<p>ELITE video-taping and professional editing. Articulate Storyline 360 for authoring; PowToon for animation; Mac Music Editor</p>	<p>Flipped classroom activities included the following:</p> <p>For micro-modules 1 and 2, students completed the modules before class. Completion of this activity was tracked on Blackboard.</p> <p>In class, discussion about key learning points covered in the modules was facilitated. This followed by video viewing of good and poor exemplar and role-play practice. The content of micro-module one was integrated into an assessment cycle which involved preparation before class, formative feedback on in-class role-play followed by an unrehearsed assessed role-play. In this assessment, the descriptors developed aligned with the intended learning outcomes of the micro-module.</p> <p>For micro-module 3, students worked through sections of the package throughout the duration of the course. Each section was supplemented with in-class activities to consolidate and deepen learning.</p>
