WORDS OF THANKS FROM AWARD WINNERS ❖

AU Chi Chun, Medicine Year 3

- The Cheng Foundation Scholarships
- CUHKMAA Dr. Tse Yuen Man Memorial Scholarship
- Dean's List (Medicine Year 2)
- Dr. & Mrs. Tzu Leung Ho Outstanding Academic Awards
- Outstanding Performance Award in Clinical Skills

It is my honour to be nominated for the scholarships and awards. I would like to express my sincere gratitude for the generous donations that have served as encouragement in my studies, urging me to continue in the pursuit of academic excellence.

Looking back on my second year of medical studies, I am really grateful for how God led me through. When I devoted myself to serving as president of the CUHK Medical Christian fellowship group in the beginning of my second year of studies, I was not sure if I could strike a balance between serving God and studying medicine. However, as the Bible says, 'My grace is sufficient for you'. I dedicated my time to serving, and he led me through the ups and downs of my studies, which were full of passion, joy and peace.

First, I would like to thank the teaching staff for helping me grasp the difficult concepts of pathophysiology and anatomy. This has helped me build a good foundation for learning medicine in my clinical years. I would also like to share the honour with my dear classmates who studied with me, day and night. We inspired each other, practicing and sharing notes selflessly. I am sure that without their company, the time I spent preparing for year-end exams. would not have been as successful, or fun. Last but not least, I would like to thank my parents and brother for their never ending support.

Since being promoted to the first clinical year, I have faced many challenges, and while I sometimes get lost in the unlimited sea of medical facts and figures, I remind myself to stay hungry for knowledge and be kind and empathetic to patients. Once again, I would like to express my deep gratitude for the generous donations.

FUNG Pui Lam Polly, Medicine Year 4

- Dean's List (Medicine Year 3)
- Dr. & Mrs. Tzu Leung Ho Outstanding Academic Awards
- Hong Kong Pathology Society Prize
- J C K Lee Gold Medal in Anatomical & Cellular Pathology
- Kan Tong Po Medical Scholarship
- Wai Kin Medical Diagnostic Centre Prizes in Microbiology (2nd Prize)

It is my honour to be one of the scholarship recipients. I would like to express my heartfelt gratitude to the donors. The awards are not only recognition of my achievements, but additional reasons to strive for excellence.

I would like to take this opportunity to thank the members of the teaching staff for their guidance and dedication. Apart from academic teaching, they are great role models of how a good doctor should be.

Clinical skills can only be acquired through practice and experience, not from textbooks. In this respect, I would like to thank the patients who kindly agreed to take part in our clinical practice. Their warm encouragement and recovery are the driving force behind our endeavours.

Finally, I would like to thank my parents and family for their love and support throughout the years. The road to becoming a good doctor is tough, but with all the encouragement and support, I will overcome the challenges ahead.

LAU Wing Yi, Public Health Year 3

- Chiu Fuksan Scholarship
- D.H. Chen Foundation Scholarships
- Dean's List (Public Health Year 2)
- Pearl Island Lions Club Public Health Scholarship

It is my great honour to be awarded the Chiu Fuksan Scholarship, D.H. Chen Foundation Scholarships, Pearl Island Lions Public Health Scholarship and a place on the Dean's List.

I would like to express my deepest gratitude to the donors for their generous support. To me, the scholarships are not only a recognition for my efforts, but also strong encouragement that motivates me to work harder to accomplish my goals. Furthermore, the scholarships will support my pursuit of a master's degree after graduation, which will be a great opportunity to further explore my potential in the field of Public Health.

My sincere gratitude also goes to my teachers, who have put a lot of valuable time and effort into teaching. Their enthusiasm and guidance have fostered my interest in Public Health. I would particularly like to thank my supervisor, Professor Vincent Chung for his tremendous support and advice throughout my final year research.

The generosity of the donors and my teachers has inspired me to give back to society. I look forward to someday contributing to our community with the knowledge I have acquired.

