Emblem

The emblem of the University is the mythical Chinese bird *feng* (鳳) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

Year of Establishment

1963

(through amalgamation of Chung Chi College,
New Asia College and United College)

Motto

博文約禮

Through Learning and
Temperance to Virtue

Our Vision

To be acknowledged locally, nationally and internationally as a first-class comprehensive research university whose bilingual and multicultural dimensions of student education, scholarly output and contribution to the community consistently meet standards of excellence.

Our Mission

To assist in the preservation, creation, application and dissemination of knowledge by teaching, research and public service in a comprehensive range of disciplines, thereby serving the needs and enhancing the well-being of the citizens of Hong Kong, China as a whole, and the wider world community.

Building on Campus

Number of Buildings: 168

Total Gross Floor Area: 711,267.04 m²

Campus

Main Campus

The University's stunning campus commanding panoramic views of the Tolo Harbour and the mountain range nearby is the largest in Hong Kong. Nestled among the greenery are tasteful buildings featuring a mix of Chinese and Western architectural styles. The University has formulated a sustainable Campus Master Plan to protect and enhance its campus, which is a haven for many varieties of flora and fauna.

Prince of Wales Hospital

Situated in Siu Lek Yuen, Shatin, the Prince of Wales Hospital is the teaching hospital of the Faculty of Medicine of CUHK, offering training for medical professionals and the ground for medical research. It also houses most departments of the Faculty and several CUHK research institutes.

Teaching Centres in Town

The Graduate Law Centre, the MBA Town Centre, and one of the enrolment and learning centres of the CUHK School of Continuing and Professional Studies are housed at the Bank of America Tower in Admiralty, Hong Kong.

Shenzhen Research Institute

Situated in the Shenzhen Virtual University Park in Nanshan, the Shenzhen Research Institute, wholly-owned by CUHK, was officially opened in November 2011. It serves as a pivotal base for CUHK staff members to conduct research, training and technology transfer in mainland China.

| Winner of the International Association of Applied Psychology Award for Distinguished Scientific Contributions | 1 |
| Winner of 'AESOP Best Published Paper Award 2015' of The Association of European Schools of Planning | 1 |
| Winner of Chinese Young Women in Science Fellowship | 1 |
| Winner of International Federation of Clinical Chemistry and Laboratory Medicine Young Investigator Award | 1 |
| Winner of Association of Academic Heads of Clinical Biochemistry Departments in the UK Professors' Prize | 1 |
| Winner of Science and Technology Award for Chinese Youth | 1 |

Strategic Research Areas and Themes

CUHK's research strategies aim to realize its vision as a centre of excellence for developing cutting-edge research and emerging interdisciplinary strengths that have global impact and significant contributions to society, through translating research findings into practical applications. Riding on our current research strengths, four major research areas incorporating 16 cross-cutting themes have been identified in the *CUHK Strategic Plan 2016–2020*.

China Studies

- China's Global Challenges
- Roots of Chinese Culture

Environment and Sustainability

- Smart and Sustainable Cities
- Climate Change
- Plant Molecular, Cell and Agricultural Biology and Food Security
- Renewable Energy and Natural Resources
- Population Studies: Migration, Youth Development and Ageing Management

Translational Biomedicine

- Genetic, Genomic and Precision Medicine
- Stem Cell Biology and Regenerative Medicine
- Brain and Mind
- Integrative Medicine
- Innovative Medical Devices

Information and Automation Technology

- Intelligent Reasoning and Cognition
- Big Data and eLearning Research
- Robotics
- Network Coding

Areas of Excellence

The University Grants Committee (UGC)* has provided preferential funding to the local tertiary institutions to conduct research into 21 selected Areas of Excellence (AoEs). Four ongoing projects are led by researchers at CUHK:

Institute of Network Coding

With an aim to making Hong Kong a major centre of network coding, the world-leading Institute of Network Coding conducts forefront research on the theory of network coding and its various applications on the Internet, wireless communications, information security, data storage and bioinformatics.

