## General Information

### Year of Establishment

1963 (through amalgamation of Chung Chi College, New Asia College and United College)

### Motto

博文約禮

Through Learning and Temperance to Virtue

### Emblem

The emblem of the University is the mythical Chinese bird *feng* (鳳) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

### Our Mission

To assist in the preservation, creation, application and dissemination of knowledge by teaching, research and public service in a comprehensive range of disciplines, thereby serving the needs and enhancing the well-being of the citizens of Hong Kong, China as a whole, and the wider world community.

### Our Vision

To be acknowledged locally, nationally and internationally as a first-class comprehensive research university whose bilingual and multicultural dimensions of student education, scholarly output and contribution to the community consistently meet standards of excellence.

## Campus Area

137.3 hectares

## Buildings on Campus

Number of Buildings: 166

Total Gross Floor Area: 708,164 m<sup>2</sup>

## Campus

### *Main Campus*

The University's stunning campus commanding panoramic views of the Tolo Harbour and the mountain range nearby is the largest in Hong Kong. Nestled among the greenery are tasteful

buildings featuring a mix of Chinese and Western architectural styles. The University has formulated a sustainable Campus Master Plan to protect and enhance its campus, which is a haven for many varieties of flora and fauna.

### *Prince of Wales Hospital*

Situated in Siu Lek Yuen, Shatin, the Prince of Wales Hospital is the teaching hospital of the Faculty of Medicine of CUHK, offering training for medical professionals and the ground for medical research. It also houses most departments of the Faculty and several CUHK research institutes.

### *Teaching Centres in Town*

The Graduate Law Centre, the MBA Town Centre, and one of the enrolment and learning centres of the CUHK School of Continuing and Professional Studies are housed at the Bank of America Tower in Admiralty, Hong Kong.

### *Shenzhen Research Institute*

Situated in the Shenzhen Virtual University Park in Nanshan, the Shenzhen Research Institute, wholly-owned by CUHK, was officially opened in November 2011. It serves as a pivotal base for CUHK staff members to conduct research, training and technology transfer in mainland China.

## Colleges

### Chung Chi College

College Motto: **In Pursuit of Excellence**

Chung Chi College was founded in 1951 by the Protestant Churches in Hong Kong to fill the need for a local institution of higher learning that would be both Chinese and Christian. It is characterized by an emphasis on liberal arts education and whole-person development.

*Weiyuan Lake, the Chinese name of **Lake Ad Excellentiam**, literally meaning 'not complete', not only describes the shape of the lake but is a clever footnote to the College motto 'In Pursuit of Excellence'.*

*The double-storey A-frame **Chung Chi Tang**, built in 1972, serves as a student recreation centre and canteen.*

*The **College Chapel**, built in 1961, is situated half way up the hill along Chung Chi Road. Its colourful blocks of granite were indigenous and excavated while developing the College campus.*

## New Asia College

College Motto: **Sincerity and Intelligence**

New Asia College was founded in 1949 by a group of scholars from mainland China headed by Prof. Ch'ien Mu, who aimed at preserving traditional Chinese culture and balancing it with Western learning so that students might understand their cultural heritage while being able to cope with the challenges of the modern world.

The **Pavilion of Harmony** illustrates the idea of the 'union of man and nature' advocated by Prof. Ch'ien Mu. Sitting by the pond, one may feel to be an integral part of nature.

The bronze **Statue of Confucius** faces north towards the hometown of Confucius in Shandong province. At the back of the statue is a bamboo stick engraved with Confucius' teaching ideal, 'ever learning, and never tired of teaching'.

The **New Asia Amphitheatre** is a popular venue for student activities. Names of the College graduates are engraved on its two curved walls.

## United College

College Motto: **Make One's Virtues Shine and Renew the People**

United College was founded in 1956 through the amalgamation of five post-secondary colleges which were originally private universities in Guangzhou and its vicinity and were closely related to higher education in Hong Kong.

The **Water Tower** has been serving United College since 1970. On special occasions, this graceful structure is lit up for a festive mood.

Built in 1996, the **Cascade** is a popular venue among students for graduation photographs.

The **Sculpture Garden** outside the Wu Chung Multimedia Library has a distinctive artistic ambience.

## Shaw College

College Motto: **Cultivating One's Virtue and Going Deeply into What One has Learned**

Shaw College was founded in 1986 with private donations to promote the cultivation of virtue and the pursuit of knowledge. The Wen Lan Hall of the College provides a vantage point to admire the beautiful scenery of the Tolo Harbour and the nearby Pat Sin Leng.

The dynamically shaped **College Sign** situated on the Shaw Terrace at the campus entrance represents the College spirit and a readiness to face new challenges squarely.

The **Shaw College Mural**, located beneath the sign, incorporates several important icons such as the College Sign, the Tolo Harbour, Hong Kong Orchid and Chek Nai Ping Village near the University.

The 800 m<sup>2</sup> **HERBSnSENSES Chinese Medicinal Garden** is the home for over 20 flowering and fragrant herbs planted for teaching and research purposes.

## Morningside College

College Motto: **Scholarship, Virtue, Service**

Founded in 2006, Morningside College seeks to cultivate independent and creative thought, study to good purpose, vigorous debate and service to Hong Kong, China, and the world.

Morningside is fully residential and accommodates 300 students. The relatively small size allows for a level of intimacy and intellectual exchange amongst students that is possible only in a small, cohesive community.

## S.H. Ho College

College Motto: **Culture, Morals, Devotion,  
Trustworthiness**

Founded in 2006, S.H. Ho College is a fully residential college which provides regular communal dining. The College seeks above all to provide its students with a welcoming environment where they can call home, and is attentive to tried and tested traditions of whole-person education.