LEE Sau Wai, Nursing Year 4

- Dean's List (Nursing Year 3)
- The Nethersole School of Nursing Alumni Prize
- Outstanding Academic Award for Bachelor of Nursing Year 4
- Woo Sau Wing Scholarships

I am truly honoured to be the awardee of the Nethersole School of Nursing Alumni Prize, the Outstanding Academic Award for Bachelor of Nursing Year 4 and the Woo Sau Wing Scholarships. I would like to express my heartfelt thanks to the donors for their valuable support. The awards are indeed a good affirmation and encouragement of my academic performance. These recognitions are not only for me, but for my teachers, who have provided a supportive learning atmosphere that has equipped me with the knowledge and

skills to become a competent nurse. Moreover, they are always excellent role models for delivering holistic care to patients. I can achieve nothing without them. Therefore, I would like to show my sincerest gratitude to my teachers for their continuous support.

Furthermore, I am grateful that the School has offered numerous opportunities for me to participate in voluntary services. Learning is not merely restricted to the classrooms and clinical settings. Volunteering allows me to gain vital experience in my profession while implementing compassionate care in the community.

Finally, I would like to thank God for His guidance. In the upcoming days, I will continue to rely on Him as I strive to be a competent nurse and pursue excellence.

TAM Tsz Kin, MBChB Graduate

- CC Wu Outstanding Academic Award (Orthopaedics & Traumatology) (Med 5)
- Carol Yu's Scholarship
- Dean's List (Medicine Year 5)
- Distinction Certificate in Surgery
- Dr. & Mrs. Tzu Leung Ho Outstanding Academic Awards
- Dr. R.C. Lee Memorial Gold Medal in Surgery
- Kan Tong Po Gold Medal in Medical Studies
- Medicine Year 5 Certificate of Merit for Orthopaedic Module

It is a great honour to be writing this thank you note. Five years of medical school have passed, five colourful and exciting years. To be frank, I was not entirely sure of my passion when I first set foot in medical school. Now, looking back, I feel grateful to have made the right choice.

I truly enjoyed studying medicine here, so much so that I often secretly wish to go back to my student days once more. For students here, guidance is always provided, ideas are respected and questions are welcomed. My success has been made possible by my great teachers who were willing to sacrifice their time for my education. Day or night, and even on weekends when they are spared from busy clinical duties, my teachers always had time for me. Some would even enlighten us with the fruits of their life experiences, from which I will continue to benefit.

I also want to take this opportunity to thank the donors for their generous support, both for their contribution in the scholarships and for their devotion to making CUHK medicine an exceptional place. Last but not least, I wish to thank my parents. My mum's warm noodle soup always makes a perfect treat when I come home late at night. Thank you.

WAN Fong Ying, Medicine Year 2

- Dean's List (Medicine Year 1)
- Mary Sun Medical Scholarships
- Yu To Sang Memorial Scholarships

It is my honour to be selected as one of the recipients of a Mary Sun Medical Scholarship and a Yu To Sang Memorial Scholarship. I would like to take this precious opportunity to thank all of the generous donors and my dedicated teachers, who have provided me with so much support. The

scholarships have lightened my financial burden, allowing me to focus more on the most pivotal aspects of school and learning. The donors' generosity has also inspired me to help others and give back to the community. I look forward to someday being capable of supporting students as I have been supported.

As a medical student, I have a strong conviction that my knowledge will enable me to serve the community. Being a doctor is about helping as many people as you can and giving all the hope that you can give. Doctors are invaluable societal assets because they fight not only for better physical and psychological health for their patients, but also for a better society for everyone. I always endeavour to be a good role model so that others can benefit from both my life experience and my education. I strongly

believe that the donors' generous financial support will not only assist me in the accomplishment of my personal goals, but also serve as an investment that will benefit our whole community.

Wong Lok Yee Louise, Pharmacy Year 4

- Dean's List (Pharmacy Year 3)
- Jacobson Academic Excellence Scholarship
- Kong E Suen Memorial Scholarships
- SHPHK Outstanding Performance Award
- Yu To Sang Memorial Scholarships

I am honoured to have been nominated for the above named awards. I would like to take this opportunity to thank the donors for their generosity. The School of Pharmacy is an exceptional place to learn, grow and begin my fulfilling career as a pharmacist in the hopes of giving back to the community in a meaningful way. I would like to express my

gratitude to the teachers and staff, all of whom have been very supportive and caring, providing knowledge and leading us closer to a passionate and professional pharmacy career. They have generously shared their experience and urged us to join more pharmacy-related activities to

broaden our horizons. Apart from the teachers, I would like to thank my classmates, from whom I have learned so much.

As a final year student, I am excited about the upcoming challenges that I will face. These awards provide encouragement and recognition, and I promise to strive for excellence by preparing myself intellectually and mentally for my future career.
