

3 - Development of audio-visual teaching materials for second language Cantonese learners

Tools / Services	Pedagogical Uses
Webswami, Elite video shooting, Camtasia, Vimeo	<p>Students would be provided with annotated PowerPoint slides either explaining how the sentence structure of Cantonese works or some repetitive drills. Each video lasts around 3-10 minutes. Students are to watch the videos before class. Similar to other flipped videos, the rationale is that students may listen to it according to their own learning pace. Apart from videos, we also have preparation assignments are on-line exercises that have already been posted on the course Blackboard, the LMS that is currently available to our students. The next stage is post-video quiz. Post-video quizzes will be conducted in class in order to assess their preparation before coming to the class. We aim at having more time for interactive activities in class if the videos and on-line exercises are provided.</p>
