorsed the establishing of two new Colleges and named them respectively Morningside College and S.H. Ho College.

In May 2007, C.W. Chu College and Wu Yee Sun College were established with generous donations from benefactors and Wu Yee Sun Charitable Foundation Ltd., respectively.

In October 2007, the University Council further approved the establishment of Lee Woo Sing College with very generous support from the Li Foundation (Bing Hua Tang).

To give legal effect to the establishment of the five new Colleges, The Chinese University of Hong Kong (Declaration of Morningside College and S.H. Ho College as Constituent Colleges) Ordinance was enacted in July 2007, and The Chinese University of Hong Kong (Declaration of C.W. ## Full-time Undergraduate Studies

Eligibility for admission is conditional upon fulfilment of the entrance requirements of the University set out in the Regulations Governing Admission to Full-time Undergraduate Studies (please go to [www.cuhk.edu.hk/adm/regulations](http://www.cuhk.edu.hk/adm/regulations) for details).

The University's Faculties of Arts, Business Administration, Education, Engineering, Law, Medicine, Science, and Social Science offer a wide range of undergraduate programmes leading to the BA, BBA, BChiMed, BEd, BEng, LLB, MBChB, BNurs, BPharm, BSc, and BSSc degrees. The University started offering double degree programmes in 2006–07, and collaborating with renowned institutions overseas and on the mainland to offer Dual Undergraduate Degree Programmes with effect from 2019–20.

A student who satisfies the conditions for graduation shall be awarded a bachelor's degree with one of the following classifications: First Class Honours, Second Class Honours Upper Division, Second Class Honours Lower Division, Third Class Honours, and Pass. Degree classification is based on the grade point averages of major and other courses, and the result of the graduation thesis/project. However, the degrees of MBChB are awarded on the basis of professional examinations and BChiMed on the basis of the clinical studies. (Please refer to the *Undergraduate Student Handbook* at [www.aqs.cuhk.edu.hk/documents/ug\\_student\\_handbook.html](http://www.aqs.cuhk.edu.hk/documents/ug_student_handbook.html) for details of the undergraduate study programmes.)

### ■ Curriculum Structure

The normal length of study for a full-time programme is four to five years with the exception of Chinese medicine programme and medical studies. A senior year entrant admitted to programmes specially designed for articulation by associate degree/higher diploma holders shall normally be expected to graduate after two years of attendance. The curriculum (excluding MBChB) is based on a credit unit system.

For graduation, a student shall successfully complete at least 123 units of courses, which include the major programme requirement as well as the university core requirements of general education, English and Chinese

languages, physical education and IT. A senior year entrant shall complete at least 69 units of courses, also including the major programme requirement and university core requirements.

Key features include the university core requirements and faculty packages, and the emphasis on transferable skills and capstone experience. Please visit [www.cuhk.edu.hk/334/english/index.html](http://www.cuhk.edu.hk/334/english/index.html) for details of the four-year normative curriculum.

## Postgraduate Studies

The University currently offers degree programmes leading to five research degrees and 20 taught degrees. The five research degrees are Doctor of Music (DMus), Doctor of Philosophy (PhD), Master of Fine Arts (MFA), Master of Music (MMus), and Master of Philosophy (MPhil). The 20 taught degrees are Doctor of Education (EdD), Doctor of Nursing (DNurs), Doctor of Psychology (PsyD), Juris Doctor (JD), Master of Accountancy (MAcc), Master of Architecture (MArch), Master of Arts (MA), Master of Business Administration (MBA), Master of Chinese Medicine (MChiMed), Master of Clinical Pharmacy (MClinPharm), Master of Divinity (MDiv), Master of Education (MEd), Master of Laws (LLM), Master of Nursing (MNurs), Master of Nursing Science (MNSc), Master of Professional Accountancy (MPAcc), Master of Public Health (MPH), Master of Science (MSc), Master of Social Science (MSSc), and Master of Social Work (MSW).

The University has introduced the MPhil–PhD programmes since 2004–05 and currently offers 41 MPhil–PhD programmes. Under this scheme, MPhil and PhD are regarded as two streams within one MPhil–PhD programme. Students may choose the streams according to their interests and ability, with the flexibility to transfer between MPhil stream and PhD (pre-candidacy) stream after admission.

For doctoral programmes, the normal length of study for full-time students with or without a research master's degree is 36 and 48 months respectively, while that for part-time students with or without a research master's degree is 48 and 64 months respectively. For master's programmes, the period of study normally ranges from one to four years for full-time study and two to four years for part-time study. The postgraduate diploma programmes last three months to one year for full-time students and one to two years for part-time students.