The Historical Anthropology of Chinese Society

This project studies 15 geographic areas in China to recover the history of both how local society acquired its own characteristics, and was incorporated into the broad expanse of a unified culture. Local ritual traditions, including architectural features, literal traditions, the hagiography of local deities, and village ceremonies are documented to reconstruct the history of the local institutions in which they were employed. By comparing the time frame of separate local histories, this project will construct a history of China from the bottom up.

Centre for Organelle Biogenesis and Function

The centre focuses on understanding the biogenesis and functions of three organelles, namely, Golgi, TGN and EXPO. This research will not only address the fundamental questions concerning organelle biogenesis and functions in important biological processes, such as cell wall formation and stress signalling pathways in plants, but will also have potential applications for the biotechnology industry in Hong Kong and China.

Centre for Genomic Studies on Plant-Environment Interaction

With the research foci on the understanding of plant adaptation to abiotic stresses, and the mechanisms of gene regulation relating to plant-environment interactions, the centre aims to identify useful functional genes and effective molecular markers to help generating new adaptive varieties to combat major factors hampering sustainable agriculture, including water scarcity, global warming, and topsoil nutrient depletion. The centre pledges to establish a stable soybean genetic population with precise annotated genomic information and deposit the data in a central portal, and contributes to food security through international collaboration and information sharing.

* The UGC is an advisory body responsible for advising the HKSAR Government on the development and funding needs of the higher learning institutions in Hong Kong

State Key Laboratories

State Key Laboratory of Agrobiotechnology (Partner Laboratory in The Chinese University of Hong Kong)

The laboratory was established in 2008 with the mission of up-scaling China's agricultural technology to increase agricultural productivity, safeguard food security in China, and improve people's nutrition by combining the traditional wisdom of farmers and breeders and modern biotechnology.

State Key Laboratory of Digestive Disease (Partner Laboratory in The Chinese University of Hong Kong)

Established in 2013, the laboratory aims to promote research and improve the level of diagnosis and treatment of digestive disease by carrying out basic, translational and clinical research on the gastrointestinal cancer, peptic ulcer bleeding, chronic liver disease and inflammatory bowel disease.

State Key Laboratory of Oncology in South China (Partner Laboratory in The Chinese University of Hong Kong)

Backed by a strong clinical base, the laboratory, established in 2006, conducts research into the early detection of cancers particularly prevalent in Asian populations, and seeks to develop novel therapeutics for the treatment.

State Key Laboratory of Phytochemistry and Plant Resources in West China (Partner Laboratory in The Chinese University of Hong Kong)

By drawing on the expertise in research into Chinese medicinal plants developed both at CUHK and in the Kunming Institute of Botany, Chinese Academy of Sciences, the laboratory, established in 2009, aims to conduct research into the modernization of traditional Chinese medicine and the application of biotechnology in medical science.

State Key Laboratory of Synthetic Chemistry

Established in 2010 in partnership with the University of Hong Kong and the State Key Laboratory of Organometallic Chemistry located in the Shanghai Institute of Organic Chemistry, the Chinese Academy of Sciences, the laboratory aims to create and identify novel chemical compounds with important structural and bonding features or with notable potential for practical applications.

Research Institutes

- The Asia-Pacific Institute of Business
- Asian Institute of Supply Chains and Logistics
- Brain and Mind Institute
- CUHK Jockey Club Institute of Ageing
- CUHK T Stone Robotics Institute
- Hong Kong Cancer Institute
- Hong Kong Institute of Asia-Pacific Studies
- Hong Kong Institute of Diabetes and Obesity
- Hong Kong Institute of Educational Research
- Hong Kong Institute of Integrative Medicine
- Institute for Tissue Engineering and Regenerative Medicine
- Institute of Biotechnology
- Institute of Chinese Medicine
