SUMMER
by DESIGN

JUNE
19-28 TORONTO
2023 CANADA

LEARN ABOUT THE BUSINESS OF REGENERATIVE MEDICINE

Canadian and international PhD candidates and post-doctoral fellows will learn how to take regenerative medicine discoveries from bench to bedside at Summer by Design, an eight-day program at the University of Toronto.

- ✓ Learn from experts across various aspects of the technology translation continuum
- ✓ Explore Toronto's dynamic life sciences hub by meeting with clinical and industry leaders in the field of regenerative medicine
- ✓ Make connections with other Summer by Design participants to strengthen their networks of international peers