Applicants who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. For details, please refer to the Graduate School's admission website at [www.gs.cuhk.edu.hk/admissions](http://www.gs.cuhk.edu.hk/admissions).

## International Asian Studies Programme

Promoting East-West cultural exchange has been one of the University's key educational missions since its establishment. In order to achieve this, the International Asian Studies Programme (IASP) was established at CUHK in 1977 with the support of the Yale-China Association. Students from institutions outside of Hong Kong are welcome to join the programme managed by the Office of Academic Links, and take advantage of the University's academic resources and research facilities. Here, students can develop knowledge in China, Asian and International Studies, further studies in their academic discipline in the context of Hong Kong, mainland China and the region, learn Chinese language, and acquire knowledge in advanced science and technology.

Most international students coming to the University for exchange or study abroad are enrolled in IASP, which allows them to take courses offered by the Faculties of Arts, Business Administration, Education, Engineering, Law, Science, Social Science and other CUHK units with the University's undergraduate and postgraduate students. Special language courses in Cantonese and Putonghua offered by the Yale-China Chinese Language Centre are also available. IASP students are exposed to numerous opportunities that allow them to experience Chinese culture. They would share a room with CUHK students, explore Hong Kong and China through thematic field trips and excursions, and participate in a wide variety of activities that promote cultural exchange between local and international students.

IASP accepts both undergraduate and postgraduate students. Students will enrol in IASP under the following modes:

(1) Associate undergraduate students taking a full load (9–18 units per term) of courses; and (2) Associate postgraduate students either (a) taking a full load (9–18 units per term) of courses or (b) conducting research and taking a minimum course load of three units per term.

Students are welcome to join IASP for either one term or one academic year. They are not required to have previous knowledge in the Chinese language or coursework on Asian studies, but undergraduate applicants should have completed at least two terms of university study and graduate applicants must hold a recognized bachelor's degree.

Students from CUHK's partner institutions can enrol in IASP as exchange students, upon nomination from their home institutions. They are not required to pay tuition to CUHK. Those coming from institutions without formal exchange agreements with CUHK can apply to IASP as study abroad (fee-paying) students and pay the IASP programme fee directly to CUHK. Both exchange and study abroad students will be responsible for on-campus accommodation and other living expenses.

## CUHK International Summer School

In an effort to allow students from around the world to experience the world-class teaching of CUHK and to promote internationalization at home, the University has been hosting the CUHK International Summer School (ISS) since 2004. With a well-established reputation, the CUHK ISS is one of the region's most recognized summer programmes, attracting an annual cohort of some 600 local and international students from various disciplines and regions.

Offered in two sessions, the CUHK ISS provides students with an intensive academic experience and Chinese cultural immersion in a multicultural environment. The July Session, which runs for five and a half weeks, offers a wide range of academic courses, while the three-week August Session provides intensive Chinese language training. During the CUHK ISS, students take courses taught by outstanding academics from CUHK and overseas universities, explore CUHK and Hong Kong by participating in co-curricular activities, and learn alongside peers with diverse backgrounds and cultures to engage in open discussions in the programme's internationalized learning environment.

## CUHK Summer Institute

The University has been hosting the CUHK Summer Institute (SI) since 2007 to give secondary school students a taste of university education and campus life. Held in July, the two-week credit-bearing programme provides an invaluable opportunity for students in secondary five (or equivalent level) to prepare for their upcoming undergraduate studies. Every year, the CUHK SI brings together over 300 enthusiastic learners from Hong Kong and around the world to explore different academic disciplines through short courses taught by outstanding CUHK academics, and experience university life through activities.

# State Key Laboratories

Launched in 1984, the State Key Laboratory Scheme is one of the key technology development projects of China. State Key Laboratories (SKLs) focus on studies in the latest academic developments and important technological issues in relation to the economy, social development, health and security of China. Organizations hosting a SKL should have attained international standards and be in a pivotal position in their respective disciplines. They should be able to complete important state research tasks, and possess excellent research teams and favourable conditions for conducting research and experiment.

Two SKLs were established at The Chinese University of Hong Kong in 2006 and 2008, respectively with the approval of the Ministry of Science and Technology of China. The SKLs anchor their spearheading roles in oncology and agrobiotechnology research. The University was further approved to establish two more SKLs, namely, the State Key Laboratory of Research on Bioactivities and Clinical Applications of Medicinal Plants in 2009 and the State Key Laboratory of Synthetic Chemistry in 2010. In 2013, CUHK's fifth SKL, the State Key Laboratory of Digestive Disease, was established.
