Faculty of Education

Mission

The mission of the Department of Sports Science and Physical Education is to provide excellent research and teaching in Sports Science and Physical Education in order to promote and develop the health and well being of people.

5-year B.Sc. in Physical Education, Exercise Science and Health

Programme Description **JS4329**

The programme is a five-year full time degree programme, aiming at training physical education teachers, coaches, sports management and health promotion personnel for local academic institutions, government and private organisations. Completion of the programme leads to the award of a Bachelor of Education degree, including a recognition as equivalent to a Postgraduate Diploma in Education, thereby entitling graduates to enter the teaching profession immediately after graduation. There is increasing recognition of the importance of health improvement through sport and physical education. The programme has four core components: health, physical education, exercise science and advanced professional skills, as well as capstone experience such as Teaching Practice, Internship and Research Project.

Programme Structure

Internship and Research Project as Capstone Experience

To help students to broaden their horizons and achieve an all-round development, a variety of experiential learning opportunities such as internship and research project are provided.

Admission Requirements

HKDSE students

Candidates who meet the following admission requirements are eligible to apply for admission to the Programme:

Core Subjects	Level
Chinese Language	3
English Language	3
Mathematics	2
Liberal Studies	2
+	
Any 2 Subjects <small>Note</small>	3

Note: These two subjects may include:

- (i) 2 New Senior Secondary elective subjects; or
- (ii) 1 New Senior Secondary elective subject and Mathematics (Extended Part) Module I or Module II.

Teaching Practice

Teaching practice is an integral part of our undergraduate programme. Students must attain a pass in teaching practice before graduation. Each student-teacher is supervised by a department mentor, and his/her teaching performance will also be simultaneously monitored by a school Teaching Advisor. This arrangement is intended to encourage students to effectively apply their theoretical and professional knowledge within an authentic teaching situation.

Scholarships

University Scholarships

With the generous donations from numerous donors, the University offers a number of scholarships, prizes and academic awards to recognize students who have demonstrated academic excellence and outstanding performance in other areas, such as creativity, community services and leadership.

- Administrators in government subvented / national sports associations
- Physical training officers or inspectors
- Executives in fitness and leisure industries
- Supervisors / officers in private and commercial sectors
- Further study on higher degree in physical education, exercise science and health

Words from Students

Mak Tsz Yan Gianne | B.Ed. in Physical Education, Exercise Science and Health (Year-5 student)
Admitted through Sports Scholarship Scheme

I am really blessed to be part of the SSPE family. The department provides us with a wide range of programs, which have broadened my knowledge and enhanced my determination to nurture the next generation. Outside of academics, I was fortunate to represent CUHK in athletics and badminton USF competitions. Although it has been a tough year due to COVID-19, I would still say that my first 4 years in CUHK were exciting and enjoyable. Looking back to these 4 years, I am grateful that I could meet some lifelong friends, who always study and support me during hard times. I will treasure my time in CUHK with teachers and friends and try my best to become a good physical education teacher in the foreseeable future.

Tsang Cheung Sing Nicholas | B.Ed. in Physical Education, Exercise Science and Health (Year-5 student)
Admitted through Sports Scholarship Scheme, Full-time athlete of Hong Kong Sports Institute

I am privileged to be a year 5 student at SSPE. I am also a full-time triathlete for Hong Kong, which allows me to strengthen my athletic career while concurrently continuing my education. This course offers excellent training and preparation for a career as a PE teacher or a Sport Scientist. Being a freshman was a very exciting experience, with the teachers and fellow students welcoming me and providing the best experience of being a university student. I am also fortunate to be able to compete for CUHK at the inter-university competitions, and one of my goals is to win the Asian Junior Championships and to compete at the Asian Games during my time at university.

Chan Hiu Lam | B.Ed. in Physical Education, Exercise Science and Health (Year-4 student)
Admitted through Multi-faceted Excellence Scholarship Scheme

I am very grateful and fortunate to be a part of the SSPE family. There is a strong professor-student bonding, as well as a close relationship in class. Our class is always full of laughter. I had a remarkable 4 year learning under this supportive and friendly atmosphere. Our professors are all committed to teaching. The courses have equipped us with the knowledge, skills and attitude needed for teaching. Their passion and earnestness have undoubtedly driven me to treat education more seriously. With the nurture of the department, I am confident that I will be able to achieve my career aspirations and be prepared for them in the coming years.

Fung Chun Wai Henry | B.Ed. in Physical Education, Exercise Science and Health (Year-3 student)
Admitted through School Principal's Nominations Scheme

Joining the PESH programme of CUHK has been one of my goals since secondary school. This programme provides me an opportunity to my further studies and knowledge in sports, which could not be learnt in secondary school, such as sports science and human anatomy. The courses have enhanced my sports knowledges and have better equipped me to be a physical education teacher. Moreover, I have made many like-minded and pleasant friends in this programme. I am glad that I have chosen CUHK to open a new page of my school life. In the coming years, CUHK will be my second home.

Chan Chun Wing Vincent | B.Ed. in Physical Education, Exercise Science and Health (Year-2 student)
Admitted through Sports Scholarship Scheme

It is my honor to be part of the SSPE family. The PESH program equips us with a variety of knowledge in sports theory, physical education and exercise science. In addition to the theoretical aspect, this program also focuses on the practical value of applying this theory in a real-world setting. We are also afforded numerous opportunities to experience various sports skills, laying the foundation for our future as a well-rounded and enthusiastic PE teacher. The PESH program recruits a minimal number of students each year, so we have an inseparable bond in class and can create numerous memorable moments. I am glad that I have met numerous professors and classmates in SSPE, and always enjoy spending time with my fellow students, going through all the ups and downs together.
