7 - Flipped Micro-Module for Professional Sports Skills Courses (Phase II)

Tools / Services	Pedagogical Uses
Articulate Storyline, Audacity (recording software), SCORM to generate accessible data and other analytics	The MMs from this project have been uploaded to Blackboard, and the students can access them during the semester. The students are highly encouraged to use the MMs before and after class time to refine their sports skills through further self-practice. Therefore, flipped classroom and eLearning are encouraged.