## C.W. Chu College

College Motto: ***Cultus et Beneficentia***

Founded in 2007, C.W. Chu College is named after Dr. Chu Ching-wen (1906–1996). The College is established with the vision to be an intimate community of scholars drawn from diverse backgrounds, engaged with the world in a spirit of curiosity and generosity. This vision statement embraces four elements (intimate, international, intellectual and involved) which distinguish the College and lay the path for its development.

## Wu Yee Sun College

College Motto: **Scholarship and Perseverance**

Founded in 2007, Wu Yee Sun College seeks to cultivate among students an entrepreneurial spirit with social responsibility. In the College's intimate and dynamic learning atmosphere, students will develop the drive for social entrepreneurship: a passion for creativity and innovation, and acumen in pursuing new initiatives and ideas, not just for personal gain but for the common good.

## Lee Woo Sing College

College Motto: **Wisdom, Humanity, Integrity, Harmony**

Founded in 2007, Lee Woo Sing College aims at developing leaders with excellent communication and leadership skills for Hong Kong, mainland China and the world. The College also emphasizes the spirit of 'Harmony', being kind to people and handling things with moderation.

By implementing various green measures and carbon reduction and renewable energy initiatives, the College strives to create an environment in harmony with its natural surroundings.

## Five Focused Areas of Research

To maximize impact and benefit to society, CUHK has adopted in its Strategic Plan 2006 the strategy of focusing its research investments in five already distinguished fields of academic enquiry within the University. They are:

### **Chinese Studies**

The multi-disciplinary field of Chinese Studies is an essential source of understanding of all things Chinese. It is a flourishing field comprising five clusters of sub-areas which represent the combined strengths of academic staff from eight Faculties: language, literature and performing arts; heritage and history; social and regional developments; political and legal developments; public health and environment.

### **Biomedical Sciences**

Biomedical research in CUHK straddles the conventional boundaries of academic disciplines and addresses health issues from the molecular to the societal level, contributing to progress in medicine, public health, and bioscience.

### **Information Sciences**

On the basis of its significant presence in Information Sciences, it being the major internet hub for the region, CUHK strives to scale greater heights through theoretical and applied research, and to seek opportunities for technology transfer in the areas of theoretical computer science; information and coding theory; information security; multimedia technology and bio-informatics.

### **Economics and Finance**

CUHK is particularly strong in the areas of Chinese economy, corporate finance and the emerging financial markets of China and Asia. It excels by virtue of its history and geography and contributes to Hong Kong's strength as a hub of international trade and finance through teaching, research, consultancy and public service.

### **Geoinformation and Earth Sciences**

CUHK strives to become a national leader and global hub for the research, application and technology transfer of remote sensing by advancing scientific knowledge of remote sensing and maximizing the benefit of such technology through research, teaching and public service.

## Areas of Excellence

The University Grants Committee (UGC)\* has provided preferential funding to the local tertiary institutions to conduct research into 15 selected Areas of Excellence (AoEs). Four ongoing projects are led by researchers at CUHK:

### ***Centre for Research into Circulating Fetal Nucleic Acids***

The project team discovered the presence of cell-free fetal DNA in the plasma of pregnant women, offering new possibilities for non-invasive prenatal diagnosis. The team continues to address a number of high-profile unsolved questions in the field of circulating fetal nucleic acids, including non-invasive molecular methods for the diagnosis of fetal Down syndrome.

### ***Institute of Network Coding***

With an aim to making Hong Kong a major centre of network coding, the world-leading Institute of Network Coding conducts forefront research on the theory of network coding and its various applications on the Internet, wireless communications, information security, data storage and bioinformatics.

### ***The Historical Anthropology of Chinese Society***

This project studies 15 geographic areas in China to recover the history of both how local society acquired its own characteristics, and was incorporated into the broad expanse of a unified culture. Local ritual traditions, including architectural features, literal traditions, the hagiography of local deities, and village ceremonies are documented to reconstruct the history of the local institutions in which they were employed. By comparing the time frame of separate local histories, this project will construct a history of China from the bottom up.

### ***Centre for Organelle Biogenesis and Function***

The centre focuses on understanding the biogenesis and functions of three organelles, namely, Golgi, TGN and EXPO. This research will not only address the fundamental questions concerning organelle biogenesis and functions in important biological processes, such as cell wall formation and stress signaling pathways in plants, but will also have potential applications for the biotechnology industry in Hong Kong and China.

## State Key Laboratories

- **State Key Laboratory of Agrobiotechnology (Partner Laboratory in The Chinese University of Hong Kong)**  
The laboratory was established in 2008 with the mission of up-scaling China's agricultural technology to increase agricultural productivity, safeguard food security in China, and improve people's nutrition by combining the traditional wisdom of farmers and breeders and modern biotechnology.
- **State Key Laboratory of Oncology in South China (Partner Laboratory in The Chinese University of Hong Kong)**  
Backed by a strong clinical base, the laboratory, established in 2006, conducts research into the early detection of cancers particularly prevalent in Asian populations, and seeks to develop novel therapeutics for the treatment.
- **State Key Laboratory of Phytochemistry and Plant Resources in West China (Partner Laboratory in The Chinese University of Hong Kong)**  
By drawing on the expertise in research into Chinese medicinal plants developed both at CUHK and in the Kunming Institute of Botany, Chinese Academy of Sciences, the laboratory aims to conduct research into the modernization of traditional Chinese medicine and the application of biotechnology in medical science.
- **State Key Laboratory of Synthetic Chemistry**  
Established in partnership with the University of Hong Kong and the State Key Laboratory of Organometallic Chemistry located in the Shanghai Institute of Organic Chemistry, the Chinese Academy of Sciences, the laboratory aims to create and identify novel chemical compounds with important structural and bonding features or with notable potential for practical applications.
