The programme is a five-year full-time undergraduate programme for students who aspire to pursue a career in Early Childhood Education field. Through a multi-disciplinary approach, it aims to nurture students to be professional, creative and ethical early childhood educators in future.

Major required courses cover a series of thematic areas, including the social and emotional development of children, physical development and health, nutrition and safety, language and literacy development, numeracy and technology, and supporting pre-school children with special educational needs.

After completing the Programme, graduates are eligible to apply for teaching positions in local or international kindergartens in Hong Kong, or administrative positions in centres or agencies serving young children and families. Graduates may also consider pursuing postgraduate studies in education for further research opportunities.

Please refer to the CUHK Undergraduate Student Handbook (<http://www.cuhk.edu.hk/aqs>) or programme website for the study scheme, course list and course descriptions.
